Dear Mr. Weisberg,

I hope you are feeling better and able to get back to your work.

If you had time to read my book i would like to hear your opinion, what you think. If you dont agree with the chapter I wrote about you then tell me and Ill change it before publishing, ok. I took all the information I got for the chapter right off the tape, remember.

More than likely you dont agree with what I wrote, I told your wife that you think most of Garrison's information was a lie and she knew it already.

My point is this when I started writing my book I had limited supplied information. AS I said to your wife I think Harold will think my book is a lie, She said why? Then I told her that I got my information from other's book's. I dont agree with most of them and I say that. Anyway I said to her you most likely think its a lie Then she said "It's not a lie if you believe it".

I have to agree with her. So I hope your not upset.

So did you like the book Oswald Talked. Mrs Weisberg told me about it, sounds like bull!

Charlie wanted me to ask this "what was the reason for the cover up", In the Kennedy assassination?

So if you could answer that, it would be great. Thanks for your help, Next time I visit It will be July. so see ya then.
