POIA APPEAL: PA APPEAL

Dear Ar. Bourdman.

In a federal court yesterday I heard another intelligence agency claim that the year before's unrefrigerated milk-teast was properly classified under an executive order that had not been promulgated at the time of that FOIA request. When counsel started to addess the court the judge said, and this is approximate, "dave your breath, counsel. You never get anything from them until you get them in court."

This is pertinent tox all your densils stamp dated Barch 3, all of which I appeal through you in the hope that you will stop this horsing around and have the right files searched by the right people, not the wrong files by people who are blind.

I find nothing wrong with my request not responded to in your third paragraph. However, I will for now limit it to the assausinations of President Rennedy and Dr. Bartin lather King, Jr. If I want everything, which i believe is what my request stated, then obviously it has to be a broad request. If you paraist in claiming that this does not meet the criteria I want something more than your interpretation of that criteria. I want a specific citation of how my request fails to meet what language of the Act.

with regard to ESA's 11/5/56 about me to the PBI which you claim not to have and to have received only by accident from the FBI on 2/24 I'd mecommend that you lean back in your chair and ask yourself who in the world could believe you.

You was the Director of the FEI that I "was diswissed/from the Department of State because of indirect association with representatives of foreign powers."

MSA does not keep this kind of record?

It has no record of any kind about one who could be considered a clear threat to the nation's security? Then for what purpose does ASA exist? To generate paper that it systematically contributes to the recycling companies?

It has no record of how it obtained this apparently national security information? You forget I told you I have the names of some of your agents who investigated no as well as that this does not represent all the MSA files on me of which I know.

Now can you really believe that when I am alleged by MSA to pose this great threat to the country and it has the information it then Edisposes? of it? Not this is precisely what you have sent me. You have to know better.

Unless there is an established right to privacy with regard to make only for a candidate for government employment you have no right to mark that make. Clearly there is no provedy with regard to the masse of three people "associating or having associated with" me. The language of the hot is "clearly unwarranted invasion of the privacy." You have to show that it is "elearly unwarranted" when from your own claim there is no privacy at all. These are alleged to be my associates.

You haven't even bothered to claim even a frivolous exception for the other withholding.

I know exough about these matters to know that someone over there is embarrassed and that you pratend what exists does not as the lesser evil. It is an unpopular concept in the speakeries, all of which are outraged that the Congress dare exact laws applicable to them, all considering these elves above any law, but the law does apply to all of you. So I as again asking that you end these demening games and have a proper and compute search made pursuant to my request of years ago. I also ask that you use this letter to the FRI as a basis for initiating further searches on the leads it does provide, weither the craft nor the craftiness of intelligence are entirely strange to me. I was in it.

Sincerely.

Banata Smentana
