Dear Harold,

I decided to stop studying for a few minutes. I now have a sore throat and cold which was made worde by public appearances the past two nights, but they were a must. Mike Collins, an ex-boxer, who is now an important businessman and union man. He is going to Miami in a few weeks and will be looking into a few things for me, then on to the Virgin Islands—lucky bastard.

Enclosed is a copy of Ceil van Leuven's letter to me and my reply. She sounds like either a nut or agent, but I hope not. I have been in contact with Bill Diehl-he has a Ruby letter and is a good contact with the St. Paul Papers and WCCO. The film of the literature dist. refers to a call he got on the air, but he lost the name and number and is now furious! at himself. It could very well be Martin who I have been trying to get a hold off for some time. When I reach him I will check. Martin often calls into call in shows.

Your unofficial Dallas source reads like Hunt's boys. I cannot read all of the ###E one labeled "Inter-Communication" or the Ruby notes. Lane's memo isn't very informative. I have the Jimmy Boach Report-I originally docated it in CD1179 quite some time ago and you got a copy at least this summer. Why the interest in Malcolm Hoy. By the way, "Lane's statement at the bottom of the first page of the memo about photocopies of documents being no good for handwriting analysis is not true if they are good photocopies. Naturally the original is the best, but often the original is photographed and blowup. For example, Ann Hooten, close freind of Alwin Cole (the Commission's expert), and top notch expert, Bid this with those dollar bills I have. Remember when I showed them to you. She was able to do much better with the blowups than the originals. By the way, I have discovered an instance when Lee signed his name Hideel and intend to send it to Cole for his comments. The Dollar bills had the name spelled thus but Cole had never seen it spelled that way.

I hope to have info on William Crookshank by Tuesday evening. Anything you find out should be given to me immediately. Otherwise, much time and effort will be wasted on my end, and I may fail to get what we will need to know from the informant.

Also enclosed is a copy of my reply to the reply to may complaint to the postmaster general about the late arrival of the WDSU film. Also enclosed is a recent letter to Hunt's man, Rothermel.

Will try to take another look at the WDSU film re: man alleged to be Shaw. If Mike wasn't so busy I would ask him to copy a few more frames just to have a sample of each sequence. By the way, you have noticed by now that a number of the second set of frames was accidently printed backwards. Sorry about this, but the blowups will be done right. I don't think that him will cause confusion. I will write Paul about it when I send him copies.

Is everything all clear with Bringuier article now?

My people have begun the long slow process of arranging for the possibility of an appearance by you next March. This time we will not rely on the University and will not get screwed time wise at the last \*#minute and therefore not lose that hour of TV time. Also, my contacts improve every month in regard to the local media.

I agree with you distrust of Lifton, but I'm glad that you are obtaining proof of it in black and white, the same way we do it with the Archives. We simply have to test the limits of his reliability.

Barry Ernest is looking into Youngblood et. al. and trying to get a photo of him from the publisher of the book. What eactly do you have on him or what are your suspicions, other than that he may be the guy in Rich's testimony due to resemblance of names.

Do we know of Antonio Breton from the case (guy in Bernabei's letter)? The name is definitely familiar but my head is soo clouded to remember exactly from where.

The psych blast will be a long project which I probably won't get to until this summer. There is an enormous literature on it, most of which is tripe.

Hurriedly, Gary

December 8, 1968

Mr. Edward M. Kriz Customer Relations Division Post Office Department Bureau of Operations Washington, D.C. 20260

Dear Mr. Kriz:

This is a raply to a letter sent me on your behalf on December 2, 1968, by Mr. Charles H. Ryan of your department. The letter stated in part:

It is very difficult to isolate the causes of service delays which sometimes occur to individual pieces of mail. This is especially true when we don not have the envelope or cover in which the delayed mail was received. These covers often bear postmarking information and other notations useful in pin-painting the trouble.

As suggested in my previous letter, I keep records of my mail troubles, including postal receipts, package covers, and envelopes. I will be only too glad to send you the front of the piece of first class mail in question with all of the postmarks intact. This need not hamper any investigation of this affair. I am not clear as to why you assumed that SIdid not have this item.

Any correspondence to me for the period Dec. 10 to January 6 from your office should be addressed to me at 105 Gladstone Road, Lansdowne, Pa. 19050.

Sincerely,

Gary Richard Schoener Box 392 Mayo Hospital Minneapolis, Minnesota 55455

December 8. 1968

Mr. Paul M. Rothermel, Jr. Assistant to the President Hunt Oil Company 1401 Elm Street Dallas, Texas 75202

Dear Mr. Rothermel:

Thanks for finding time to acknowledge receipt of the material I sent you. In my haste, there were three items of possible interest to you which I forgot to mention or include.

Dr. Penabez, who is the author of several books offered for sale by the Christian Crusade, was due to speak at their last Convention on the subject of the assassination. His talk was cancelled at the last minute. A letter indicating the reason for the cancellation is enclosed.

I recently received a letter from Rev. Charles Secrest, Associate Evangelist of the Christian Crusade, which indicated that Reverend Frederick Curtis Fowler, formerly of Duluth, Minnesota, is currently in Texas. Reverend Fowler attended the meeting in Shreveport, Louisiana, mentioned in the FBI reports on Penabez.

Myself and several others who are researching the assassination are approached from time to time by individuals who are intent on convincing us that Mr. H. L. Hunt or other Texas millionaires were behind the assassination. In some cases these individuals claim to have factual information. For example, a man using the name Ron Reid approached me in the Fall of 1966 in Minneapolis with information of this sort, then used a flimsy excuse to photograph me, and then tried to follow me in his car. I will eventually find out who this man is and will be glad to keep you posted if you so desire. I suspect that he is a government informant. I am just as concerned about such rumors as you people are since I regard them as sources of public confusion and red herrings in the investigation. Needless to say, they are also slanderous. During every radio broadcast or public appearance I am called upon to refute such rumors, so even after 5 years they are still with us.

From December 10 until January 6 I will be at 105 Gladstone Road, Lansdowne, Pennsylvania, 19050, should you require any further information.

Sincerely yours,

Gary Richard Schoener
