Dear Gary,

I am curious about the "economy" in ordering from CD 1431. Why was page 34 omitted? It runs from 31 thru 36, except for this, which would seem to be a page dealing with the alleged threat by three different philatelists.

Some of the documents came with the CD no. missing. Perhaps one or more of these is among those missing? Any clues? Names?

Why did you and Hal omit Hoover's letter of 2/12/64 in ordering documents on Oswald as an agent. It also had attached affidavits, according to another document.

Did either of you check further into these matters: What Jimmy Bosch told the FBI about his brother, in the 11/23/63 interview in Puerto Rico that wasn't ~~typed~~ with the interview with the brother that wasn't typed until the following May?

Did either check the interview with Malcolm Hoy, by FBI Agent Karl, Robert H, LA, 8/24/64

Did you check further into the Mary Chandlee matter (Orsony case) to find if the FBI had interviewed her about Orsony's call?

With respect to pp. 97-102, did either of you check to see if any of those identified by Emerson Varner Price had been federally contacted?

1396, 52 and 54 on attitude toward JFK ass. by Dr. James Watson Lassiter. While I see no reason for getting these, I wonder about the omission of 30?

1396:66-8- Edna Shaffer's letter? Did you really order this? Why? Some of idiocy?

Sincerely,

HW
