

Slawson

5/7/77

Dear Mark, *allin*

Goff's 11/11 with your 5/5 does not say Secret Service does not have copies of Docs 912 and 916. I do not know what ~~ham~~ means by their not being within the Secret Service records system. However, his letter is enough to go to the Archives with. Within my experience they are not honest.

Archives has not responded to my inquiries about and requests for the new releases. Is it official? [^]hat is, are others getting it?

If so I must protest. I have \$100 on deposit to cover costs and assure promptness.

While [^] recall talk about exhuming Oswald I do not recall it is a Commission function and I recall nothing within Slawson's area of responsibility that should have had him finding out that for this Humes was just fine, as Specter told him. In arch yet!

Many thanks,

WMS
