The Carper - wind an entropy

Dear Cal,

12/26/96

You say you have heart trouble but you do no report having been to a doctor or what he told you. Those kinds of symptoms can came from causes not within or of the heart. I hope that is the case with you. 45 years ago I had any irregular heart beat for years and then it just got regular again. I hope that what you have is not a serious condition and that you can do for it what most

people are able to do.

I did not answer your last letter because I have more to do that - can how find time for and most of what you are talking about is unreal. I told you that. You paid no attention to it. 'ou do not have to, of course, but I also do not have to do what - thinks is a waste of my time of which - have so little.

Now \perp have to rest much more and \perp do. And I do have my own writing and the reading and correcting of what is being refyped.

It is little childish for you to believe you know enough to be able to do a real job of refuting the dishonest Oswald Talked.

It in fact is a waste of your time and your mother's money for you to even get and read that stuff.

Particularly when you have not begun to do what you can do to become more of a subject-matter expert.

Good books you have not read. Bad books you get to read?

I think you know I've taken all the time I could for you and done all I can to be of help to you. But I also have my own work and my won problems to cope with. They mean I can't keep dhing what I know is wasting time.

Leavelle and I are friends but we are not pen pals who write each other just socially. I have not heard from him in a while.

Hope you have all had a good holiday and will have a fine year.
