4/28/00

Dear Mr. Stein,

You'll be welcome if our medical conditions do not deteriorate more.

My wife had four major operation in six weeks when she was 86 and then she spent six months in nursing homes. I was hospitalized for pneumonia and the nursing ho which I was sent just would not discharge me. I finally discharged myself. After three months! And I'm now almost 87.

I suggest that you phone in advance.

I'm not familiar with the modern superhighways but in coming up from down there one that goes near Hagerstown, I think 81, may be easier than fighting all the Washington Beltway traffic.

I am in dialysis Monday, Wednesday and Friday mornings and it takes all morning but it also tires me so I'm usually home for the rest of the day.

Please remember also that I retire exceptionally early because I get up early enough to require that. This also means you can get here early if you'd like to.

Sincerely,

Harold Weisberg

1/22/00

Dear Mr. Weisberg,

It has been over two years since we last had correspondence and many things have happened to me since that time. I have graduated high school, enrolled in a four year college and made many decisions will influence the rest of my life. However, one thing has not changed, my interest and dedication in researching the assassination of John F. Kennedy. I have read parts of your books which I ordered two years ago as well as works by Jim Maars, Jim Garrison, Robert Groden, Mark Lane, Anthony Summers and parts of the Warren Report. In case you wondering why I am so interested in researching an event that happened 37 years ago I can tell you right now.

I refuse to live in, be educated in and possibly raise a family in a country that can let its Commander-In-Chief die without knowing who pulled the trigger. That is my reason for wanting to discover as much truth as I can pertaining to the events that transpired on November 22, 1963. In your letter to me in October of 1998, you said that if I was ever in the area, that I could come by and make copies of any files that you had as well as a general folder you give out to people like me. The date I have in mind is President's Day Weekend which is around Feb. 20th or 21st. I know I have taken up enough of your time as it is, but if you could respond to this letter and tell me when the best time for me to stop by, it would help me tremendously.

I deeply appreciate you taking the time to read my letter and I hope that someday people will realize how many years and money you've spent freeing documents for others to read. Your dedication has kept me from quitting many times and I only hope you get the credit you deserve. Thanks again.

Sincerely,

Brett Stein
