Dear Karns,

Glad to hear from you and to get the clippings. Included some I did not have.

And we'll be glad to see you and Mary. We haven't seen her since she married.

Mostly we are home all the time save for local errands and medical appointments.

Of the latter those out of town are at Johns Hopkins, in Baltimore, but none now seems like a conflict. Only it is always good to check just before coming.

You do not say it in your letter, but have you moved back home? Seems like your old address. And do I remember correctly, you worked at Kennywood before?

I see you plan a Sunday. I'm always home Sundays for either Redskins or Orioles games. And do not mind their being interrupted. Besides, the Redskins are often at night. As you may remember, we are only minutes from I70W.

One of the reasons we are almost always home is that it has not been safe for me to drive out of Frederick since 1977 and I don't. Another is that I'm limited in walking capability and can't stand still for more than a few moments.

Right now, as I probably will be when you come, I'm writing again. Two books are now possible for me without using the stairs to the basement to retrieve from my files down there. I have the first largely drafted and then will return to the second, which I'd started researching when the ~~second~~ first became possible.

The one to which I'll return involves the Commission's counsels, so almost anything you see on Specter might be useful.

We hope you and yours are fine and look forward to your visit,

our love,

Dear Harold,

I'm finally getting around to sending these clippings to you. They've been sitting on my desk for months, but this summer has been so hectic for me, I'm just now getting to a lot of things I had intended to do long ago. Between my "regular" job, which keeps getting busier all the time, and my part-time job this summer as a police officer, I basically haven't had a weekend off since May. At least Labor Day was my last day "fighting crime" at Kennywood Park, so now I have my weekends back at least. All in all, I did rather enjoy the police work. It's something I've always wanted to try, and working at Kennywood gave me a "taste" of what it's like, without a lot of the danger you'd get working for a City Police Dept. It wasn't totally uneventful, however. We did have a number of drug busts, and enough weapons violations that we all were wearing bulletproof vests by mid-summer. But it was interesting, and I'll probably do it again next summer.

The one drawback to working two jobs these past few months is that the summer just flew by, and I didn't have a chance to go anywhere for a vacation. Mary and I have been talking about a trip to Washington to see

the Star Trek exhibition at the Air & Space Museum.
So, we finally found a weekend in October
that both of us are free, and we've
made reservations. Barring some last-minute
problem, we'll be in D.C. the weekend of
Oct 23-25. Since we'll be passing by
Frederick on our way back on Sunday (Oct. 25th),
we'd really like to stop by to see you
and lol if you're going to be home and
would like some company for a short while.
Let me know if you'd be interested in a couple
of visitors that day.

Take care, & I hope to be seeing you soon.

LOVE,

Karen
