Dear Harold,

I'm sending you another check for \$20.00 for some more copies of Oswald in New Orleans. I've made several public appearances in the last few weeks and quite a few people bought copies of it so I only have two left. I probably should have written you a week ago for some more but I got tied up. The book is really helping me present the case to the people out here and I'm rapidly being booked up for appearances in March, so I'll probably be ordering some more books from you in about 2 or 3 weeks.

I have been waiting for a copy of "President Kennedy's Final Hour", the DCA film, but I think that the government picked it off in the mail since its long overdue. I am going to try to scrape together some money to have slides made from the relevent portions of it so let me know if you would like me to have a set made for you. (By all means let me know if Dave Lifton or someone else has already done this and is selling the slides so I won't have to go to the expense and trouble.) In the near future I will be meeeting with an executive of a large company out here who is interested in the case. Perhaps I can get some financial backing to get some photographic work done.

Enclosed is a copy of a note one of the men I work for left me concerning your book. I think you'll find it amusing. Best of luck.

Harry

Dear Gary,

Please forgive haste. Just returned from two-week trip, way behind, and wife tore all ankle ligaments badly. Send book insured yesterday.

You are doing very well. When you get DCA film, remember, this is the schmalz that remains when all the good stuff was edited out, from the title. It was not an investigative editing but one for schmalz. These people knew and cared nothing about the fact of the assassination. See WWII end PM.

If you get any good slides that show anything, fine. But before you spend any money write Dick Spregue, University Club, One West 54, NYC, and see if he has had any slides made that you can use.

One Joel Palmer, whose address I do not yet have (we've been in contact by phone only) is having a psychiatric study made of the abnormals involved. He is in Detroit. Should you and he be in touch? He is also a photographer.

Unfortunately, Lykken's attitude is justified. There were new trunk lines put in the building where an associate has an office. Two weeks later there was some trouble. There are two lines in that office. There were, by then, two bugs on the lines

In your appearances, you may be interested in knowing that O in NO has the document Garrison cites in his Dulles subpoena on pp. 101-2.

Best regards,

Harold
