

Don Scott, phone call from him. He is the editor of the Ontario Option and says he organized the confab at Sudberry. *about 2/22/95*

I do not have time for a long memo. He was offended when I said there were many nuts there. He acknowledged that they were theorizing but claimed on the basis of fact. I said none of them knew the fact well enough. He was offended when I told him that what I knew I remembered from what Dave Wrone told me. He was offended at Dave for leaving as soon as he spoke. Claimed that Dave tried to bill them for air fare in excess of his trip to Sudberry. Claims there was a vast conspiracy and came close to saying specifically that it included elements of the Dallas police and of the Secret Service. He went into great detail on high-ups in the Kennedy administration and their misuse of the gold they captured with Lehlen. Especially Forrestal and the secretary of the Treasury whose name escapes me at the moment. Also Truman's, Snyder. When we were about to end the conversation I asked him if he had ever reviewed Case Open. (He said often how important he thinks my work is, read it all, etc., and uses it.) No, he did not review Case Open. But he did review Case Closed because it was getting so much attention. This is to say that for all his ~~dedicate~~ dedication to getting the truth out, he had no space to mention Case Open in his paper.
