

6/14/68

Dear Dick,

Jones and I had a good chat. Tried to reach you by phone, getting the number from the club, but without success. Jones says you and he plan to go to the Archives soon. I'd like to show you some things there and take some work on 222 133A&B to show you then. Can you possibly do it this coming week? I do not know when I can, but as soon as I can raise the fare I must return to N.O., and that may be the week following.

Joel Palmer, I thought, returned the Arlyea reel to you some time ago. He can be reached through the LA CCI. He is out there now and I put him in touch. Steve B says he has been working very hard and helpfully. I have slide from it but have not been able to make close study. Want to borrow them? I can take them to DC when you and Jones are there.

It would be nice if R or S were to talk. I think it unlikely, at least until either is in extremis.

You feel what we all do. There is little I can add. I spoke to one of McCarthy's DC people three months ago and have heard nothing since. I think his own survival may require that he make an issue of this. If he does I think he will have written the best insurance he can carry.

Perhaps you recall the first thing you ever heard me say, the end of May 1966, when I said if this could happen to a President, was anyone, any President, any candidate, any politician, and ordinary citizen- or any of our basic institutions- ever safe? Long John Show. You then wrote me.

All the recent assassinations are from the same quarter and for the same purposes. All of consistent. All serve the same interests. None is casual, each is purposeful. Where will they end?

Gary Murr is doing a Similas book. I am glad. I hope each of us can find some way of making it as complete as possible. I have told him he can use everything I have that is relevant and anything I have published. He has asked me to write a foreword and I shall.

My plans for the coming week, in case you and Jones decide to go to DC then, are: dental appointment Washington 3:30 pm Tuesday 18, half hour and have entire day before then. I can stay in Archives until 3 p.m. and can meet you at airport. I have to be there 20, but that will be a tougher day and will leave little time. Nineteenth may be best for me. If you guys want to go there 18 and stay over, I can out you up, you can have a pleasant evening in the country (bring nathing suits) and we can go in early next a.m., spending entire day there, and I can deliver you to airport. Not much more than an hour from here to either Archives or airport. You'd be at National. Not a traffic light between there and here.

Sincerely,

June 12, 1968

Dear Harold:

The events of the past few weeks have really been fantastic. In my own personal case, I have now left Touche Ross and have started my own company called Personal Data Services. I've moved out of the U. Club and now live about  $\frac{1}{2}$  mile from my fiancée in Hartsdale. So with all of this I just haven't had time to write.

Jones told me you were in town. I'm sorry we missed. I would like to hear your opinion about the three bimbos. I'm convinced that the same group arranged for all three and are now plotting the next one which will be McCarthy if he gains a few more delegates and has any chance at all of being nominated. You have no doubt seen his letter to Steve Burton and his more recent interview with the Los Angeles Free Press just two days before the RFK assassination.

I have written to him warning him of the danger, but I'm not sure he'll believe me, or that he'll even receive the letter. I'm convinced that Frenchy, one of the three tramps, shot King and that Galt-Ray, while he may have been there, did not. Perhaps either Ray or Lishan will talk before the "group" is able to kill them.

I'm sure they will try to eliminate both.  
What do you know, or what have you heard? Is  
there any possibility that Sirhan can be linked  
to the Los Angeles members of the "group"?

Bring me up to date on everything.  
By the way, I have never heard from your friend  
who has my Alyea film. I would like to get it  
back soon.

Regards  
Dick
