Dear Mr. Schafer:

I am researching certain aspects of the Kennedy assassination and am particularly interested in the photographic evidence. While studying the Testimony and Hearings Before the President's Commission on the Assassination of President Kennedy, I came across FBI interviews with you and your wife which described a photograph showing the President's limousine. According to the FBI report, your wife felt that one of the spectators in the background resembled Jack Ruby, but the FBI decided that it did not. Nevertheless, I would be very much interested in obtaining a copy of this photograph. Would it be possible for me to borrow yours to have it copied, or could you have a copy made and then charge me for all expenses. I am sorry to impose on you in this manner, but the National Archives does not have a copy of this photograph.

For your information, the FBI reports concerning the interviews with you and your wife can be found in Volume 26 of the Testimony and Hearings Before the President's Commission on the Assassination of President Kennedy, on pages 602-604 (Commission Exhibit 3050). If you would like copies of these pages, please write me and I will send them.

Best wishes.

Sincerely,
