

June 15, 1993

Greetings My Two Friends:

Any news on the publication of your next book? I'm going to buy two copies for myself and have all the local and regional libraries buy a copy.

Enclosed is a check for **Whitewash III, Whitewash IV, and Oswald in New Orleans**. I'd be honored if you autographed the copies. I also included a few George Washington book markers. Put them to good use.

I've just finished rereading **Post Mortem**. Since **Post Mortem's** publication, has any one or two items or events dealing with the assassination surprised you or that you think was/were significant?

My other question, which I meant to ask when I visited you was, When you were doing your long hours of research in the 1960's and 1970's, what were to most shocking discoveries you made? I know you made thousands of major discoveries, but are there some that still stand out more than others as you look back?

Well, please take care Harold,

Mike Stanke
