Sept 25, 1968

Dear Harold,

Good to hear from you but sorry to hear, that as always, you're swamped with work. Only sorry that Hal and I couldn't have stayed longer and helped with the stuff.

I don't have the index with me, but if I remember correctly 1395 is one of the "Other Individuals and Organizations Involved" documents. If so I have looked at it and ordered anything of interest. One of those files had nothing of interest for our purposes at present. As you may have already noticed, I get any and all documents which deal with real-sounding threats or threats from right wing groups since I am very interested (as you are) in the failure to protect JFK. If you have a chance, look up my back correspondence. About 3 letters ago I sent you a complete list of all that I went through in the Archives those two days. Hal checked much of my work as I did his. I think that I have 1395 on microfilm in which case I can re-check it if you are very interested.

When you find out about the numbers I sent you please drop me a line so I can re-order those they didn't send. Some of them were important if my memory serves me correctly.

Too bad about the photo but I hope it comes. I will write Steve Burton for Larry Howard's pictures. The "John" you refer to doesn't ring a bell.

Your experience with Ebony doesn't surprise me. If you will remember, when I suggested it originally I had doubts because of their pro-establishment line. If I can get to Harry Edwards at Cornell, all this

change. I will do my best out here to get backing for Coup D'Etat. By the way, the Christian Crusade has two new books out which might provide some trimmings for the manuscript while you are waiting for a publisher. One is an attack on King and the other covers Bobby's death and other topics. They also have a recent attack on the Warren Report. If you are interested, I will send details, but I don't happen to have them here now.

I have run into an ex-Alpha 66 who went on two missions out of Florida, post Bay of Pigs, and who was recruited by Rojas himself. Send me any questions and I will ask him about them. He seems to be reliable and I have known him for some time, but he could always be a Company man on campus. He has files on the right wing which I hope to be able to go through since they deal with the south.

The people who I stayed with after the hospital had an amazing experience in which they ran into an ex-CIA man who was freaked out when they asked if he was a Company man. They picked up the term from me and were using it as a joke. The meeting was clearly chance. He is going back into the Washington area and I may be able to get his name if they still have it.

An ex (I think) CIA man will be in town in the next month and I will be meeting with him in the presence of a negro friend. He quit or was fired right after the assassination according to my informant. It can't hurt to talk to these guys--especially the ones who left during that time period.

Am swamped with work at present and am still having to help get the house in shape, so I haven't been working on the case for the past 3 weeks. My new address is 1080 15th Ave. SE, Minneapolis, Minn. 55414 and new telephone is 331-4860. If you ever call and I am home I will say that I am in the shower (or something) and that you should call back station to station in a few minutes. I have roommates so it won't be an agent. I still haven't tried that chicken recipe. Take care and don't overwork your wife.

Gay

~~xxxx~~ 9/27/68

Dear Gary,

I've been accumulating a letter to you. Don't know why I hadn't mailed it earlier....I'm swamped, but I'm not doing as much. I'm trying to rebuild the muscles of the aging body, get a little more sleep, and think a bit.

I sent a copy of the lists to Paul and copies of all the documents. He is marvelously precise and methodical. Thanks on 1395. The letter on the order is enclosed or has been sent copy to Paul.

Can you write or phone Harry Edwards? Time flies on that one.

Both Hargis things are interesting, when you finish. Penabaz fits, through Duarte and, as you know, he was a pal of Hargis.

Who is Alpha man? Anything and everything on Bringuier, Duarte, Penabaz, mercenaries, Bretos (formerly New Orleans head) and any of his group there, particularly those of whom you know my interest. To date, Bringuier is the only Cuban who hasn't cooperated with me! Ricardo Davis, the N.O.L camps and people.

Going to the coast in three weeks.

Vince sent three tapes, finally. Will transcribe soon. He is dissipated, I think will not or cannot get support for my publishing, and is busy on business.

I now have all Oswald and "Oswald" change of address cards, not too clear. Can your expert examine? Can also be obtained, better copies, from Archives. I think it should be done. His is quite characteristic handwriting. We could spot it on Ryder guest book even without any signature. It would fit a book on him as agent very well.

Hurriedly, with our best,
