

8/19/68

Dear Gary,

Your letter of the 16th arrived today. Please explain the paragraph beginning "Baker was very evasive". If you mean at the Arch., is that Johnson? That being the case, which photo(s). I'll be there Wednesday but you cannot let me know by then. I'll be in D.C. again next Wednesday, if not sooner. When I get the docs, I'll copy and send, Hal's to Paul unless it is this week that I get to copy them. Okay on the memo for Bud. However, I cannot find the medical one of Kroman, leading me to believe you took it back, I failed to copy it, Hal has it, or it is mislaid. I'll check again and let you know if you do not have the extra copy. Cannot now.... I think Louis understood me and between him and me there is no friction. He would not deceive me in any way because he knows I usually follow thru.

Wish you could have been here longer. I spent three hours today making photocopies!

If you examine Ex 762, pp 2,3,27, you can perhaps understand the new addition I made to COUP D'ETAT. In that connections, there is a fitting juxtaposition with Abe. I have never had a response from his wife and never had the letter returned. If you recall Fran Galt, who was then working at the Y, as I recall, he had much information that I could not use coming from him. I'd like to be able to get a first-person account from Abe, to use in just this context. I do not believe he will ever get as good an airing. I do not think I should write him directly. Of course, he may not want to, but I think it would help him. However, do not indicate to Fran what the book says, save to offer your opinion. What I mean is can you write Fran to ask?

A British correspondent friend read it and thinks it moves things into a new era and has possibilities. I expect him to introduce me to someone Wednesday.... Lisa has spent just about all her time typing and fitting the additions into place. Lots of work.

Best from us both,
