

Dear Emory,

10/22/75

Your extremely valuable 10/16 came while I was in hospital. Heavy phlebitis. Has me on back & compels brevity.

All the stuff Gunn had I forced out in C.A. 226-75. On appeal. They gave me enough to save the face of a partisan judge but withheld proof they had not complied. I charged & proved perjury. It will be an issue on appeal. I can't now compare what you were sent with what I got / I forced it open for you the day the amended law was effected) but I am sure they gave you what they did not give me. So, this has greatly increased importance. I can now copy do if it is not asking for much. I'd appreciate an unbound duplicate for my lawyer. And each new paper current by because he must file the app. as soon.

The FBI gave Gunn nothing. A minor industry has grown up picking crumbs up behind me. Please I file a suit & prove anything out all the sub-subs, self promoters, need do is spend a stamp & duplicate the request. One of the best Gunn make a study for him. Don't trust Gunn but don't show it. He did not really level with you. Neither did Kelley, as you'll learn soon from the about-to-appear Post Marten 10/15/75. Mailed manual (660 pp.) If you want one & have a mailing label it may 'splain mailing up if you include one. I can check whole flat on the back of this is one my wife would not have to do. She'll have almost all to do - alone.

You've got a live one this time. Keep after it & please keep the protest prompt. The bureaucracy has shipped with both of us! Thanks much & best, of course
