Dear Harold Wilens,

I hope you are well again or at least improved enough to be working with more wigwag again.

I have just finished reading Booklet 'The Final Report' of the Church Committee and it's left me considerably more angry than pleased regarding the disquisitions it casts on the CBI, FBI, Warren Com., Army Intel, et al.

I know you are enormously busy and I feel like I am imposing, but if you have the time would you fill in a couple of blanks for me?

- 1) - Who are Amfash or Amwhip?  
~~Cardano~~ Cardano, Lic, Hunt, Rodriguez
- 2) - Is there a real (was there) Desmond Fitzgerald, whom I can not identify in any particular source? Is Fitzgerald an aka?
- 3) Who was the CIA, Mexico City Chief in Spt '63 (HUNT?); who after that?
- 4) Was Holmes responsible for the cables from Mexico City Nov - Dec 63?
- 5) Who was/is the desk officer in the Western Hemisphere Div of the CIA handling the investigation prior to Angleton? Why was he replaced?

The Select Committee refers to FBI memos of Oct 10 '63 & July '64 and an Oct 29 '63 meeting between Amlush & Fitzgerald. Do you have any of this 'info' can you elaborate from Footnote 21 page 26 is incredible, any info is comment.

I interest also is footnote 20 pg 14  
"... section of top and support of top U.S. military officials."

I've always felt the selection was to be found with Naval Intel, Army Intel, Far Eastern Affairs & the DIA at least as much as the CIA. My feeling is that Oswald's military background & intelligence was never terminated.

Also the Report makes numerous references to the 'S.A.S.' (Special Affairs Staff) and yet in all the materials I have to closest thing to SAS I can figure is Special Operations, Counterintelligence, D.O.I. ? SAS doesn't even appear in the Marchetti book.

Jacky and I are particular interested in the mood for writing, who do you make of the Schwicker, Mondale select line & Church trying like hell to get on the national ticket? Additionally it looks like Baker

to go to Ford! ... all of it smells like  
'shit' to me. Either that or we're in for one  
hell of a campaign.

Forgive me, one last recurring question  
I should have asked you long ago - at Bernard  
Gentensward's "ETFA"? Don't his representing  
McCord at the Watergate trials for some  
thing sinister, as some suggest. Or is  
at more likely McCord wanted a competent  
att. who would guarantee his message would  
get across? Norman Mailer seems to imply  
the obvious collusion of Dallas to Watergate  
by the association of the 2 men is a set-up  
in it own right designed to be misleading.

I've just returned from a 5 wk junket  
around So West US & Bay Area Coll. I spent  
most of my time in Berkeley & the Berkeley  
library. Both used book stores, there are  
well used copies of "White Knight II". I only saw  
one copy of WW II notes of "Nameless Post mortem"  
also there are all of J. Jaesten's books  
other than Arabian or Fall Guy and in  
most places even the most sophisticated  
the titles were essentially unknown. You  
might well guess that the work of Dr. Peter  
Dale Scott is the most popular in the Bay  
area as is Max Brucell's but your work

was also well known & well respected, I spent 15 days in Berkeley. I did not get to see or talk w/ Dr Scott although I think I have spoken before (a few times) w/ Bruce so I didn't try since I follow his activities thru WBAT & friends I have on the coast.

On my return home I found a letter from T.H. Frawin, Belfast Ireland, giving me the address of Jo Jester's widow in NY along w/ phone #. I did speak w/ her although she was leaving for Baker's field Camp later that day. She'll be gone a month. When she returns she plans to dismantle Jo's library, allowing her children to keep those materials & original manuscript they desire and then giving away the rest. She indicated a wealth of material in multiple. It is her plan to dismantle both libraries (Mass & NY) sell the books & retire to Stockholm before Christmas if possible. She has promised to call me when she returns to Camp. Are there any of Jo Jester's materials you'd have an interest in? As I live near (25 min) to Mrs Jester she has said I may come to her home & select what I would like if what is available?

As ever,  
Larry Reinhardt

P.S. you fix me your phone # & fax #  
and mail me the address
