

Vince,

7/17/78

This is a Phila. FBI record that as you can see was distributed widely and redistributed.

For the time being my source must remain confidential.

If I see anything further I'll send it.

The obliteration is a source, from the exemptions claimed probably a symbolled FBI informer, not only a "source."

On another matter almost a year passed before I saw what Mike Mallow said I said in his Phila. mag. piece. I'd wondered why he did not send me a copy, as he'd promised.

With the passing of time memory dims but it sigply is not possible that I said much of what he attributes, even quotes.

I do not expect the mag. to print a retraction or correction after all this time. But I did write it. It should be troubled by the extent of the fabrications.

If you see anything I'd appreciate a copy.

This is the kind of mischief that, from government records I'm getting, is used maliciously, even viciously, and I believe effectively inside the government agencies. I have copies of overt fabrications about me sent to all the AGs and even to the White House and the Senate.

Sincerely,

Salandria, with DFO 89-43-8424 cut off. 6/28/68 in Phila, 7/17 in DL.
