Memorandum

TO : SAC, DALLAS

DATE: 11/22/63

FROM : SA [REDACTED] (b)(6)

SUBJECT: PERSONNEL MATTER
[REDACTED] (b)(6)
Parkland Hospital, Dallas,
11/22/63 (Secret Service)

On 11/22/63 at approximately 12:35 PM, I was instructed by the SAC to proceed to Parkland Hospital and to immediately contact Secret Service Agents to establish liaison and to offer the Bureau's entire facilities and manpower for any assistance. I arrived at the hospital and established liaison with Secret Service Agent in Charge, first name not known, KELLERMAN, in the emergency ward.

At approximately 1:50 PM, with the assistance of the chief registered nurse on duty in the emergency ward, I was able to leave the area and to to another part of the hospital to telephonically contact the SAC. All outgoing telephone service on the first floor of the hospital was blocked and it was not possible to make any outside contact by telephone.

At approximately 1:59 PM, the head nurse and I cleared through police officers at the door leading down the corridor to one of the doors to the emergency ward, after I identified myself as an FBI Agent. I had previously identified myself to Secret Service Agents in the immediate emergency room area where President KENNEDY expired. As the chief registered nurse and I entered the emergency room door, returning from the telephone call, two Secret Service Agents, without challenging me, grabbed me and wrestled me to the hall floor. I immediately identified myself again. At this point, Secret Service Agent in Charge KELLERMAN appeared, who knew me from previous identification by credentials, and the matter ended there. (b)(6)

Within the next few minutes I was able to get a phone and called the office and talked with ASAC CLARK, who was advised of the above. ASAC CLARK advised me that SA DRAIN was on the premises and had a line open through which he could reach the office, and that it wouldn't be necessary for me to stay any longer. (b)(6)

SAC SHANKLIN

ASSASSINATION OF PRESIDENT KENNEDY,
11/22/63, DALLAS, TEXAS
MISCELLANEOUS INFORMATION CONCERNING

Inspector ROBERT WICK, Crime Records, telephonically furnished following information at 5:10 PM today.

There has been published a United Press International (UPI) book called "Four Days", and there is also published an Associated Press book called "The Torch is Past". These books relate to the assassination of the President and contain script as well as photographs. Page 25 of the UPI book says this: "Suddenly two Secret Service men burst into the room. One of them, his face contorted with anguish, was waving a sub machine gun. Staff members dived for cover. A man in a business suit dashed in; the Agent slammed him against the wall with one punch. Dazed, the man pulled out FBI credential, and gasped, 'I've got to call J. EDGAR HOOVER.' A moment later, the President and Governor CONNALLY were carried into the hospital . . ."

In the Associated Press book on page 14, next to the last paragraph, states, "Moments before the President arrived at the emergency entrance, a Secret Service Agent, face aligned with emotion, had dashed in with a sub machine gun. . . A man in a business suit ran in and the Agent slugged him on the jaw before the man, sinking to the floor, could bring out the card that identified him as an Agent of the Federal Bureau of Investigation."

A teletype will be sent to Bureau, Attention Crime Records, Attention Assistant Director C. D. DE LOACH, on 2/6/64.
