Mr. Arlen Specter Mistrict Attorney Philadelphia, Pa.

Bear Mr. Spector.

As you well know, in the past year you have declined numerous invitations to debate me on the work of the error Servission and your work on it.
You are also exere of the fact that I have steedfastly declined to exploit
this. Then you declined to debate me even though fortified by other or your
former colleagues and championed by rouis Mizer on an American TV station,
with the prospect of syndication for the program, you at that very moment
went all the way to England to appear on a rigged TV show. Through this, too,
I were silent. I rather suspect you know my resson. In each case I made a
specific request that you not be put in a position that forced upon you a
greater share of the responsibility for the additional a tisual trajedy that
was wrought than is properly yours. I have sought neither goats nor heros,
only the truth.

Your appourances on the also-rigged and entirely dishonest 13° series diemeys me for a number of resson, most of all because you have done this in the midst of a political compaign. This puts you in the position of exploiting your own transgres ions for personal profit. Then you could, as an those may occasions when you would have opposition from someone who has more ledge of the fact and of your own record, declined to say anything, instead you engaged in further misrapresentation. You did this when guaranteed a rest suffence. You did it knowing that what you said is untrue.

This is much worse then the lies you have uttered in the post on this sense subject, for then yourvers not engaged in a political converge, not in a position to derive personal profit from your lies, although they gave you such tremenduous national attention they may have made you more acceptable as a condidate and thus yielded political profit.

This CIB series contains other statements that to your knowleage are lies. Especially the statement that the autopsy dectors saw the pictures of the autopsy prior to their return to government possession and in a context really saying as part of their testimony. If there is anyone in the world who knows this is false it is you. The course of honor is clear. The national need also is clear.

I call upon you to retract your own felse statements on this show and to disevow those others of which you have knowledge. If you did not write those passages of the deport you nonetheless know the irrefutable evidence is that there was a "missed" shot that could not be associated with may shot that hit the car or any of its occupants. Thus you cannot homestly say, as you did, that each of the three shots the Corrission acknowledges were fired during the ease assinction struck a single man. Your CRS accounting, not the first time you have hinted at it, does not account for an additional shot and you know it.

That you now seek personal gain from the national scandal you helped bring about is a shocking thing to me.

Gincerely, Herold Seieberg
