

Prospective witnesses, recommendations

1/4/69

To Andrew Sciambra from Harold Weisberg

This is abbreviated to get it into the mail in daylight and while the temperature is a relatively moderate 20. I will be writing more and mailing it over the weekend.

These memoranda deal with:

James W. "Ike" Altgens (Sprague has returned my call and will mail you and me each a set of his Altgens notes Monday);
Mrs. Donald Baker (Virgie Beechley);
Lt. George Butler;
Policemen Harrison L. Baker and James Chaney;
Jack Revill, former Dallas police lieutenant.

~~Baker~~ Revill and Butler are not Sealey Plaza witnesses. I have included them for reasons I present for your consideration in the memos.

I have just received a letter from Paul Hoch about which I shall write both of you later today or tomorrow. I want you to know, until then, that he disagrees with my interpretation of "investigative files" re the Department of Justice and the Oswald-Lamont leaflet.

Penn does have a piece in his current issue.

Sincerely,

Harold Weisberg
