Dear Joe,

Please do not ever send me anything as thoroughly sealed at the card inside the brown envelope. I live on an anticoagulant and any cut, no matter how tiny, can be a problem. My skin is now so friable that if by accident my forearm brushed a doorknob it ran-it has- peeled the skin back for two inches. It is just too dangerous of me to try to open anything sealed so thoroughly. And for your information, if there were any official interest in the contents, that would not have kept it sealed <sup>and</sup> it would have been resealed so that would not be detected.

What you say about the diary could be of interest but at this stage of my life, at 81, with all my physical limitations, trying to do anything at all about it is impossible.

I am not a lawyer and I do not know but I believe that will have to be recorded with public authority. Here it is the clerk of the court. It may be that what is recorded does not include special provisions that are left for the lawyers or executors to carry out. I don't know.

If she kept a diary she may have given that to one or both of her children. They are both lawyers.

Thanks and best wishes,

Harold Weisberg

Harold

The skyline of Washington, D.C. is dominated by the Capitol and the Washington Monument. The Capitol is the key to the street address system even though it is not located in the center of the city. The city is laid out in rectangular blocks, created by streets intersecting at right angles. Also, diagonal arteries fan out from various centers. The radial lines are generally named after one of the fifty states. Pennsylvania Avenue is the most famous of them, with the White House at number 1600.

Mr. Weinberg:

It is with sadness we mourn Jackie K.'s death. From FDR to Nixon - all How sad! All the great ones are gone. Please get a copy of Jackie Kennedy's will, if possible. (?)

She kept a diary of 50 years of notes. She

had several views on the assassination. Be very aware of all this! Soon a new archive controversy!
