

6/16/68

Dear Gary,

While Freda (prettiest courier a man ever had) and Mike are relaxing with my wife and some friends at a picnic nearby, I write hoping that they can mail this from where they live and save a day.

I have had a hasty glance at the pictures through an 8x magnifier. My impression is that these do not include the most important shots. There is no good one of the main man. Now there is a view or there are several views of him from a different angle, and with the question one of him having been counterfeited, in my present work and with the people I hope to see in the near future, they can be very important to me.

I gather more will be sent, one of the reasons for haste. Unless they are now on the way, it would be a very good idea if we can send me at least one set care of Louis (Matt may be away for a while; I've not heard from him for a while and last heard of him in Texas). If Patsy can make extra set, if I have two there I can give Louis one. I'd like a file set to keep at home.

Please let me know what your plans for the summer are so that, if the need and occasion arises, we can zero in.

Pann and L.A. are mightily upset at the disorder and error in the ms. Spoke to them last night. Spot checking disclosed careless error. Don't know whose.

Now I am not in a hurry for the motion version, but I'd like all the different prints Patsy can make, with the maximum clear enlargement of the man in whom I'm most interested, and of as many frames as show different things, or rather, different identification points.

From the color of the glasses, I am willing to accept the southern estimate that it is not HoHoHo.

It should be possible to get at least one clear image of each of the principals. This, I think, is not here. I am getting more and more interested in the precipitator of the fracas. Not only because he stupidly allows me no choice but because my investigations disclose what requires it.

Please try and get Patsy to work right away, making his prints either from the 8mm or from whatever he wants. I think these slides not the clearest possible and the color not as good as it could be. Until I can project them, I cannot be sure, but I fear the selection was not the best.

When I can make my next trip I do not know. My total resources as of tonight, with an empty gas tank, are \$7.00. However, I feel I must be there in not much over a week. With Matt away, that may not be as easy, but one way or another I must do it. I will. I'll try and let you know when I am there. If there cannot be more than one set of prints, I'd best have them there unless they can be mailed to me here pronto. Hope you can make out the typos.

And thanks for getting these done and to me.

Sincerely,
