Janesville, WI 53545

Dear Cal,

For years people have been saying what you say in a different way: if the government has nothing to hide why does it hide so much?

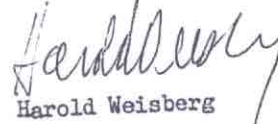

I never got copies of Oswald's discharge papers.

You can get them from The National Archives, JFK Assassination Archive, College Park, MD. I do not know the zip. All Americans are to get the first 100 copies free, rather, under the 1992 Act.

Whenever you come will be OK if we are free then. Please check first.

The weather does not look very good for travel right now.

Sincerely,

  
Harold Weisberg

Dear Mr. Weisberg

Thanks for writing back. So people could have gotten ahead of Curry. I thought so, what doesn't make sense to me is that if the government didn't have anything to hide then why don't they tell the truth. Why don't they let people look at the sealed files. It doesn't matter what the government says it's most likely a lie.

I must ask this, or should say everyone I talked to, they want to know if you ever or still have trouble with the government.

~~PS~~ I have been busy working on my book and I hope some day it will get done.

Charlie is working hard on typing and getting every thing in order.

I was wondering if you have any of Oswald's discharge papers from the marines. If you do have them handy would you please send it to me. If you can't it's OK. Thank you.

friend  
Cal Schooner

PS. If you want me to wait till I come in March or April I will.

PSS. If you send me them, I mean a copy OK. If you can't I understand.
