Dear Harold,

Altho I'm on the West side of Florida
(the area's known as the Negev) I caught
a snatch of your voice on the East coast.

I see your ideas have been vindicated.

It's ironic that the house assass. committees
should have spent millions of dollars and
~~many~~ many months only to come up with
questions without answers.

How do you view the situation now?

Instead of writing me a megilla, why not
send me a xerox of some of your statements.
I'm sure you are commenting almost every
day to the media.

I think you once gave me your reading of
Mark Lane. Is he on your wave length?

I also imagine the new developments will
engender another book by you. Wx Right?
Write?

I hope you and the ~~frayxaxx~~ ~~frayx~~ frau are
ok.

I gotta stop now and take a dip in my
~~wixxxx~~ swimming pool; I wish I could afford
to bring you here. If you come to any part of
Florida West, let me know.

I was in Wilm. last month and ~~aw~~ saw Joe
Labovsky as well as my family. They send their
regards & admiration. You're becoming the
most famous Delawarean of 'em all (next to the
~~Nathansxwxxx~~ Nathans who copped the Nobel prize).

A happy & healthy 1979 to you and yours.

Cordially,

Dear Sam,

1/5/78

It must have been real true love for a (beautiful) musician to marry your tin ear.

The situation with the committee is that to the degree fact, reality and its incompetence permitted it did what it intended. It was never serious. It was an effort to put down that I think in time will be turned around. And I think I've made progress in that direction. Except for fabrication I brought to light all the evidence they got and used except for the police tape, which was done by a friend of mine in 8/77. When they ignored this until the last official breath do you need more for your own reading?

None of my statements are prepared, except for the numerous affidavits I file in court, which are too voluminous to copy. All my comments are ad lib. I take it you heard the Miami broadcast. When the guy called me I was on the air.

Lane is a Judenrat, a psycho, an able man who is a walking encyclopaedia of misinformation, one who believes God put lilies into the world for gilding only, a really successful commercializer and a very b d person.

Nope, no book on this committee. I long to get back to writing the hundreds of thousands of pages of records I dredge from the official quicksands. My work will be adequate commentary without addressing them directly.

I'd like to get down there too but it does not appear likely.

When you go dip in your pool in January I go outside and provide us with firewood as my contribution to the energy crisis. And the real reason, it is the best medicine for me now that the doctor is allowing it and similar work. I'm getting muscles again.

When I get to Wilmington, which isn't often, I don't get around, having no wheels. I can drive that far now although riding is no problem as long as I can walk a bit every 20-30 minutes. I didn't know Labovsky had returned or I'd have phoned him last time, about August. Only one I saw was mispucha, Jake Balick.

It's an odd thing, you mentioning fame. Delaware has never invited me to speak there. I think you made at least a hint. They teach a course, I've heard, on assassinations, but I don't recall their ordering any of my books, which are the basic works. Meanwhile, Wisconsin has just published a book on one of my numerous Freedom of Information cases, the one that among other things is the first defeat the government ever had when it invoked national security. I only had to prove a negative to prevail in that case.

My work is little understood. It is much broader and deeper than any whodunit. It addresses the integrity of our institutions and an authoritarianism that is about to stop creeping up on us and walk before it runs.

Glad to hear from you. Hope a good year lies ahead. Please give my best to those of our past with whom you are in touch.

Best,
