Dear Senator *Hart, Schweiker, Church*

So you could not find any evidence that would indicate that the Warren Commission erred in its conclusion that Lee Harvey Oswald was the lone assassin of President Kennedy. That is absolutely incredible, because I, a homemaker from Downeast who has no resources whatever, can point to literally dozens of pieces of evidence which show that there was more than one assassin - and - that Lee Oswald was not one of them. Now how is that possible?

It is disgusting to me that men in your position have totally abused your power and have sold out your obligations. You are a discredit to your calling. Don't even begin to wonder why there is no confidence in government today - your actions are responsible.

I demand to know exactly what investigation you carried out to arrive at your conclusion, as well as who did it?

If you had wanted some leads, which obviously you did not, you would have consulted people who have done responsible study of the subject. These include Harold Weisberg (Whitewash I, II, III, and IV), Sylvia Meagher (Accessories After the Fact), and Howard Roffman (Presumed Guilty). You would have learned of significant items which show Oswald was innocent. Some of these are: the paraffin test which showed no nitrates on his cheek, witnesses who saw and talked with Oswald after noon on the first floor, the FBI and Secret Service reports which had Connally hit by a separate bullet than JFK, the revision of the autopsy report, the doctors' statements that the throat wound was one of entrance, and - to name just one more - the Altgens picture which shows the man in the doorway (who Lovelady said was he) wearing a shirt identical to the one Oswald wore when arrested and not at all like the one Lovelady said he wore. Amazing that I know all

THIS, IN ADDITION TO MY STUDY + THE WORK OF RESEARCHERS, BUT YOU CANNOT FIND ANY OF IT. Theresa Garnett

Guess I haven't mailed my carbon letters!
