Dear Gary,

Thanks for your 4/20 and the tape.

I hope our stereo, out for repair, will return tomorrow so I can hear it.

I've heard that Jim Harbs got one like it. If you are in touch with him I'd appreciate a dub of it, transcript, or paraphrase. I understand his was really offensive!

I've never been in touch with him. Don't even have his address.

But then he seems not to have been important enough a conspirator to make Harry's "ringleaders" inner circle!

Wallace Milam sent me good copies of several of the letters that were unclear or incomplete with your copier on the fritz. I'll list them so you won't waste time making copies when the machine is fixed.

All seems to be quiet on the Harry front.

I suppose that means he is busy with his manuscript. He was to have turned it in last week.

That may lead to other uses for what I've been able to get.

For your part thank ~~you~~.

I guess I should explain the delay in listening to the tape.

I've not needed one for interviews for more than 15 years. I gave some away and the others will cost more to fix than to replace.

So I use the deck with the stereo.

Best wishes,

Harold

Dear Harold,

I remembered that I had a message from Harry which was recorded on my answering machine in September 1992. Thought you might like to have your people actually hear the tone of Harry's various phone calls. I now wish that I had recorded his other calls.

I'm sorry that I cannot give you anything further on the notes I sent. At the time I received the March 20, 1993 call, I had made up my mind not to listen to any more of his rantings. I hung up on him as indicated and immediately made a note of his comment.

Will send along anything else that develops in this regard.

Sincerely yours,

J. Gary Shaw
