

## Shaw Lawyer Confirms Mrs. Porter to Be Called

### Oswald Widow Will Get Defense Subpena

An attorney for Clay L. Shaw confirmed Thursday that Marina Oswald Porter, widow of accused assassin Lee Harvey Oswald, will be subpoenaed by the defense for Shaw's conspiracy trial, scheduled to begin Tuesday.

Attorney Salvatore Panzeca said he planned to file the subpoena in Criminal District Court Thursday, but changed his mind when he realized some forms were not in order.

He said subpoenas for Mrs. Porter, Dallas, Tex., and a number of other out-of-state witnesses, will be filed Friday or Monday.

Panzeca and F. Irvin Dy-

mond, another of Shaw's attorneys, declined to identify the other witnesses.

The district attorney's office meanwhile seemed intent on laying groundwork for its contention that President John F. Kennedy was shot from several different directions instead of only from the rear.

### THREE AGENTS

The DA's office filed subpoenas

for three government agents whose testimony figure prominently in the Warren Commission investigation of Kennedy's death.

Each subpoena claimed that the agent's testimony "will tend to show that in fact President Kennedy was struck by bullets fired by more than one individual."

One agent was Lyndal L. Shaneyfelt, Alexandria, Va., photographic expert of the Federal Bureau of Investigation who examined and tested a movie camera belonging to Abraham Zapruder, who happened to film Kennedy during the assassination.

Another was Roy Kellerman, Bethesda, Md., a secret service agent assigned to guard Kennedy in 1963. He was seated in the right front seat of the presidential limousine when Kennedy was shot to death on Nov. 22 of that year in Dallas.

### EXAMINED RIFLE

The third was Robert A. Frazier, Hillcrest Heights, Md., another FBI agent and a firearms expert. Frazier examined the Mannlicher-Carcano rifle allegedly owned by Oswald, the subpoena said.

The subpoenas were signed by assistant DA William R. Alford Jr. and filed by another assistant DA, Clyde D. Merritt.

DA Jim Garrison has vehemently disagreed with the Warren Commission conclusion that Oswald acted alone. He claims that the assassination was accomplished by several persons who fired from different positions, and that Oswald played a

small part, if any.

A subpoena directed to the national archivist in Washington, D. C., for photos and X-rays from the Kennedy autopsy also claims that Kennedy was shot from more than one direction, and that the fatal shots came from the front.

A hearing in Washington Friday will determine whether the DA's office will get the material for the Shaw trial.

### SEEK TO BLOCK FILM

Shaw is accused of conspiring with Oswald and others to murder the President in 1963.

On another front Panzeca and defense attorney William J. Wegmann filed a motion asking Judge Edward A. Haggerty Jr. to enjoin WWL-TV from broadcasting a one-hour special on the Shaw case scheduled for 8 p. m. Saturday.

Judge Haggerty will preside over the Shaw trial.

The attorneys claimed that their client "will suffer irreparable injury, loss or damage" as a result of the show, and asked for a preliminary injunction.

Judge Haggerty set a hearing for 10 a. m. Friday on the matter, and directed WWL-TV news director William Reed to attend.

He also directed assistant DA James L. Alcock to be present.

The motion said the show will be seen by prospective jurors and that it will violate the judge's guidelines on conduct of persons involved in the trial.

The Greater New Orleans Chapter of Sigma Delta Chi, professional journalism, adopted a resolution against an injunction, claiming that "such censorship is contrary to the guarantees of freedom of the press set forth in the Constitution of the United States," and went on record as "deploring such actions."

In other action, the defense subpoenaed 13 witnesses, including private investigator William Gurvich, a former Garrison aide, and two of his brothers.

### DEFENSE WITNESSES

The defense witnesses are: Alvin Beauboeuf, 6709 N. Villere, Arabi, who accused two of Garrison's investigators of trying to bribe and intimidate him in connection with the case in May, 1967. Beauboeuf was an associate of deceased pilot David Ferrie, accused by Garrison of plotting with Shaw and Oswald.

Hugh B. Exnicios, 4101 Airline hwy., Metairie, Beauboeuf's attorney. He claimed to have a recording of one alleged bribery attempt in his office.

Carlos Quiroga, 3141 Derby pl., a Cuban exile who has been questioned by Garrison in connection with Oswald's activities in New Orleans.

Gurvich, who operate a detective agency at 610 Poydras. The brothers were associated with Garrison early in the investigation. William Gurvich was charged with theft of a "master file" in the Shaw case after he disassociated himself from Garrison in 1967.

Lt. Edward O'Donnell, a lie detector expert of the police department.

Capt. Clarence Giarrusso, commander of the police narcotics division.

Lt. Roy Jacob, Jefferson Parish sheriff's office.

James Kemp, 1418 Cleveland, a television announcer.

Mr. and Mrs. Jesse J. Garner, 4911 Magazine, who rented an apartment to Oswald in 1963.

Matt Herron, 1212 Pine, photographer with no known connection with the case.

SEPTEMBER, 1963

Mrs. Porter came to New Orleans last year in response to an Orleans Parish Grand Jury subpoena.

A seemingly logical defense witness would be a former New Orleans resident whose maiden name was Lilli Mae Moffett.

Perry Raymond Russo testified during a preliminary hearing for Shaw in March, 1967, that she attended the party at David Ferrie's apartment during which Russo claims he heard Shaw, Oswald, and Ferrie planning the assassination.

The party took place in mid September, 1963, and the girl was known to him as Sandra Moffett, Russo said.

Contacted in her new residence in Omaha, Neb., the woman denied being at the

party, and said she did not meet Russo until 1965.

Miss Moffett had subsequently married Harold McMaines a part-time minister of Omaha.

The district attorney's office charged her with being a material witness, but was unsuccessful in having her returned.

Mrs. McMaines eventually moved to Des Moines, Iowa, a state not a party to the uniform witness compact.

CAMERA'S SPEED

The state is requesting Jan. 27 appearances for the three government agents.

As a result of Shaneyfelt's tests, his subpoena said, it was determined that Zapruder's camera ran at an average speed of 18.3 frames per second.

"This testimony is material as it will establish the critical period of time involved in the murder of President John F. Kennedy," the document said.

Kellerman was present in the autopsy room of Bethesda Naval Hospital during the autopsy on President Kennedy's body, "and therefore can testify as to the nature of the President's wounds, their location and extent," the subpoena said.

The third subpoena said that Frazier's testimony will establish the minimum time required to work the bolt and pull the trigger of the rifle Oswald supposedly possessed.

Also, Frazier examined the shirt, tie and coat worn by Kennedy during the assassination, and can testify as to the location and motion of the bullet holes in his clothing, the DA's office claimed.

All of the subpoenas are directed to courts in counties where the agents live.
