Dear Cal,

Moore is a phony and his work is all dishonest.

As I told you, Goden would not answer you

I have no address for Lane or Marrs but both should have phones and addresses listed. You'll waste time with both-if they answer.

Garrison's staff scattered years ago and none had any records of which I know.

How thinky can you spread yourself and still be able to do what you want to do?

Are you not going far afield, getting away from fact and into unproven theories?

You have to be able to prove that each of the fragments in Connally's body came from a single bullet and you cannot do that. Makes no difference what bullet.

The fragment in his left thigh was just under the skin and parallel with it.

How can that have come from the bullet that smashed his right wrist whatever position the wrist was in?

Best wishes,

The path of that thigh fragment was for about three inches just under the skin and parallel with it.

You've not read my books or you'd know this.

12/4/95

Dear Mr. Weisberg

Thanks for writing back. How's every thing going for you. So far every thing is good for me. I am stuck on my last<sup>two</sup> chapters. My last chapter is my conclusion on the Kennedy Assassination. My second to the last one is about you. Its about the interview I took when I was over to your house and what I think about you and your ideas. Its titled My Interview With Harold Weisberg.

I am reading the book Conspiracy of one, what a bunch of bull. Did you read that before. Moore talks bad about you and Broden.

Speaking of Broden its been about 3 weeks and I have not got a letter back from him. I think he is a jerk.

When I told you how I believe Connally is shot. I dont think 309 did the damage, now like I said before I do believe that Connally was hit by one bullet. The reason why I believe Connally was hit by one bullet is, if you use a high powered rifle like 30-06 from a distance thats not to far, I believe a bullet could go through the whole body. As you know Dealey Plaza is a small place. The position Connally was in when hit, a 30-06 could go through and could creat all the wounds. See I study guns and I go hunting all the time. I shoot guns all

The Time. I have a 30-06 and it's one of the most powerful rifles in the world. Of course The Way Connally was wounded is my own idea.

I am running out of people, to ask you their address. If you can ever find out Mark Lane's, Jim Martin's address please let me know.

Mr Weisberg do you know if <sup>any</sup> Jim Garrison's staff is still. If you do would you give me any information on them or any way I could talk to them. Do you think they would talk to me about Jim or the Kennedy case

I don't know when I will be able to come and see you but it should not be too much longer.

I may have to wait to my Spring break Octa here which is in April. I hope it can be sooner but I don't know.
