May 22, 1975

Mr. Clarence M. Kelley, Director
Federal Bureau of Investigation
United States Department of Justice
Washington, D. C. 20535

Dear Mr. Kelley:

Reference is made to your letter dated May 15, 1975
and the enclosed film negatives and notes.

First of all, I would very much appreciate a type-
written copy of the hand written notes. Although I was able
to decipher a portion of the notes, I found the remainder some-
what illegible and I would prefer to sit down with a readable
copy to begin my study. Also, I feel certain that the Laboratory
Supervisor would have delivered a typewritten report of the test
results to Mr. Hoover, for examination prior to sending the report
to Dallas Police Chief Curry (Commission Document 81 b).
I would like to receive a copy of that particular report (for which
I will be glad to pay the copy fee)

Finally, I would like to know what type of detector
instrument (manufacturer and model) was used to test the various
specimens and if the original film plates are in color.

Sincerely,

Emory L. Brown, Jr.
