Dear Harold,

Once again Mary + I thank you + bid for your friendship + hospitality. I really enjoyed meeting Jim + being of what little help I could to you. I only wish I could do it more often or, better yet, full time. Now that the nice weather seems to have returned, I could probably come down on some weekends to help you out. Just say the word + I'll be down.

I enclosed a tape of Ray's interview with Rather. I also sent a copy to Jim.

Please let me know what happened with Ramsey's girlfriend + Zebra Press. I was going to call to find out, but I don't think my phone bill can take another long distance call. When we got home + cleaned out the back seat, we found your thermos. If you need it right away, let me know + I'll drop it in the mail. Otherwise, I'll just bring it with me the next time I come down.

Best,
Karen

Dear Karen,

Many thanks for your 3/17 and the enclosures. Sorel took me back...Ik knew Thomas, nee Feeney. y early archival material includes him.

Colicoff had promised to send me a copy of his New Times piece. Now I know why he didn't: it is angled to help the committee.

Thermos can wait. Or you can have it. My fault.

There is no such thing as "what little help." I'm and I do exactly those things you did for us. Your doing it released us to do other things. It really does help, thanks.

Much as I want an assistant your primary obligation now, while you are young and without permanent attachments and other responsibilities, is yourself. This means law school. This means holding your job. But I thank you and I wish I could.

There is no such thing as a weekend on which worthwhile work can't be done, there is that much chaos here. Example is my CIA and FBI FOIA/PA requests, messed up by a student who did volunteer and never finished. They both need arranging into a chrono file of originals and a separate copy on each by subject. There is so much of this!

With Kimsey's ^{girl} friend, also our friend, things went well with Zebra. With me I think they did but there remains the basic decision, do they want to tackle something this tough as straightforwardly as I will. I should know before too long. They seemed to be favorably impressed and disposed. But one is vulnerable.

Again thanks,
