# Robert DePugh--Martyr For America

by C. B. Baker, Editor

Robert B. DePugh, Hero of America.

A martyr's fate has befallen Robert DePugh, head of the Minutemen. Years ago, DePugh had sufficient foresight and intelligence to recognize that America could only be saved by planned insurrection against the Marxist liberals who control every aspect of our society. While other patriots continued to sit around, sip tea, and wring their hands about how bad things were, DePugh took action. DePugh was a successful businessman who sacrificed his business interests in the fight to save America. Unlike many patriots for profit who have grown rich by putting out bland and usually ineffective propaganda, DePugh had to suffer an obvious lowering of living standards as a result of his Minutemen activity.

The Minutemen is a secret underground army well armed and trained to defend this country against the tyranny of Marxist liberalism and Communism. Luckily for America, DePugh made great effort to decentralize his organization to protect it in the event of his arrest. The Minutemen cannot be stopped or crushed by the arrest of their leaders or any single leader. True Americans, working Americans, productive Americans, and patriotic Americans all can sleep easier at night because of the existence of the Minutemen and other organizations like it. In days of open anarchy, riots, and destruction, the Minutemen stand like the candle of hope in a world of darkness.

They are the very symbol of our desire to save America from Marxist liberal destruction.

The Federal persecution of DePugh has been total, absolute, and in open violation of the Constitutional principles which the Red liberals themselves have demanded for every criminal, filthy pervert, and Communist that comes down the street. DePugh was arrested and charged with "conspiracy to rob a bank." This crime does not even exist in the U. S. Criminal Code. DePugh was also charged with violating the Federal Firearms Act. It is well known that the second charge was completely trumped up. Illegal weapons were planted on DePugh's property by Federal agents who later came and charged DePugh with maintaining these weapons. DePugh is far too intelligent to actually store such weapons on his own property. Any such charge is obviously a complete fraud.

When DePugh was arrested, he was immediately placed under a \$150,000 bond. This amazing figure is an open violation of the Constitutional guarantee of freedom from excessive bond. If DePugh had been a Communist or anarchist, the liberals would have immediately set up a gigantic howl about the size of his bond. As it is, DePugh, like all other decent citizens, is left to suffer at the hands of the villainous evil liberals.

## Iron Cross Motorcycle Club

STATECRAFT is proud to announce our most recent and probably our most violent affiliate--The Iron Cross Motorcycle Club. Below are some highlights of the club's activities written by (Big) Mike Brown, the President.

The year almost ended for us Easter Sunday. Seventeen of our men went down to Wilshire Blvd. in Los Angeles to crush a pro-Viet Cong demonstration. Breaking up red demonstrations is our usual excuse to confiscate Viet Cong flags and leave a swath of destruction in our path.

Sometimes it becomes a trifle difficult to explain to an arresting officer why you crammed a metal stake up someone's arm pit, kicked someone's kidneys in, or how you made more work for the dental profession.

When we arrived at the demonstration there were wall to wall cops, because trouble had been expected. It looked like every cop in Los Angeles had been called out, and our usual frontal assault tactics were thus made impossible. Consequently, two of our boys disguised as hipsters grabbed the first commis flag they saw.

The mob ran after them in a vain attempt to recapture it, leaving the protection of the police. We then charged them head on. The mob faltered and scattered. We moved to polish off some of the slower ones with boots and motorcycle chains.

We were then engulfed by veritable tidal waves of cops. I yelled to everyone to run for it because fighting it out with the cops is not politically astute for rightwingers.

Six cops backed Bob Brogan against a tree and couldn't decide what to do with him. At 6'2", 250 lbs, solid Bob is hardly a sort of a person to tangle with, alone or with six cops.

Paranoid George was jumped by three cops and handcuffed along with Pinocchio who was grabbed by two and handcuffed also.

Yours truly was tackled from three different directions and crunched over the head with riot baton and kneed below the belt and dragged to where the others were being held, passing the bodies of numerous prostrate left-wingers.

T. R. and The Mad Hatter had managed to get the rest of the

crew out of there without getting caught.

The police couldn't decide what to do with us so they unbacked us and let us go. We kept the flag.

### Shoot Out With Dope Pushers

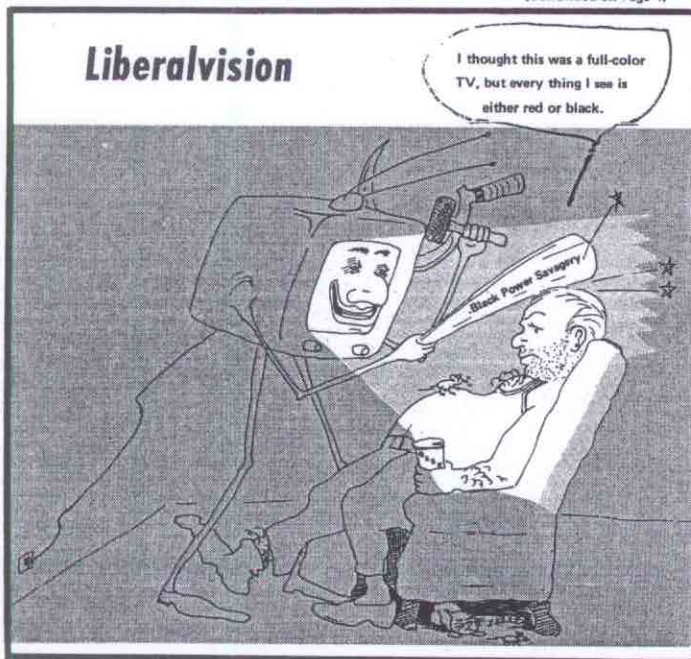

On July 10 we had a run in with dope pushers who had been trying to instigate other clubs to go to war against us.

While our club house was unguarded, they stole two of our motorcycles and tried to make it look like the work of another club. Fortunately, they were seen and we went after them that night. (This is not the first time liberal leaning outsiders have tried to start trouble with us.)

At about midnight Muskrat and Tanguin and myself stood twenty feet outside the dope pushers' house in the city of Commerce and challenged them to come out. We were answered by four shots from a .38 special. Muskrat caught one in the leg as Tanguin opened fire with his .38 and myself with my .45.

Muskrat had gotten back in the fight emptying his revolver into the dope peddlers' house. We kept (Continued on Page 4)

# WHAT IS STATECRAFT?

STATECRAFT is an affiliation of American patriotic action groups. Membership is open to all productive Americans willing to actually stand up and fight against the wave of destruction currently engulfing the Nation.

As we look around us, we see our cities in flames, our streets controlled by criminals, and our schools turned into jungles by hordes of wild savages. IS AMERICA GOING DOWN FOR THE LAST COUNT?

We say NEVER. While America is burning, many patriots for profit are raking in hundreds of thousands of dollars. While America is being burned into a vast jungle, many conservatives sit on their hands and "pass resolutions" or write and tell each other how bad things are.

STATECRAFT IS ONE OF THE ONLY GROUPS IN THE COUNTRY WHICH DOES SOMETHING EFFECTIVE WITH THE MONEY IT RECEIVES. Our actions, against the liberal enemy and black power savages, have had a fantastic impact, far in excess of our meager financial resources.

Our exposes have driven known profiteers out of the Nation's Capital.

Most conservatives prefer to give their money to bland non-controversial groups, which do NOTHING WHILE AMERICA IS BURNED AND LOOTED. Because we have the guts to actually stand up and fight, we are cut off from many sources of funds. We do not intend to surrender America to destruction no matter what.

IF YOU LOVE AMERICA, HELP US TO DEFEND HER. We do not waste your contributions on fancy offices in Washington or fat salaries. PLEASE SEND US YOUR MAXIMUM CONTRIBUTION TODAY! With your help we can smash the forces and SAVE AMERICA.

## Letters To The Editor

### PATRIOTIC ACTION

Dear Sirs:  
It has long been our opinion, since the Cuban takeover, that if, as Americans, we are to survive, it should be our avowed policy to exterminate all communists possible, without regard for their race or nationality, and without mercy; for justice must be swift and sure so that no ultra-liberal will doubt his or her fate for punishment equal to the crime. This is why our group (The Second Phase) has organized a plan not unlike others but with alternate plans to suit the rapidly changing communist plans. --For example, if during elections they

tear down our signs, we tear down their trucks and equipment, or certain pornographic lib comie newspapers like the (L.A. FREE PRESS) sometimes fall in the gutter or are run over. One day the news rack of one of our comie papers out here (PEOPLES WORLD) accidentally fell in the back of our truck on the way to our shooting practice. As accidents will happen, the darn thing got shot up, but we took it back to the rightful owners and set it up just as it was.

Another time we photocopied the communist record of one of our local degenerates and bound it in a program form and flooded a

school auditorium just seconds before he began his speech. Our system had a man for each row of seats, with a precounted number of programs. The goon squad protecting the comie speaker did not catch on until they were handed their own copy. The local police didn't bother us as they assumed the folder was part of the act. The speaker did not carry much weight that night, as only a handful of his fellow scum supported him. Our cost of the operation was only the red paper folders. We got some contributions from some of the libs there too.

Another little thing we are working on now, as the result of the L.A.F.P. publishing the names and addresses of the local narcotic officers here, is the master list of all of the names of the ultra-leftists super libs and comie cruds locally. Each name, address and thumbnail sketch of his activities is placed in our bulletin.

(Our Bulletin) is a small private publication, but growing. Right now only people with certain commies in their own areas have copies, but we some day hope to get a large circulation paper to carry the material.

As for red dupe black power savages, we have a small neighborhood patrol; it is not authorized or sanctioned by the local police, however, they co-operate fully. We are all equipped with 2-way radio police frequency monitors, hand cuffs, etc. We have monitors that are based as well as mobile. It is possible to give information to the police that they themselves are unable to get for many reasons, mostly because of the left wing extremist Supreme Court.

To give a local example of our need for a citizens patrol--during a recent black power uprising in central Los Angeles, all Valley Police units were called but 3 cars in a 200 square mile area, of 1,000,000+ people. The regular crime here was more than a full force could handle, but 3 men had to answer a dozen simultaneous crimes!

To set up a local patrol one must recruit from men and women that know what's happening and are frequently mobile, such as service people, sales and others.

All of our people are in shooting clubs, not always related to the (Second Phase) or Citizens Patrol. We get new members by setting up teams of 5 or 6, so actually no one person could name everyone else. The main thing is to keep busy, meet a lot of people, tell the truth about our peril.

All our women and girls can shoot a pistol with deadly accuracy, so that they can be left alone with some security.

We have programs set up to teach people to set up their own burglar alarm systems, self defense, or legal rights of the citizen.

Any old way I like your paper, I wish we could get a local sheet here, half as good. I guess you can believe what a mess it is here in L.A. God helps us. We have one consolation, anyway. If the communists do win, the first ones they will kill is the stupid liberals that put them in power, and if we win, we'll get em.

Yours for a stronger and better America.

Gentlemen:  
It is high time American patriots start opposing the communists-Marxist gangs with strong counter-propaganda, with fists, clubs, pipes, and weapons if necessary. The contributions I used to make to YAF will be switched to STATECRAFT.

Truly yours,  
E. A. C.  
D.Sc., E.E.  
NYC

Dear Mr. Baker:  
When I read your comment in the July-August STATECRAFT to my last letter, I about died from laughter. In my thus far short career (I'm 32) of raising hell for conservative causes, I find that I agree much more with you troops than the other fainting-heart-types. Mr. Valhal's thinking particularly intrigues me.

Just wished I lived back there so I could help you wipe out the natives. I recently drove to California and was able to blast a few filthy hippie types as a result of my "shoot looters" bumper stickers. Hope you keep up the fight!

Yours truly,  
K.D.G., M.D.  
Nebraska

Dear Sir:  
Here, in East Rockaway, it is more than 99-44/100% white. We have only one savage in East Rockaway High, and only one full-fledged white trash hippie (who is beaten up regularly). This is the reason why it is difficult to recruit here. However, the red Ford Foundation has bought two apartment houses in East Rockaway, and, in the not too distant future, when the current leases are expired, the foundation is going to ship in blacks. This would be bad enough by itself, but the ones they're shipping in are the worst scum on the New York City welfare list.

So, until the people here are actually threatened by the black and red conspiracy, they'd just rather wait before acting.

Yours truly,  
G. C.  
N. Y.

Dear Sirs:  
My subscription is paid up to next March, I think, but any organization that has the guts to confront and face down some of the Commis-backed leftist slum that is polluting our country (STATECRAFT Weekly S.D.S. - Black Panther Rally, page 1, your July-August issue.), deserves a bonus. I am enclosing a small one (\$10.) and wish it could be bigger.

Glad to be informed about the "Medical Fund for Rhodesia", I contributed \$5 for which I apologize.

I sometimes have difficulty separating the satire from the "straight" reporting in STATECRAFT, but there is not a dull moment while reading it, I pass it along where it will do good, when I am thru.

Sincerely,  
C. W. R., D. D. S.  
Missouri

Sir:  
Since reading a few issues of "STATECRAFT", I find myself using a new approach on the enemy, particularly on those with the persecution complex.

I find myself on the offensive and the enemy on the defensive, even with my letters to the press. By using your approach the ones on the sidelines will be attracted. America's most immediate danger is the "liberal" politician as well as the so-called "Moderate" politician. Therefore we must come up with slogans before every election to inform the voters what they are voting for when they are voting for "liberals" and "moderates", since most of the voters don't read any more than slogans anyway.

MINUTEMEN  
Dear Patriots:  
Everyone should be informed that their best investment these days is guns and ammo. Everyone owning guns should keep it a big secret and not reveal it to his closest buddy nor to his father, mother or son for the reason that as soon as the U.S.A. falls to the Reds, people will be hungry and destitute. Those who will turn in the names of one person owning a gun will have food for his children for one week. Two weeks for two persons names who own guns, etc.

Everyone will turn into spying on everyone else in desperation for food or die of hunger. Your best p1s and your sons will be turning you in.

Also, as soon as you set up a defense organization the leftist

establishment will send infiltrators to get chummy with the membership to find out which ones have guns and where their hiding place is. These infiltrators need not infiltrate anything higher than the lowest level of the organization to find out who has guns.

The Minutemen had one couple, a man and a wife, infiltrate them on the lowest level on Long Island, N.Y. And they got the names of every Minuteman who owned a gun. Every Minuteman's phone was tapped for nine months before the District Attorney arrested them.

What I want to impress upon you youngsters is security to the Nth degree. Security will save your guns and your freedom and your lives.

Staff of STATECRAFT

They knew exactly where the guns were buried. They even tore down staircases and walls of their friends' and neighbors' homes. They confiscated tons of guns and machine guns and ammo. Thousands of dollars went down the drain. Important files were also confiscated, as well as mail.

Before all this happened I mentioned to a Minutemen district leader that all the Minutemen's phones may be tapped. The young leader cracked down on me as if I were psycho and told the rest of the boys not to worry about my phone tapping. A few months later when the District Attorney closed in on them, this district leader was the first to fall into the D.A.'s trap. He had to sell his home to raise defense money for himself.

Only a couple of the older Minutemen escaped this trap, they were the ones who kept telling their co-members that they have no guns. These two had guns alright, but they kept their mouths shut. This is the dangerous part of young inexperienced leaders and

Dear Mr. Kaye:

Although you endorsed STATECRAFT, we do not think it would be in our best interest to have you advertise in STATECRAFT. The reason being that we know it is more than coincidence that the Russian word for labor and the Russian communist labor newspaper are also called Trud. Your pro-Russian attitude, at the expense of America, is quite well known. We at STATECRAFT are strictly American and refuse to acknowledge that decadent and degenerate Europe is superior to America.

### Liberals Assail Southern Africa To Mask Their Genocide Program In Biafra

by Alex Devereaux

Two well known facts are that the Bbos are one of the most intelligent and industrious black tribes in all Africa, and that they are being exterminated by the Nigerian Federal Government with the aid of the U.N. and the Liberals. A phony Biafran relief program has been set up to assure the native American public "that all that is humanly possible is being done."

The results will be identical to those achieved during other Liberal "Liberation Campaigns."

The "liberated" will be exterminated and the American G.I. will die in large numbers to "defeat and punish the war criminals." A few Nigerian Generals and minor politicians will be hanged and the country will be divided between the Liberals and their Red friends.

To distract black Africans (and Americans), who might be distressed at seeing their "soul brothers" slaughtered, the Liberal propaganda network maintains a

hoax and cry about "racism" in Southern Africa. "Racism" means the embarrassingly skillful governing of a black majority in the countries of Southern Africa in contrast to the American Liberal program of "equality" for the black minority here, that is leading towards race-war and massive destruction. Liberal-backed terrorists are operating among blacks in Southern Africa, just as they do here.

Liberals also would like to seize the large gold-reserve in South Africa to carry on more excessive spending. Killing Southern Africa's millions of whites would help the Liberal's image in other non-white areas. Fortunately, the potential reaction of the American public and the unpredictability of the USSR keep the Liberals from extending their "love campaign" to the only peaceful part of Africa.

### Robert Depugh

(Continued from Page 1)

Robert Williams returned from his self-imposed exile in Cuba and Red China, his Federal fugitive warrant was dropped by the courts. Williams had fled North Carolina eight years before from a charge of kidnapping. During his stay in Cuba and in Red China, Williams engaged in numerous open treasonous activities against America. Williams obviously has come back to take an active part in the coming race war. Liberal court knowledge of Williams' revolutionary mission allowed him to be released on bond of only \$11,000. The proof of the liberal degeneracy and destruction of America is in the statistics; \$150,000 bond placed upon one of America's greatest patriots an against \$11,000 bond on a Communist revolutionary who immediately resumed his destructive Red activities upon his release by the court.

Marxist liberal government agents conducted an illegal search of Robert DePugh's house in Norborne, Missouri. The search was conducted by an open warrant. Open warrants are specifically barred by the United States Constitution. The Marxist Federal agents stole many irreplaceable documents and files while they were in DePugh's house. Among the files stolen were many records of Leftists and pro Communist subversives now actively destroying America. There is no doubt that these files will be destroyed by the Marxist Federal agents. These criminal gangsters also stole a highly valuable manuscript of a book which was to have updated DePugh's earlier Blueprint for Victory.

It goes without saying that impoverished patriots have not been able to raise the \$150,000 for DePugh's bond. While in jail, DePugh has been forced to labor in prison kitchens over fourteen hours a day. IT HAS BEEN DEPRIVED FOR HIM TO COMMUNICATE WITH HIS DEFENSE ATTORNEY. He has also been moved to at least seven different prisons in the last few months in a Marxist Federal attempt to make sure that he is unable to build a defense case. DePugh is, in fact, being held incommunicado by Marxist liberal pirates. EVEN HIS WIFE DOES NOT KNOW WHERE HE IS. While he was being moved from prison to prison, he was chained both on his hands and on his feet--a highly unusual move.

DePugh has been continuously subjected to beatings and physical and psychological torture while in prison. DePugh has also been beaten on three separate occasions by rubber hoses. He has been subjected to electric shock treat-

ments and forcibly injected with true serum. DePugh is holding up well despite all the torture. While the Federal agents are torturing DePugh, they are cleverly denying that he is being given any abnormal treatment. IT WILL BE A MIRACLE IF DEPUGH EMERGES WITH HIS LIFE FROM THIS ORDEAL. The degenerate liberal masters who control the prisons have concocted a secret plan to have DePugh continuously sodomized by a series of gigantic Black Power savages in order to gain information about Minutemen activities. It is hoped that sodomizing DePugh by a chain of blacks will humiliate him to such a degree that he will be forced to talk.

Liberal Federal agents are also planning to use, tried, and tested methods of Chinese brainwashing on DePugh. The liberals hope that brainwashing will allow them to make films of DePugh signing phony confessions and denouncing the Minutemen, his own organization, as well as America. We have complete faith in DePugh's will and his internal strength to stand up under the rigors of torture and brainwashing.

A nationwide effort is being made by the Marxist Red press and television networks to smear DePugh in order to make it impossible for him to ever get a fair trial. The Red press has made it appear that DePugh was out to rob a bank which is, in fact, a complete lie.

AT A TIME WHERE EVIL IS HAILED AS GOOD, WHERE DESTRUCTION IS HAILED AS CREATION, WHERE DISTORTION IS HAILED AS ART, AND COWARDNESS IS HAILED AS BRAVERY, ROBERT DEPUGH STANDS AS A SHINING EXAMPLE TO OUR YOUTH. His martyrdom will not be in vain. The lesson of Robert DePugh will teach every fighting patriot NEVER TO COOPERATE FOR ANY REASON WHATSOEVER WITH FEDERAL AGENTS. No matter what agency of government he is from, a Federal agent is always to be regarded as an enemy until such time as the Federal government is freed of MARXIST liberal totalitarian domination.

Every American patriot should send money and any other help he can to the Robert DePugh Defense Fund. Remember, unlike the rich liberals, the working patriots can not afford high court costs.

### YAF 'Guns' Leftists

After many years of cowardness, the Young Americans for Freedom have finally gotten the guts to use a pistol on a group of Leftists. The incident took place recently at a local YAF chapter at George Mason College in Fairfax, Virginia. Three Leftists, including one professor, set fire to their draft cards in the school courtyard. The brave YAF activists were quickly on the scene and courageously extinguished the burning draft cards with their water pistols.

The local YAF leader later commented about the draft card burners, "We're showing our contempt for them."

### Connecticut Minutemen Persecuted

As of December 10th, five Connecticut Minutemen will have spent one year in state prison for daring to take action against a bunch of vile peace creep traitors, who openly practice treason at their so-called "peace farm". These brave patriots were indiscriminately shot up by the police and given 2 to 10 years in jail--and they never even fired a single shot, no matter what the lying press says. The Connecticut Minutemen are going to have a mass literature distribution campaign to focus attention on this injustice--patriots are jailed while Black Panthers, draft dodgers, and murderers go scot free.

Then the sheriff arrived and a cop asked me "Who gave you the contract?" I told him he had been watching too many Mafia

movies. After all, just because we wear coats and ties to all our gunfights (the club uniform for such things) doesn't make us gangsters. However, such attire does discourage witnesses and there weren't any.

The dope peddlers were led out of the house by the police hysterically crying. We found out that the reason we didn't kill them is that they ran into one of the back rooms and hid under the bed WHILE THEY CALLED THE POLICE.

Our bond was originally \$22,

and degenerate whites. Tangun, who is president of the White Students League at U.C.L.A., was a featured speaker.

### Bombed

On July 28 Muskrat and I were rudely awakened by a dynamite blast which blew the roof off our club house. I ran outside with my rifle, but was unable to shoot at the fleeing dynamiters without hitting innocent bystanders who were pouring out of their houses at the sound of the noise. The landlord was not too happy and we were evicted.

Two weeks later we caught one of the dope peddlers' friends and

state of candidates for the Glendale City Council. We think we can win with a little financial backing. Whether we win or lose, we intend to continue smashing treasonous demonstrations, dragging crooks out of bed at night and breaking up left-wing meetings to stay in practice.

## Statecraft Banned In Michigan High Schools

Compiled by the Lincoln Park and Aquinas High School STATECRAFT Enforcer Leaders, Herbert H. Sneaps and Norland Nummy

On Monday, November 17, Lincoln Park High School of Lincoln Park, Michigan, and Aquinas High School of Southgate were invaded by the STATECRAFT Journal of Political Education, in response to the distribution of the White Panther scum rag, THE FIFTH ESTATE. School students literally "ate" up the copies of STATECRAFT.

The students were amazed at the high intellectual level of the newspaper, and dozens of liberal youth joined the ranks of Americana. All dreams came to an end, when a "hippo" (our term for hippie) foamed at the mouth and showed it to a teacher who could be mistaken for a female. The results were ominous: The next day the Lincoln Park High School Chairman of STATECRAFT OVERGROUND was summoned to the office. Proudly he stepped forward and entered the principal's office, expecting the worse. The principal informed him that nothing was wrong, and then laid it on the Iron Patriot.

After an hour and a half of continuous discussion, the STATECRAFT leader left the office. The word was out: Statecraft was banned! The leader claimed that it was the "most intense brainwashing he had ever experienced." "STATECRAFT will go underground!" He said.

The Patriots' youth of LPHS also learned that they had failed in their long-fought attempt to bring a right-wing Negro to speak to the Civics classes (See STATECRAFT, August-September 1969, Negro Patriot). In the meantime, STATECRAFT was banned, at Aquinas High School, where it also went underground. After the ban had been placed, the demand for copies of STATECRAFT tripled. Many students were removed from classrooms for supporting our patriotic publication. Students are now eagerly awaiting the next edition. Meanwhile, the word STATECRAFT has faded from the students lips, part of a master plan secretly devised. The Quisling liberal anarchist teachers who turned in the patriots are searching for someone to argue with in history class. It seems

everyone has buttoned their lips. Not a sound has been made. Teachers are now angrily provoking arguments with Patriots who yawn and continue reading THE NEW REPUBLIC. The day will soon come when the principals of Lincoln Park and Aquinas will welcome the STATECRAFT ENFORCERS (A name created by Ralph Doby), expecting to find unprepared students ready for the slaughter. But they will not. We will enforce AMERICANISM. And that day is not too far off.

Another area of STATECRAFT operations has been Harper Woods High School. The editor of the school publication committee at the high school, Ken Petty, along with one of the star athletes of the school, Bob Paul, has been directing STATECRAFT operations out that way. These operations include the removal of S.D.S. hippo trash from the school and also the declaration that the beautiful city of Harper Woods, Michigan is off limits to liberalism and its child, the hippo. The "psycho" (a liberal teacher) has been warned at Harper Woods High that unless he began teaching the truth at the school, he will be in trouble from the large STATECRAFT affiliate that is now operating in the area. In recent weeks, one hippo was clipped of his hair while another loud mouth was wiped out after school hours. On Veterans Day, Harper Woods STATECRAFTERS wore red, white and blue armbands to commemorate the day. One history teacher was so moved by the expression of patriotism that he donned one of the bands.

In addition of Harper High, there are STATECRAFT operations underway at Bishop Gallagher High, Notre Dame High and Our Lady of Peace School.

STATECRAFT is also being distributed in Flint and Pontiac, Mich. and at the Orchard Ridge Campus of Oakland Community College. Patriotic fighters in the Michigan area should contact:

Fringe Groups We Have Known

by Daniel Paulson

The Strange Case of Robert Bauman and the American Conservative Union

Of all the conservative organizations, none seems more prestigious than the American Conservative Union, its chairman is the well known conservative Congressman, John Ashbrook. The A.C.U. has such famous sponsors and board members as James Jackson Kilpatrick, William F. Buckley, Frank Meyer, Russell Kirk et. al. The A.C.U. seems to represent the who's-who of liberal-approved conservatives, those "responsible" spokesmen of the right. But, if one looks closer, one uncovers the rot and stink that reaches into the highest of places.

STATECRAFT has looked for some time at the activities (or perhaps, it would be better to say the lack of activities of the American Conservative Union).

The A.C.U. was founded in 1965. The very first resolution barred members of the John Birch Society from membership in the A.C.U. How interesting it is that the A.C.U., which at that time was a "political education" organization, was so concerned over the Birchers.

When the A.C.U. was first formed, it ostensibly aimed at making conservatives effective through the approach of "studies on current issues and serving as a clearing house for conservatism" working within all political parties, (although Republicans have always controlled everything)

Two years and a quarter of a million dollars later they became a "political action group." By this time, the original A.C.U. chairman, former Congressman Don Bruce, (now deceased) had resigned. He was fed up with the complete do-nothingness of the organization. Bruce had also resigned because of the personal vendetta and character assassination launched against him by Robert E. Bauman, the secretary of the A.C.U.

Bauman is Washington's number one Conservative punk. Born in Easton, Maryland, he has had a strange and unusual career. Bauman has been "minority telephone clerk" (a house patronage job), national chairman of Young Americans For Freedom, a Delegate to the 1964 Republican National Convention and now is the absentee secretary of the A.C.U.

Because of his somewhat rapid rise in politics and the reaching of a political plateau, Bauman felt that he should have been chairman of the A.C.U., not Bruce. When Bruce hired Don Lipsett as his assistant, Bauman felt slighted again. To get even for these imagined slights, Bauman drove Bruce out of the organization with his malicious vendetta.

It should be noted that Don Bruce had one of the most gentle of personalities and his reputation for fairness and integrity was known by all. It was also Bauman who caused the vice-chairman, Ralph de Toledano to resign. De Toledano is one of the few newspaper columnists of impeccable reputation. De Toledano stated in his news release, "Major policy decisions are made without consulting the board of Directors or even all of the officers." (So much for internal democracy in the A.C.U.) De Toledano also stated in the same release "Nor can I give tacit approval to other irresponsible actions by A.C.U.'s ruling clique against organizations, individuals, and publications which have earned its petty displeasure."

While not mentioning anyone's name, it was obvious to everyone that Bauman was de Toledano's target. One example being that Bauman instructed one of his secretaries at the A.C.U. to write letters condemning conservative organizations he didn't "approve" of. Congressman Ashbrook personally intervened to stop this action. Another case in point is that when a person sends in \$100 or more to a political action group, his name must be listed on public

record with the Clerk of the House of Representatives. Bauman matched his A.C.U. fat cats against those of the conservative organizations he didn't approve of. He then wrote personal letters to the contributors attacking the organization in question, telling them to send all their money to the A.C.U. instead.

In Ralph de Toledano's syndicated column of March 8, 1969, he elaborated on his reasons for leaving the A.C.U. He stated "Two straws broke this particular camel's back. The first was a campaign against another Republican organization, also conservative, which was competing with A.C.U. for certain bequests and for contributors from the public. Out of the blue, an item was planted in a midwestern newspaper by a member of the A.C.U. clique and then 'picked-up' by BATTLE LINE, the A.C.U. publication. The item was vicious and possibly libelous. And it appeared in BATTLE LINE without consultation with the vice-chairman (de Toledano) even though it was a matter of stated policy that A.C.U. would not attack organizations on the right".

STATECRAFT investigated the first part of de Toledano's charge concerning the financial bequests.

Robert E. Bauman - Finished in Politics?

We found not one, but seven conservative organizations involved in the bequest, when we dug the information out of the County Seat of Talbot-Easton, Md., Orphans Court, estate number 10147.

Henderson Emanuel, died and left a large portion of his estate to seven conservative organizations. The executor of the estate was an attorney by the name of Charles Wheeler. Attorney Wheeler's law firm of Miller, Wheeler, Thompson, and Thompson sponsored Bauman when he became a lawyer. People said, it was Charles Wheeler who interceded to give Bauman another chance to take the Maryland Bar Examination which Bauman failed on numerous previous occasions.

Bauman who was also the legal council of the A.C.U., reportedly "neglected" to tell the A.C.U. Board of Directors the names of all seven organizations included in the will. He did mention A.C.U., Young Americans for Freedom, (of which he was former chairman) and Americans for Constitutional Action (according to an A.C.U. board member). All three of these organizations work very closely together, have overlapping sponsors and directors, and all were "approved" of by and are closely connected with Bauman.

Bauman hoped to have the estate divided among his "own" three organizations named in the will, Bauman apparently lied to his sponsor, attorney Wheeler telling him some of the organizations were not in existence. Bauman hoped that the estate would be divided equally among three organizations rather than seven, thus increasing the Bauman "approved" organizations out substantially.

Named in the will to assist attorney Wheeler with the execution, was William F. Buckley, Congressman John Ashbrook and Donald "Buz" Lukens. Both Buckley (it seems as a dumb mistake) and Ashbrook (it seems deliberately) named the three Bauman approved organizations of A.C.U., Y.A.F. and A.C.A. to receive the full amount split three ways.

But Lukens, much to his credit, named all seven as legitimate, in existence and deserving of their 1/7 share of the estate.

This blew the lid off the whole Bauman scandal. The net result was that four deserving conservative organizations had to spend valuable time, money and effort in hiring lawyers to get their 1/7 share of the large estate. Although settled out of court, many innocent people's reputations were still dirtied because of Bauman. For some strange reason, Congressman Ashbrook interceded and protected Bauman.

The second part of de Toledano's story deals with a planted newspaper item. The item was planted by Bauman and Charles "The Pink" McManus, director of Americans for Constitutional Action. Coincidentally, the A.C.A. was one of the Bauman approved organizations, in the will, while McManus by strange coincidence is very close to Bauman. Also by strange coincidence McManus is a near blood brother to the reporter who wrote the story in that "midwestern" paper that de Toledano characterized as "vicious and possibly libelous". McManus frequently blasts to Group Research (a somewhat rabid, if persevering leftwing group which keeps tabs on all rightlist groups), to insure fair and sometimes good publicity. Needless to say, all of McManus' competitors take it on the chin from Group Research while McManus stands out like a sore thumb, always getting mild praise and/or straight news stories about himself and the A.C.A. Ever since Evans and Novak exposed his "Romney letter" McManus has frequently spilled his guts to them to insure good publicity and to hurt his competitors.

Probably Bauman's wildest escape occurred when he conned General Bonner Fellers, head of

the now defunct Citizens Foreign Aid Committee. Fellers believed Bauman when he said the group needed some young blood to forge ahead. Bauman literally got carte blanche from Fellers, such as the right, to use Fellers' signature on the fund raising letters.

Bauman was thorough, he not only absconded with all the money, he raised (\$7,000) but also lifted eleven years worth of the General's files and the office furniture as well. Apparently General Fellers doesn't have gold teeth, or they would be gone too.

Fellers, old and tired, didn't

Congressman John Ashbrook. Why does he continue to protect Bauman?

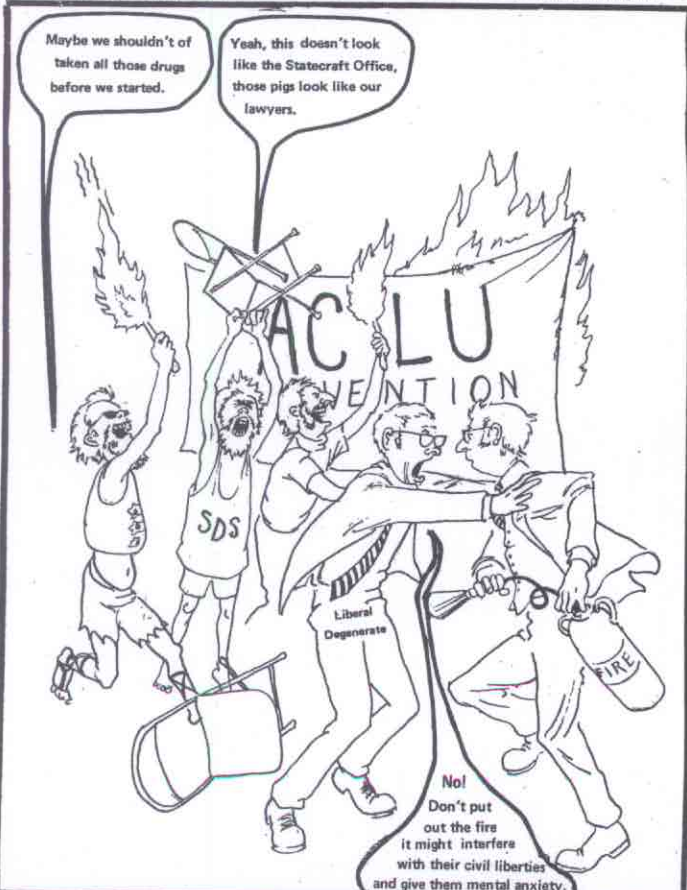

want to sue or press criminal charges which would cause untold embarrassment besides turning the right wing over on its ear.

Again (it seems) Congressman Ashbrook intervened and partial restitution was made. Ashbrook defended Bauman, saying that he found the charges to be "untrue". I investigated the charges and found them true. Ashbrook is again covering up for Bauman. On April 16, 1968 the Citizens Foreign Aid Committee was abolished and the Tax-payers Committee to End Foreign Aid was formed by Fellers and his associates. Unfortunately, Bauman was still

active using his stooge, Lamont duP. Copeland, Jr. to sign the fund appeals of the Citizens Foreign Aid Committee (The name Bauman had appropriated). Bauman used the A.C.U.'s own address of 328 Pennsylvania Ave. S.E. as the new address of Citizens Foreign Aid Committee. Bauman's activity seems nothing short of mail fraud.

But again it seems the protégé of Congressman John Ashbrook can do no wrong, which brings us back to the American Conservative Union, and its chairman John Ashbrook. The A.C.U. is registered as a lobby, is it ethical for a Congressman to be chairman of a lobby? Is it ethical for a Congressman to send out a fund appeal saying, that if you join my lobby, a member of my congressional staff will send you special literature? The A.C.U. is also a political action group. But it only files a political action group report with the Clerk of the House. Although the A.C.U. claims to "work behind the scenes" in Congress and tells on numerous occasions in their fund appeals how they "influenced" Congress, they haven't filed any lobbying reports as required by law. If they are lying in their fund appeals, is mail fraud. If they are telling the truth that they are lobbying and influencing legislation, they are doing it in a manner that is most certainly unethical and seems quite illegal. According to the Clerk of the House of Representatives, the A.C.U. has not filed any lobbying reports since 1965. Although the A.C.U. made the fantastic claim in their fund appeals that "each year your A.C.U. is spending thousands of man hours testifying before Congress, preparing special issues reports, organizing state conservative unions and assisting conservative

# From Hog Slopper To Patriotic Profiteer

The Story of Leo Phillips

Staff Analysis

The Dodge Hotel is right across the street from the U. S. Capitol in Washington, D. C. In an expensive seven room suite on the sixth floor lies the luxuriously furnished and carpeted offices of Leo Phillips, alias Don Phillips, John Acord's new front man.

Many different front groups (all of which seem fraudulent) have op-

Council's literature are House of Rhodes catalogues, Acord's new front in Santa Monica, California. House of Rhodes sells the same trinkets as the Council used to do.

The main front group of Phillips seems to be Heritage Advertising, The American Eagle on his "stationary was stolen directly from the American Eagle Publishing Co.

supposedly buy medical supplies for Rhodesia, as of Dec. 15, 1969 not one band aid had been sent. And the money collected? We discovered that Phillips' wife recently acquired a new fur piece, ummmmm? STATECRAFT has notified the Post Office mail fraud Investigational unit about this along with other matters.

Another Phillips front group is the American Education Lobby. Phillips brags to his friends that he receives 50% of the A.E.L. gross income. The A.E.L. recently sent out a fund appeal claiming that it desperately needs funds to carry on its lobbying fight in Congress. The American Education Lobby is not listed as a lobby with the Clerk of the House of Representatives, which is required by law. The American Education Lobby is another phony front and mail fraud has been committed since they don't lobby as they claim to do. How many thousands of dollars has Phillips and the A.E.L. Stooze who fronts for him (a forlorn crackpot by the name of Lee Dodson) swindled from unsuspecting conservatives? Only God and Moscow (?) know.

Phillips has several left wing affiliations. Both Acord, who was Phillips predecessor, and Dennis McMahon became agents for Drew Pearson, the Institute for American Democracy and the A.D.L. (It is an interesting side-light that the Institute for American Democracy takes McMahon's word as Gospel truth in smearing conservatives. Before McMahon's sudden switch to the red side, he revealed to us how Charles E. Baker (no relation ideologically or biologically, to STATECRAFT's Editor) I.A.D.'s commissar had once made homosexual advances to him. McMahon further states that Baker got rejected from the State Department for being a queer, due to the investigations, at that time, by Senator Joseph McCarthy. Hence, Baker's insane hatred of the right wing.)

Phillips' latest front organization is called the "Freedom Lobby" alias the "American Lobby". (The lobby seems to change its name whenever it gets exposed.)

Phillips sent out a prospectus on the organization, but no known conservatives seemed to get a copy. We do know that the left wing Group Research got a copy and the ultra liberal CLEVELAND PLAIN DEALER newspaper also got one. Both of which gave, by no means, hostile stories. The so-called purpose of this front is to have a full time lobby to work for conservatives on Capitol Hill. Where does the American Lobby intend to get the money? From the prospectus it seems it will cost at least \$100,000 to set up. Will the money come from the left wing? Perhaps, but then again, the American Lobby may be another fraudulent front like the American Education Lobby.

Other fronts operated by Phillips

are the Racial Studies Committee and National Identity Movement. Both now seem to be defunct because of their inability to amass enough money for Phillips.

Phillips himself is easy to understand. He was born with a lip and is ashamed of his hillbilly background. He has had two wives and no children. Phillips sought "success" by making money.

He answered a classified ad for H.L. Hunt's Life Lines. Through hard work, he got himself promoted to office boy, and then to a typist. He later quit and worked for Liberty Lobby as a typist. He probably first got the idea of setting up his "own" conservative lobby while working at Liberty Lobby. Four years later, he quit. Phillips was never the Executive Secretary of Liberty Lobby as he now likes to claim.

People say that Phillips used to make money raising hogs in his back yard, and that it was not unusual to see him or his wife Sheila sliding barefoot in the mud calling and slopping the hogs at 5:00 in the morning. He has since found more profitable ways. His "right wing" front groups are in-

deed a lot more profitable. As he was quoted upon leaving Liberty Lobby, "I intend to make \$50,000 a year or go bust."

Well, Leo, you may go broke after all, and after STATECRAFT and the postal investigators finish, you may go to jail.

A STATECRAFT subscriber recently sent the following letter to the American Southern Africa Council.

Dear Mr. High:

Who rushed to Drew Pearson to spill his guts?

Who was it that used the Communist lingo "NAZI" on a dedicated anti-Communist organization and on dedicated patriots?

Who built up our most important and most powerful right wing anti-communist lobby and the only anti-communist lobby in U.S.A.?

Was it Acord, McMahon, High, Jr., Don Phillips?

No, it wasn't Carlo who ran after Drew Pearson to spill his guts or use Communist lingo "NAZI" was it?

You bums have taken us for suckers long enough, so lay down before we throw you in jail. Go back to Pearson,

Ex Hog Slopper - Leo Phillips working as a typist and office boy.

erated from this suite of offices although the only identification is the number 650 on the door.

Acord (see STATECRAFT Volume 2, numbers 3,4) has fled Washington, but this has not stopped Phillips from trying to out do Acord as the Washington's biggest patriot for profit. Phillips denies that he is Acord's new front man, but the facts speak otherwise.

Dennis McMahon, Acord's intimate friend swears up and down that Acord merely rents the American Southern Africa Council to Phillips. He further states that Acord would never sell such a lucrative money making operation and how else could Phillips even work with the American Southern Africa Council without Acord's okay? Another damning fact is that the Council under "new Management" has never attacked Acord but on the contrary, praised him, while at the same time saying that he was no longer connected with the Council. As if this weren't enough evidence, one merely has to go to the Mailing Services of Washington, a mailing house which sends out all the Council's fund appeals. Stacked right next to the

(In fact, everything of Phillips' is merely copied, borrowed or stolen ideas of more creative people.)

Phillips' stooges for the American Southern Africa Council is someone who calls himself Lake Erie High. Mr. High tries to pass himself off as some kind of Southern aristocrat, while unconfirmed reports indicate he is from New York City's lower East Side.

In talking with STATECRAFT's editor, Mr. High profusely apologized for attacking STATECRAFT. High claimed he directed the American Southern Africa Council. High privately admitted, however, that Phillips writes all the fund appeals including the one High himself was "forced" to sign attacking STATECRAFT. In spite of the fact that High is supposed to "direct" the Council, he admitted that Phillips signs all the checks. Actually, according to High, Phillips controls the Council, since he is the "fund raiser" and has a "contract". What we would like to know is how much does Phillips rake off the top from his contract - 25% - 50% - 75%?

For about six months the Council has been collecting money to

## Robert Bauman and The A.C.U.

(Continued from Page 5)

candidates", the facts speak otherwise.

The A.C.U. testified to Congress only once and that was when Bauman complained to Congress that the A.C.U. should have tax exemption. On an A.C.U. fund appeal there is a picture of Phillip Crane with the caption of "A.C.U. board member, Dr. Phillip Crane, testifying before Congressional Committee." No one, including the A.C.U. office staff could tell us when and what Phillip Crane said to any Congressional Committee, or if he ever did testify.

Granted, A.C.U. did issue a couple of overrated reports which were praised and overrated, primarily by their own A.C.U. staff, board members, and sponsors. Their "organizing state conservative unions" created nothing but paper groups which do basically nothing for anyone. A.C.U.'s assisting conservative candidates is highly suspect.

Although the sum of \$213,466.04 was raised in 1968 (according to their own financial report), the A.C.U. didn't give one cent to any Congressional candidate in 1968. They also didn't help in any campaign. What happened to the money in 1968 and the year before and the year before that?

Is Ashbrook a complete dupe of Bauman's or just plain dumb, or dishonest? STATECRAFT hopes it's one of the first two.

However, the obviously extravagant and almost totally false claims used to raise funds by the A.C.U. and by Ashbrook can not be ignored. One interesting fact is that just about all A.C.U.'s literature and propaganda seem to be reworked from old literature of Liberty Lobby, Americans for Constitutional Action, United Republicans of America and Gerald K. Smith's Christian Nationalist Crusade. Even their much touted eagle was

stolen from General Edwin Walker's American Eagle Publishers.

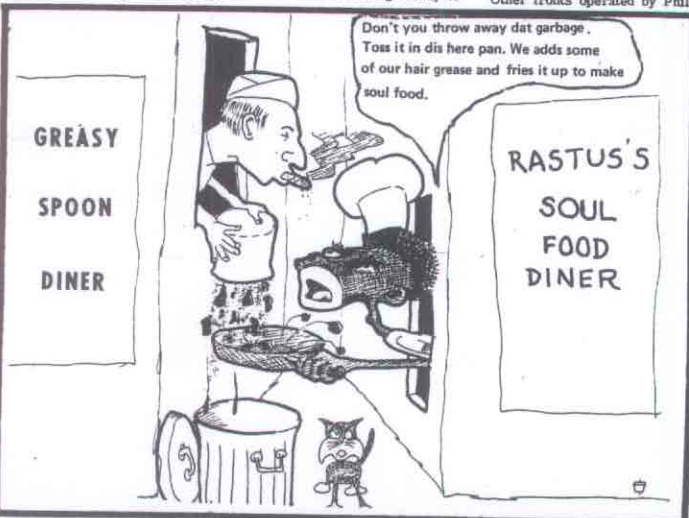

There are those of you who will wonder why the A.C.U. and Bauman have lasted this long. With all the famous conservatives on the A.C.U. board, one would not really think that they could possibly be in any way unethical. Bauman has been saved from his enemies (who are now legion in number) by his strange relationship to Ashbrook. Many are convinced that Bauman has some sort of hold on Ashbrook. Another reason for his survival is Bauman's wife, the former Carol Dawson, a well known and extremely well liked conservative. Many people felt that exposing Bauman would hurt her.

But apparently things are getting too much for Bauman in Washington, and he has moved back to Easton, Maryland. Speculation is that he intends to run against Congressman Morton in the next Republican Primary, which is a joke.

Because STATECRAFT is limited in its power, we are turning over all information to the House Committee on Standards of Official Conduct, the Mail Fraud Unit of the Post Office Department and the Maryland Bar Association.

Perhaps then we will find out what kind of group the A.C.U. really is (lobbyist, political action, or education) and what has happened to the hundreds of thousands of dollars it has collected. Certainly it couldn't have all gone to the drones on the A.C.U. staff.

We may also learn why the A.C.U., and especially Bauman, seem to be at the heart of those elements which have divided the conservative movement for years. ## Brazil Government Should Be Emulated

The right wing government of Brazil should be applauded by right thinking patriots everywhere. Our South American neighbor has no "sissy conservative" type government, but men of iron who refuse to let their country go communist.

While liberal countries let their communist students run wild, Brazil has smashed them and their "student union". Torture was used on these communist students to break the back of communist terrorist cells.

Not stopping at the students the police went after communist and left wing members of the Catholic Church. Two friars were arrested

and this led the police to communist Carlos Marighela (Brazil's most wanted criminal) who was ambushed and killed. As more leftwing and communist Catholic Church leaders were arrested, Twenty-two communist terror cells were smashed.

Some police officers have been excommunicated by the Catholic clergy and praised by other right thinking Catholic clergy.

Brazil is an example to patriots everywhere that you must not become squeamish or finicky in wiping out communists. In the defense of Western Civilization, terror must be met with bigger and better terror as in Brazil.

### Black Atrocities Spread by T. Strumville

The last few months have seen a massive growth in the number of acts of violence on high school and junior high school campuses. Our nation's schools have been turned into a vast network of jungles by degenerate bleeding heart liberal administrators. Forced sodomy by blacks against whites has become an every day event. Rape, arson, mayhem, extortion, and dynamite bombings have become so common that they are not even mentioned in the newspapers.

While the anti-white atrocities, continue, promoted and increased by the Nixon Administration, liberal administrators and teachers, many of whom are queer, teach white students to hate their own race.

Just a few samplings of atrocities from the San Bernardino area of California illustrate the point. On October 19th, about forty white students went and complained to the principal at San Bernardino High School about harassment by savage blacks. The gutless liberal principal took no action and the next day there was a massive race riot by blacks, who temporarily took over the school. Terrified white girls told of how they were trapped in the cafeteria and saw the blacks trying to batter down the doors to get at them. Fortunately, the police arrived and a massive gang rape was avoided. The police were not allowed by the liberal administration to use their night sticks. (Probably because they might pound some sense into the thick ape-like skulls of these animals). Eleven policemen were injured liberating the school.

White this was going on, whites were being attacked by black buses at Golden Valley Junior High. One white mother picked up her injured son and had him treated at her doctor's office and received another call to pick up her other son who had been badly injured by blacks. Two weeks later she had to pick up her daughter who was badly shaken after being molested by blacks.

At Highland Junior High, black girls trapped a white girl in the rest room and carved B.P. for Black Power into her thigh for kicks. Needless to say, no action was taken to discipline these black female spies.

At University Junior High a 13 year old girl was attacked by 10 black power savages in the hallway. Fortunately, she still had her gym sports on under her dress, which kept her from being gang raped as her dress was pulled over her head. All ten were caught, but nothing was done. The Negro principal of the school suggested that one of the molesters should have a talk with the school psychiatrist.

That is just the barest of sampling of atrocities against whites. When a white student finds himself in a jungled school controlled by liberal administrators, he has very little chance to defend himself and his own interests. Luckily, many white students are now beginning to fight back against black and liberal domination. When the lives of white students are jeopardized by liberal school administrators, the whites have but one choice and that is, how best to fight back. White students beaten and maligned and oppressed must now unify and defend themselves.

White students should train themselves in tactics of self defense. They should march into class together as a white group defending their women from the black howling savages. White students should carry clubs and not be afraid to use them on the wild animals or the liberal degenerate teachers. White students should carry gas and, if necessary, guns and fire bombs for their own self defense.

White students must be prepared to act as a political unit to smash the anti-white propaganda spread in today's schools. White students must be prepared to disrupt and if necessary, chase out a Red liberal teacher spreading anti-white hate. White students should demand white studies programs to emphasize the cultural and productive achievement of Western man.

The white students must at all times maintain group unity. White students must prepare to do battle against traitors within their own ranks, such as the SDS. White students must be prepared for all-out war against the Red front, SDS, and their liberal backers. White students should have no truck with racial traitors in pseudo-conservative youth organizations, such as the Young Americans for Freedom. YAF is notoriously anti-white and has actively pushed integration and racial mongrelization.

The white student must at all times be proud of his race. White racial pride does not necessarily mean anti-Negro hatred. The white students should recognize that many blacks themselves desire separate development and, in fact, a separation of races. White students should work to help these blacks achieve their goal of separate black development (as long as this action does not involve anything aimed against white people). White students should realize that blacks have been exploited by liberal pie-in-the-sky promises for thirty or forty years. An honest attitude on the part of white students towards the blacks, devoid of excess emotionalism, will be appreciated by many black students who are tired of liberal hypocrisy.

The white student's own identity and pride in his Western heritage should provide sufficient ideology to motivate organized white resistance to liberal gansterism and black terror. The white student must remember his race at all times. The duty of the white student is to: **THINK WHITE, ACT WHITE, TALK WHITE, BE WHITE, AND BE WILLING TO FIGHT TO MAINTAIN WHITE LIFE.**

## Rational Robert

Dear Rational Robert:  
I recently read that despite the terrible crime rate in Washington D.C. crime has dropped off drastically in the vicinity of the State Department. How come?  
Puzzled

Dear Puzzled:  
It all started with the coming of Franklin Deseano Roosevelt as President. He turned control of our state Department over to the Communists.

The homosexuals who had been making good headway in taking over the State Department at that time received a serious setback. But the queers persevered until recently when they became as strong as the Communists. Then came the knock down drag out fight for the job of hiring new employees between the Communist Ivan Stanislav and the queer Oscar T. Twirlbottom. The fight turned physical as Ivan grasped one of the pictures of Stalin in a heavy frame hanging on the wall and attempted to hit Oscar over the head with it. But Oscar was quicker and hit Ivan over the head with his pocketbook filled with Vaseline jars, splitting Ivan's skull. Because Oscar got the job, queers from as far away as the United Nations in New York descended upon Washington, while whole staffs of Washington's Congressmen and Senators resigned their jobs to apply to the State Department. Soon all the pictures of Marx, Stalin and Lenin in the State Department, came down while those of Walter Jenkins, Gore Vidal, Allen Ginsburg, and L.B.J. went up as the place became lousy with queers.

Before the change, the State Department was a high crime area. Crime soon dropped drastically, the reason being that Negro criminals were being attacked and gang raped (sodomized) by hordes of State Department queers who had strange and unusual urges for black men.

Dear RATIONAL Robert:  
As a libertarian YAF member let me say that STATECRAFT and especially you are evil and terrible racists. The way you exaggerate Negro stereotypes is terrible. However, don't get me wrong, I'm not prejudiced, in fact, some of my best friends are Negroes. I say that most Negroes are just as good as us regular people even if they don't

talk as well or smell so good and aren't so bright.

After all Rational Robert, if it wasn't for my Negro friends where would I buy my drugs? And after all, Negro girls are a lot more sophisticated and cheaper than white girls, even if I have gotten V.D. a few times.  
Harvey Goodfellow III

Dear Harvey:  
It's obvious you have liberalitis, a usually incurable disease. I suggest you take a trip to Biafra to help alleviate the food shortage. When those howling cannibals see your well fed body and start smacking their Ubangit lips you may possibly wake up.

Dear Rational Robert:  
I am one of those white trash S.D.S. hippies you talk about. I and 43 others decided to form a commune and drop out of society. We all moved into an abandoned telephone booth and set up housekeeping. Unfortunately, the telephone booth was in a white neighborhood. Our fascist neighbors complained to the Health Department that our somewhat crowded phone booth was a breeding place of hepatitis, V.D. and tubercular plague. The overpowering stench was considered to be a form of gas warfare.

Finally the city garbagemen (who are agents of the Military-Industrial Complex, besides being lackeys of the International Bankers) hauled our phone booth over to the city garbage dump.

Before they moved the booth, we ate high class garbage from white neighborhoods. We now have nothing but low grade ghetto garbage.

The Health Department people then quarantined us because the dogs and rats which inhabit the dump all died of hepatitis, tubercular plague and V.D.

Our disease potency and stench grew until a team of government scientists examined us wearing gas masks and insulated suits. It is now rumored that the U.S. will break the Geneva Conventions on germ and poison gas (stench) warfare by parachuting us into North Vietnam, in fact the only thing holding them up is finding a volunteer pilot who won't throw up at the sight of us.

Help us Rational Robert. We're hearing strange rumors that North Vietnam is not quite the workers paradise we thought it was. In

fact, in North Vietnam, they make people take baths.  
Claude Crud  
S.D.S. Commissar of Scum University

Dear Claude:  
North Vietnam and your group deserve each other.

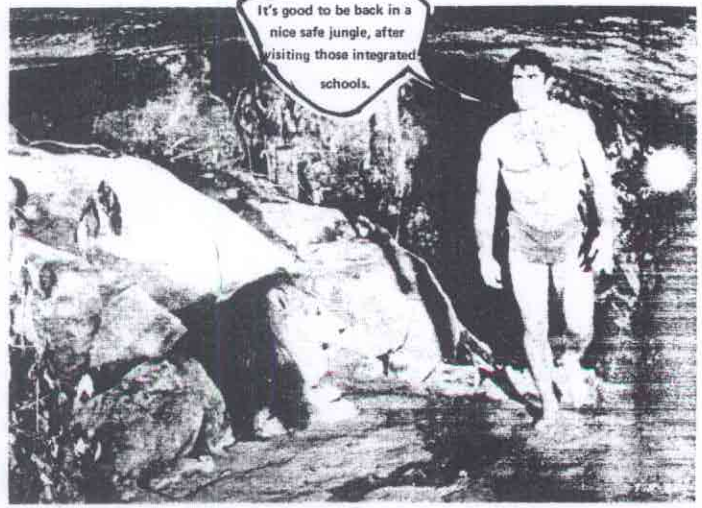

### Vigilantes Needed

Vigilantes are needed now as never before.

Originally, vigilantes were set up in the Old Wild West by leading citizens when there was no law in existence. Their speedy and sometimes rough justice quickly put an end to various social undesirables. Since there were no bleeding hearts in those days, the vigilante form of justice was effective.

Now with police having their hands tied by liberal politicians and savages controlling the streets, we again need vigilantes. Our women are being raped with impunity by gangs of roving beasts. If apprehended, some liberal judge will free them while The American Civil Liberties Union and N.A.A.C.P. lawyers will rush to the rapists defense.

We also need vigilantes to work against the liberal controlled government. It does not protect its law abiding citizens, but instead helps and protects criminals and subversives.

# Leadership To Victory

by K. R. Vailha

The massive failure of rightist efforts in the past few years has been caused solely by incompetent leadership. As liberals and Communists continue to push from one victory to another, a state of highly distorted puritanism prevails throughout the right wing. This puritanism takes the form of the "I'd rather be right than President" ethic. Victorious liberals and Reds have never been concerned with being "right" - their only concern is with gaining and holding power.

Power always determines right. Group power determines group right. Social power determines social right. State power determines state right. Ultimately, the Supreme Power determines inescapable right. Power can have either a positive or a negative base. Sociologist Talcott Parsons correctly recognized that coercion constitutes a negative type of power and persuasion constitutes a positive type of power. Persuasion by use of propaganda can achieve influence, which is itself a form of power. The greater the number of people who are persuaded by a particular propaganda, the greater will be the power accruing to the originators of that propaganda.

Most rightists are ignorant of effective propaganda techniques. Trying to explain propaganda to right wingers is often like trying to explain color to the color-blind. I once knew a rather militant anti-Semite who was in charge of a nation wide political organization. I had previously heard a number of complaints from members of his organization about how boring the organization's newsletter was. The anti-Semite insisted on taking the "intellectual" approach in hopes of recruiting a "culture bearing elite". I told him that an elite must come up from the masses. I also told him that if he ever wanted to build a successful organization he would have to master the art of propaganda. His newsletters should strike an appeal to the emotions and have some humor. I pointed out to him how his enemies, the Jews, were generally highly accomplished in the use of political propaganda. I told him that if he wanted to win he should study and copy propaganda tactics of his successful enemies. He immediately became enraged and shouted out "I don't care what happens, I won't act like the Jews--I would rather fall than use Jewish tactics."

Because of the Czar's secret police, Lenin built his organization in an underground manner. He built a cadre of Bolshevik leaders upon his own interpretation of Marxist ideology. Lenin worked for twenty years to build his organization and was able to succeed because his followers were trained in the art of agitation, as well as party ideology. With Lenin, the organization preceded mass propaganda (not to be confused with Lenin's use of the word "propaganda" to describe the education of Bolshevik party members) because the use of mass propaganda was not possible under the rule of the Czar. It is always preferable to build a mass party by propaganda and then search for organizational leaders who will naturally raise themselves up from the masses.

It was possible to first build a mass political movement in the Weimar Republic. Adolf Hitler built a successful mass movement because of his amazing propaganda abilities. He and Dr. Joseph Goebbels created one of the most efficient propaganda machines in modern history. Their propaganda gave the National Socialist Party its organization. Hitler's iron will was the supreme power force behind the party's march to power. The National Socialist ideology was based on Aryan racial principles. Only rarely did Hitler discuss abstract Aryanism in his speeches. His propaganda and speeches were geared to the interest of the masses and not to the interests of ideological Pan-Aryan intellectuals. Most National Socialist propaganda was based upon German nationalism and easily understood economics.

Alfred Rosenberg's MYTH OF THE TWENTIETH CENTURY is considered to be of great philosophical importance by many American pan Aryan and Nazi intellectuals. Hitler himself rejected the book stating: "I must insist that Rosenberg's MYTH OF THE TWENTIETH CENTURY is not to be regarded as an official doctrine of the Party. The moment the book appeared, I deliberately refrained from recognizing it as any such thing." (quoted from HITLER'S SECRET CONVERSATIONS). Rosenberg was editor of the official National Socialist party newspaper -- the VOLKISCHER

art of Machiavelli and superbly able to practice real politik. Neither made a religion out of political ideology.

When Lenin arrived in Petrograd in 1917 he discovered that a number of his party followers wanted to make a coalition and work with the Provisional Government. Only Lenin's strong will was able to overcome the internal opposition and return the Bolshevik party to its position as a weapon aimed at the destruction of the provisional government. Lenin's intellectualism did not interfere with his propaganda capacities. Lenin's speeches to the masses were not arguments for abstract Marxist economics or his own Theory of Imperialism. His slogan of "bread, land, and peace" went straight to the hearts of the masses. In his demand for "land for the peasants", Lenin violated his own

BEOBACHTER. Hitler complained about Rosenberg's excess intellectualism in the paper. "At the beginning, the VOLKISCHER BEOBACHTER sailed on so high an intellectual plane that I myself had difficulty in understanding it, and I certainly know no woman who could make head or tail of it! Rosenberg insisted on this extremely high level: at that time, where the leading article now appears, he gave us deeply philosophical treatises written by professors and mostly on Central Asia and the Far East." (Ibid) Hitler also objected that Rosenberg's "contempt for mankind was only increased when he found that the more he lowered the intellectual level of the journal, the more sales increased." (Ibid)

How ironic it is that so many of those who today consider themselves to be National Socialists

## REVOLUTIONARY PROPAGANDA PRINCIPLES

Hitler developed a number of important propaganda principles in MEIN KAMPF. The chapters "War Propaganda", "The Significance of the Spoken Word", and "Propaganda and Organization" demonstrate Hitler's great understanding of social psychology. Most anti-Nazis and Nazis alike who read MEIN KAMPF concentrate mainly on Hitler's ideas about race and foreign policy. They usually ignore or fail to understand Hitler's ideas on propaganda. Intellectuals and especially pseudo-intellectuals are often contemptuous of effective propaganda. They are highly intolerant of emotional appeals which reach into the hearts of the masses. Hitler had harsh words for these people in MEIN KAMPF: "...only that intellectual comes into question who

a loss of ego. In 1928 Goebbels wrote "...it is not the task of propaganda to entertain, but to produce results...therefore it is beside the point to say your propaganda is too crude, too mean, or too brutal, or too unfair, for all this does not matter" (PERCEPTION AND PROPAGANDA).

I believe that a knowledge of modern social science is very helpful in understanding and using propaganda. The great political leaders of our time have not been scientists however. In the final decision, INTUITION must take precedence over social science. It is usually best to take account of the tools of social science such as the use of public opinion polls. Goebbels taught that **EDUCATION IS AN ART, BUT ACHIEVED BY GENIUS.** The practice of genius often creates jealousy and animosity from the politically less able.

When STATECRAFT started we discovered that "racist" cartoons and humor had a popular appeal among those hard-core fighters we were trying to attract. Following the law of supply and demand, we reduced the content which would appeal to "responsible" conservatives and increased the number of "racist" and revolutionary items and cartoons. This change brought us to the attention of many racially oriented political groups. The success of our approach is demonstrated by the wild response STATECRAFT is receiving from high school and college students who are fed nothing but Marxism and the "underground" press. Many political groups are obviously jealous over our success and efficient use of propaganda. They have bombarded us with hate mail and threats. The head of the left wing "Group Research" called our last paper "the most racist thing I've seen in years". We have been called: "racists," "Jews," "bigots," "hate mongers," "pagists," "Zionists," "anti-Semites," "Jew stooges," "Nazis," "Com-

has understood the task and the goal of the movement to such an extent that he has also learned to judge the activity of propaganda according to its success and not according to the impressions which it makes upon himself." In the same book Hitler stated: "If propaganda renounces the originality of expression, it will not find its way to the feeling of the great masses. But if in word and gesture it applies the coarseness of the masses' feelings and expressions, IT WILL BE REJECTED AS RUDE AND VULGAR BY THE SO-CALLED INTELIGENTSIA". It is strange to see the number of Jews who understand these principles and the number of Nazis who do not. Goebbels recognized that the only good propaganda was that which worked. He himself was always flexible and thus able to discontinue an unsuccessful propaganda approach without suffering

political ideology. In fact, Lenin later admitted to his party cohorts (after 1917) that he had conducted a "bourgeois revolution" gaining political power with the help of many who had fought to get a little private property of their own. A few years after that when the party was firmly entrenched in power, it corrected Lenin's deviation and confiscated all private property. The important point to remember is that Lenin and his party used mass propaganda to get into power and once they were in power they began to push their ideology down the throats of the newly enslaved Russian population.

Because of the Czar's secret police, Lenin built his organization in an underground manner. He built a cadre of Bolshevik leaders upon his own interpretation of Marxist ideology. Lenin worked for twenty years to build his organization and was able to succeed because his followers were trained in the art of agitation, as well as party ideology. With Lenin, the organization preceded mass propaganda (not to be confused with Lenin's use of the word "propaganda" to describe the education of Bolshevik party members) because the use of mass propaganda was not possible under the rule of the Czar. in thought-and/or action take Rosenberg's position. Many of today's "intellectuals" act in the same manner as the previously mentioned militant anti-Semite. They absolutely refuse to examine and use the successful methods and tactics of their political and racial opponents. The "intellectuals" continue to demand "high level" propaganda, no matter whom it bores. Goebbels was a true intellectual who put his genius into creative and effective political propaganda. As Reich Minister of Propaganda, Goebbels required German film makers to study and emulate the classic Soviet film BATTLESHIP POTEMKIN directed by Sergel Eisenstein-- a Russian Jew. Goebbels, unlike my rigid anti-Semitic acquaintance, had no inhibitions about studying the propaganda successes of a Jew. Goebbels was no less anti-Semitic for his action, but he WAS successful.

munists" and various and sundry other titles. One person accused us of not supporting a positive white racial approach—we never felt that it was necessary to push that which is self evident.

Goebbels was leader of the Nazi Party in Berlin when it was suspended from political activity during the Weimar Republic. Goebbels pointed out that the suspension was the proof of his party's propaganda effectiveness and danger to the regime then in power. The viciousness and jealousy of the hate mail we have received is the proof of our effectiveness. Had we not received it, something would have been wrong with our propaganda.

Successful propaganda must always appeal to the emotions rather than the intellect. During the 1964 Presidential campaign, the writer, Pat Frank, designed some highly emotional television appeals for use by the Democratic National Committee. One famous TV ad showed a man tearing up a Social Security Card while a voice quoted a speech by Sen. Goldwater attacking Social Security.

Probably the most effective political ad in the history of television came in the form of a "spot" advertisement interrupting NBC-TV's MONDAY NIGHT AT THE MOVIES showing of DAVID AND BATHSHEBA. During a one minute film, a small blond girl is shown picking flowers in an open field. The child starts to pluck the petals of one flower, and as she plucks each petal, she counts, "One, two,..." From her rear, the soundtrack provides a man's voice counting the numbers backwards, from ten to zero. The man counts with a "doom filled cadence" when he intones, "Zero", there is a screen filling scene of an atomic explosion. Then the voice of President Johnson is heard saying, "These are the stakes. To make a world in which all of God's children can live, or go into the dark. We must either love each other or we must die!" The doom-voiced announcer then breaks in and urges viewers to vote for LBJ on Nov. 3—"The stakes are too high for you to stay home."

That masses of people could fall for such obvious trips demonstrates the correctness of the emotional approach to propaganda. Those "spot" TV ads cost Goldwater millions of votes in 1964.

#### POLITICAL DISTORTION

The primary aim of politics is the attainment of power. Some groups, such as the Fascists, the Stalinists, and the liberals, seek political power as an end in itself. Other groups, such as theo-

crats, capitalists, or National Socialists, seek power as a means to achieve specific goals (religious, economic, or racial). Regardless of political ideology, it is the specific function of all political groups to seek power. Any political group which abandons or ignores its goal of power loses its political nature and becomes just another educational, historical, or religious debating society.

The conscious or unconscious abandonment of a political group's power goal is the most grotesque form of political distortion. Political distortion is the handmaiden of right wing puritanism. The "I'd rather be right than President" ethic has in effect turned many nominal political groups into religious like cults. A cult can never separate its ideology from the methods it uses to obtain its ends. Cults therefore produce esoteric cultist ideological propaganda which is inherently self defeating in the realm of politics.

Perpetuating the religious worship of an ideology, a conspiracy theory, historical outlooks, or of fallen heroes is actually the manifest function of many rightist groups. Political distortion and a total failure to ever obtain power is the latent dysfunction of these same groups.

Some groups spend all of their spare time rewriting history and "educating" people about the root causes of today's troubles. Some people spend their entire lives preaching about the Illuminati and its beginnings before the French Revolution. Others spend their time proselytizing about THE PROTOCOLS OF THE WISE MEN OF ZION. And still others spend their time looking under their beds for Communists when their obvious and most dangerous enemies are the liberals who control America. (To be sure, I am just as opposed to Communists as I am to liberals, but successful politics requires that one be able to properly separate and classify his political enemies.) Several different groups spend all of their time revising the official liberal versions of World War One and World War Two.

All of the above mentioned activities are interesting pastimes and often prove to be enlightening as well. Rightist political groups who rewrite history are much like Freudian psychoanalysts. Showing the patient (through years of intensive "treatment") the early childhood causes of his present adult mental illnesses is supposed to effect a cure. Prof. Hans J. Eysenck and Dr. Albert Ellis exposed Psychoanalysis as a fraud.

They discovered that the condition of patients undergoing psychoanalytic treatment actually got worse than the mentally ill who received no treatment at all.

An obvious analogy can be drawn to rightist politics. Rightist groups have been in the position of a doctor trying to cure a seriously ill patient of disease. The patient is America and the disease is liberalism (or any of its degenerate, destructive by-products). While large numbers of rightist doctors have been using the Freudian approach to educate the patient as to the historical causes of

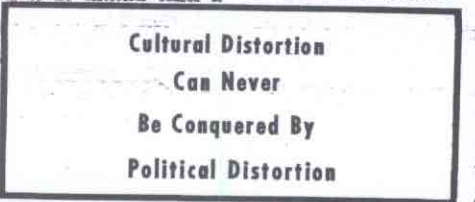

These disasters may occur separately or in partial combination. It can be said with absolute certainty that at least one of these disasters will occur.

First, of course comes the ever present threat from atomic war. About this threat we can do nothing, unless we can gain political control.

The second threat comes from the great likelihood of a racial civil war in America. The race war is actually going on constantly. It is only a question of time before total anarchy and chaos take over. A race war could wipe out the entire productive element within American society. Many of the previously discussed cultists would no doubt take up arms to save the White race. They would probably fail because they had not previously organized sufficient numbers of fighters. No para-military organization can succeed without effective political direction. Cultists can not suddenly develop political talents overnight. A race war will provide us with a good opportunity to organize, if we have effective political leadership. If we fail, our people will be destroyed.

The third threat comes from the probability of a severe financial crisis. A financial collapse would spell revolution in the streets of America. It might come in combination with a race war. Economic collapse would provide rightists with their greatest political opportunity in American history. Talented political leadership could gain a mass following from the ranks of the former affluent who would be in a state of shock over their new impoverishment.

The fourth threat is by far the most subtle and therefore the most dangerous for the American people. If the liberal establishment can get together with its Soviet and Chinese allies to prevent an atomic war, and the racial and economic crisis can be somehow kept under control, they are very likely to set up an absolute Orwellian-type dictatorship. This danger was discussed in the article "The Mission of STATECRAFT"

its illness, the patient has actually gotten worse. America the patient is actually on its death bed. Cultists and historical specialists of the right have proven to be completely incapable of saving America.

#### THE TIME FACTOR

Time is rapidly running out for the American Nation. The future offers darkness in the form of four imminent disasters for the United States and for the very survival of Western Civilization,

appearing in Vol. 1, No. 1 of this paper. The rapid advance of technology makes a 1984 type of society a definite possibility. The liberal establishment has been using the Orwellian language Doublethink (make war for peace, ect., ect.) for years. The perfected technology will give the liberals absolute social control. The Marxist liberals will not hesitate to establish such a dictatorship. Once a technological dictatorship is established it will be impossible

to mount a successful revolt to save our people. The Orwellian liberal dictatorship will mark the end of Western Civilization, as forced mongrelization and enslavement proceed at full speed, unchecked by any political opposition.

Threats number two and three offer us political opportunities. From threat number four, there can be no escape. Our only chance then would come from smashing liberalism by force before such a dictatorship was set up.

The above threats are ample proof that the time factor MUST be considered in any rightist plans to gain power. We do not have the twenty to twenty-five years that Lenin had to establish his organization.

#### POLITICAL ORGANIZATION

Many rightist groups completely ignore or minimize propaganda and concentrate entirely on organization. The recruitment of patriotic fighters and talented people with leadership abilities is automatically kept at a low level by such methods. Many organizations hope to develop a highly skilled cadre and then shift their attention to mass propaganda. Concentrating on organization or simply giving it equal rank with propaganda, might seem to be the ideal course of action for small rightist revolutionary groups. Unfortunately, such plans fail to take the time element into account. A race war and/or economic collapse is an immediate danger. They are likely to occur within the next five to ten years. WE MUST BUILD A FIGHTING ORGANIZATION AS FAST AS POSSIBLE. We must have our organizational sails ready to catch the great wind of political opportunity when it comes along. Patriots simply do not have the time to slowly build a highly competent cadre. The time factor REQUIRES that patriots must concentrate their efforts on the most efficient use of propaganda NOW, TO RECRUIT THE ORGANIZATION.

Anyone (regardless of political persuasion, either left or right) hoping to build a mass organization in a short time should study Hitler's ideas on Propaganda and Organization in MEIN KAMPF. Hitler wrote, "Propaganda had to precede FAR IN ADVANCE OF THE ORGANIZATION and to win for the latter the human material to be utilized...It is more expedient first to spread an idea by propaganda from a center and then to examine and to search for the leading heads in the human material which is gradually being assembled...The better propaganda has been working, the smaller may be the organization...the worse propaganda is, the greater must and will be the organization...The first task of propaganda is the winning of people for the future organization; the first task of organization is the winning of people for the continuation of propaganda...The organization receives its members from the followers in general won by propaganda. ## Red TV Over America

Recent speeches by Vice-President Agnew have attacked the nation's three major television networks (ABC, NBC, CBS) as being biased in news coverage. Congressional investigators are currently examining the same charges. Chief investigator, James Kelly, of the House Commerce Committee examined TV network coverage of the 1968 Democratic National Convention in Chicago. Kelly admitted that the networks presented "a one-sided picture which, in large measure, exonerates the demonstrators and protestors."

Kelly found numerous examples of news suppression by the enemy Marxist TV networks. In CBS film reel 30-5 the beginning of a fight between police and hippies was shown. In the original film one of the announcers declared, "They are assaulting police lines." Kelly discovered "when the material was presented over the air, no reference was made to the above quoted remark, nor was any scene of such an assault visible. Shots of material raining down from the Hilton Hotel onto the heads of police were also available but not broadcast."

The House investigators also discovered film footage showing police cars being stoned by the demonstrators with the police pursuing and capturing at least one of the stone throwers. When the scene was broadcast over the air, the police were shown chasing after the stone thrower, but the preceding attack against the police was carefully cut from the broadcast.

The investigators discovered "that demonstrators provided themselves with bandages for the benefit of cameras so as to give the impression that widespread injuries had been inflicted by the police."

The investigators heard one witness describe how he saw a Red agitator hurl a wooden sawhorse against a policeman, who then charged the agitator, struck him, and took him into custody. The witness noted that only the policeman's defensive action against the

Red agitator was shown on TV to make it appear to be an unprovoked assault on the agitator by the policeman.

Falsifying photographs and movie film is an old Communist tactic. The only surprising thing about TV network bias is that it has taken people so long to wake up to the fact.

Liberal reaction to Vice-President Agnew's charge of TV news bias is the same old wailing and moaning that we have heard for thirty or forty years. They are screaming and shaking in hysteria over the "threat" against "free speech." The only free speech that exists on the television network is the free speech of geriatrics, debauchers, dope addicts, and destroyers.

Modern television has become a haven for Marxism, racial mongrelization, anti-white hatred, and leftist intellectual bigotry. The "free speech" on modern television offers no place for patriots, no place for the decent, and no place for the productive. It is true that occasionally liberal approved, conservative stooges such as James J. Kilpatrick (who recently praised the behavior of the November 15 "peace" demonstrators) are allowed on a TV station.

How often have you seen anyone on your television network who actively opposes the rotten Marxist liberal system? When was the last time that decent white working men of America got a fair shake instead of an insult from TV. Liberal controlled television censors anything hostile about blacks and at the same time, pours forth hatred against white Americans of Polish and Italian descent. The same hatred is shown by liberals to any white person from the South. Liberal controlled television is, in fact, an active instrument of anti-white hatred.

It is obvious that any attempts by the Nixon Administration to obtain some form of objectivity on the television networks is impossible. The liberal economic control of the major networks is absolute and total. There is no

possibility (short of revolution) of restoring American television to a pro-American direction. It is possible that some patriotic activists in the country could systematically begin to blow up television microwave relay towers. Such patriotic action would involve the minimum risk to life and a maximum attack upon Marxist-liberal property.

Democracy requires equal presentation of opposing viewpoints. The liberal Marxist television networks who spout the praises of democracy are themselves the very enemies of the democratic process in America. When treason and destruction is spread over our networks, it is the duty of patriotic Americans to rise up and destroy these networks. Good luck to any Minutemen or other patriotic organizations who have the guts to start destroying TV towers now.

## Leadership to Victory (Continued from Page 9)

**WILL GROW THE MORE QUICKLY, THE MORE INTENSIVELY PROPAGANDA IS CARRIED OUT.**

Although propaganda must work together with organization to be politically effective, it MUST HAVE A HIGHER PRIORITY THAN ORGANIZATION. Without effective propaganda there can be no organization.

### PROPAGANDA INTO VICTORY

Only the most DYNAMIC, LIVE, AND EMOTION PACKED PROPAGANDA CAN AROUSE THE MASSES. Far too many rightist groups put out logical treatises to "educate" people. Patriots continue to fill each other with mountains of facts and statistics while the nation is being destroyed. Only that propaganda which can reach the hearts (rather than the brains) of the masses can generate a spirit of heroic resistance. For many years, the liberals have downgraded Heroism. America has become the home of the "cool", land of the bland. The liberals have never totally succeeded in extinguishing the heroic spirit of Western Man. Our people are starved for Heroism--note the continuous sale of Ayn Rand's books. She and other intellectual romanticists can never succeed, however, as mass propagandists because of the intellectual's built in disdain for the masses.

The successful propagandist must be able to put on a show to attract the largest possible audience, which would then be subjected to political agitation. For example, more people will read this article because of the humor and cartoons in this paper. In this situation, the cartoons and humor constitutes our "show" which draws and "audience" to our paper. Of course everyone will not read the longer articles, but the paper will have a much wider circulation than if it had nothing but strait political commentary.

It is necessary to gear propaganda to the accepted values of the masses. People must be able to understand and readily identify with the symbols of an organization's propaganda. Many rightists hate American popular culture and consider it to be a form of "distortion." This hatred often shows in the propaganda put out by these organizations. The great majority of the American public has been brainwashed by the liberal masters of the mass media. Successful propaganda must be geared to the distorted values brainwashed into the minds of the masses. Look at the large number of patriots who have become multiracial and are afraid of being called "racists". Even George Wallace denies that he is a racist. Each of these people is playing the game by liberal imposed rules. It is the liberals who are full of racial hatred. It is the liberals who are bent on wiping out the

White Race. Propaganda must be based on racial survival (a form of negative racial appeal - the use of fear) as opposed to racial idealism (a form of positive racial appeal such as Pan-Aryanism which has very limited use because the typical industrial workers and white collar people are not able to identify with the symbols of Pan Aryanism and Nordicism).

Great effort must be made to keep in touch with the needs, interests, and desires of the masses. Ultimately, race determines all economic, technical, and social development--of that there can be no doubt. In the short run, all people are motivated by economic interests (including the basic economic interest of survival when faced with visible and immediate destruction). Most people, therefore, are "materialistic" by nature. Only the truly great political leaders with an all powerful WILL will have the strength and forbearance to work towards and achieve far distant goals. The greatest of leaders have understood that the masses can never see, let alone work towards long term "idealistic" goals. The great leader understands the materialistic nature of the masses and directs his propaganda accordingly. He never makes the mistake of attacking "materialism" which would immediately antagonize the primitive economic instinct of the masses. Idealism is a form of romanticism. Romanticism is by definition an avoidance of reality. Political power can never be gained by those who are unable to operate in the real world. To be sure, idealism must play a motivational role in the establishment of a revolutionary movement. The problem faced by so many rightist groups comes from excess idealism. Extreme idealism, unchecked by a realistic appraisal of the masses, leads straight into political fantasyland. IDEALISM, THEREFORE CAN EASILY LEAD TO POLITICAL DISTORTION.

Political propaganda must be aimed at a few targets. These targets must be attacked in every conceivable manner. One such justifiable target is liberalism.

An effective propaganda which appeals to the emotions of the masses and which demonstrates total opposition to the forces of liberal destruction can save America. ONLY IF WE ARE ABLE TO MAKE THE MOST EFFICIENT USE OF MODERN POLITICAL PROPAGANDA, DO WE HAVE A CHANCE TO WIN. ONLY IF WE CAN CREATE A HIGHLY DISCIPLINED POLITICAL ORGANIZATION, DO WE HAVE A CHANCE TO LIVE, AND ONLY IF WE ARE TO DEMONSTRATE THE MOST RUTHLESS AND DEFIANT OPPOSITION TO THE LIBERAL SYSTEM, DO WE HAVE A CHANCE TO SURVIVE.

# Book Reviews—Surrender? Never!

The Persian Expedition, by Xenophon, Translated by Rex Warner, Penguin Books, Baltimore, Md.; 309 pages, paperback \$1.55.

100 Years of Lynchings, by Ralph Ginzburg, Lancer Books, New York; 270 pages, paperback \$1.25.

REVIEWED BY JOHN VANIRSON

It is fashionable in some "conservative" quarters to bemoan about how bad things are, and talk fruitively, of grabbing all available cash and fleeing to Australia, Rhodesia or South Africa.

After all they gaggle, "we're finished, the Nation, Race, Religion, et al. Why try? The odds are too much, our enemies are too strong," goes the nonsensical drivel.

Of course, they could always give their boarded loot to "Controversial" groups like STATECRAFT instead of taking it with them, but that might upset some of their Republican friends who are Nixon stooges.

Many is the non-fleeing type of conservative who is discouraged at the fantastic odds against us and of our infinitesimal chance of winning.

With such a fatalistic outlook (definitely an alien, non-western type of Philosophical outlook) our enemies conquest is already half complete.

But I disagree emphatically. We are far from lost and these two book reviews will illustrate the point.

The first is The Persian Expedition by Xenophon also called the Anabasis (Greek-going up, L.E.

to the sea). Xenophon was an Athenian gentleman who joined an army of Greek Mercenaries hired by Cyrus, younger brother to the King of Persia, (Artaxerxes II). The purpose was to overthrow his older brother and make himself King. Although his army was made up mostly of native Persian troops, the Greeks were his army's backbone, being the best. This is what the Anabasis is about. The events of which took place about seventy years before Alexander of Macedonia (the Great) finally conquered Persia.

The rebel army of Cyrus met the Persian King deep in Persian territory at Cunaxa which is near Babylon.

Although many times outnumbered the Greeks led the troops that smashed the enemy and won the battle. However Cyrus was slain in the battle and his whole army was pardoned and went over to King Artaxerxes II. The Greek generals who went to the Persian King to negotiate were treacherously murdered.

There were 13,000 Greeks trapped 600 miles in their hereditary enemy's territory. Leaderless, without supplies, without cavalry (they were all infantry), without guides, surrounded by numerous Persian armies, and cut off from the Greek city of Trapesus (Trebizond) on the Pontus Euxinus (Black Sea) by numerous mountain ranges and broad rivers, and a million Persian troops, the situation was bleak.

But these were not a bunch of whining sissy conservatives or slobbering Liberal faggots. They

were Greeks of Hellas who were made of sterner stuff, whose Western Spirit was unconquerable.

The army quickly elected new generals. They captured enemy horses. They marched quickly outdistancing the Persians, seizing villages and cities for supplies. They climbed the impossible mountain ranges, smashing the attacking natives who inhabited them. They crossed the impossible rivers, they found guides. Skirmishes were an hourly occurrence. The Paeon (Greek hymn before battle) sounded to pitched battles which were fought daily and several Persian armies were wiped out in the process as 10 of the 13,000 reached the Greek City of Trapesus.

The saga of the 10,000 is the saga of Western Man and should be required reading for the faint hearted.

The second book is, 100 Years of Lynchings by Ralph Ginzburg, a convicted pornographer, his demise being a rather corny and boring piece of trash called Eros Magazine. It should be noted that Pornographer Ginzburg is a typical liberal degenerate faggot belonging to numerous leftwing and Communist front organizations.

The book briefly states that the reasons Negroes are so militant these days is because of the atrocities perpetrated on them by Whites since they (Negroes) were freed. The book then goes on to catalog about three hundred lynchings taken from newspapers between 1880-1961.

While liberals, do-gooders, humanitarians, peace creeps along with other obviously deranged people would find this book a "bit" upsetting, I found it extremely amusing and many times hysterically funny.

Take the time in Oklahoma City where the Negrophile Mayor pleaded with the mob to give a Negro, who had raped a white woman, a fair trial. The mob lynched the mayor too. (Scratch one liberal). Or the time students at the University of Missouri joined in with the townspeople to lynch their Negro janitor who raped a local white girl. Such entertaining and amusing stories are numerous in this book.

Most of the action took place in a year which did not see a mental defective like Earl Warren or the other scrawball judges who are now the Supreme Court. (Who would no doubt free these anthropomorphic rapists).

100 Years of Lynchings should be required reading because of the insight it gives into the American spirit-Mobocracy. I do not mean this in a derogatory sense at all.

Actually the Germans and in fact all Europeans have more of a veneer of civilization than we have. This is not an insult but

a compliment. It is mobocracy, the spirit of the mob which won us this great nation we call America. Once aroused the spirit of the Mob-Mobocracy sweeps all in its path crushing America's enemies.

Mobocracy is the spirit which the liberal fears most of all. Though it sometimes seems non-existent it is merely dormant. Liberals like John Kenneth Galbraith and Arthur Schlesinger know this and fear it. They toss and turn in bed at night from fear of the mob, which will hunt them down for the animals they are, where ever they are to hang, shoot, and torture them to death.

The spirit of the Mob-Mobocracy is there dormant that seething, soon to erupt in a volcanic rage which no one can stop. And then the liberals will know their time is at end. When it erupts it will crush S.D.S., black power savage, communist and socialist alike.

Then we will hear the sound of a muffled firing squad and see the shadow of a man hanging from a tree, from beyond the Brooks Mountain range in Alaska to the corpse choked Rio Grande.

And then like the dinosaur and the dodo bird, the liberal will become extinct.

SHOULD WE SURRENDER? NEVER!

## Nixon Betrays Okinawa

And when he gets to heaven To Saint Peter he will tell: One more Marine reporting, sir—I've served my time in Hell.

This is the epitaph of the United States Marines who fell fighting the Japanese amid the rot, stink and mosquitoes which characterized the Hell of Island fighting of World War II.

In wresting control of the Pacific from the Japanese, no fight was more vicious than that on Okinawa from the assault on Easter Sunday, 1945, led by General Simon Bolivar Buckner, to the destruction of Japanese command headquarters at Shuri Castle and the suicide of General Mitsuru Ushijima. This battle will stand as a monument to the American fighting man.

Okinawa, the largest of the Ryukyu Island Chain, was kept as a strategic island base by America. The Okinawans were overjoyed at being liberated from the despotic Japanese and happily accepted American rule.

Okinawa, bristling with atomic and nuclear weapons, poison gas and Marines was an island fortress pointing like a dagger at Red China. The island is of immense strategic importance.

For years Communist led mobs of Japanese "students" have agitated for the "return" of Okinawa to Japan. Gaggling American liberals, humanitarians, Communists, and other traitors joined in to the chorus to deprive America of this strategic base. After all, reasoned the traitors, Mao Tse Tung and hordes of uncivilized Chinese gnash their teeth over Okinawa, and it caused poor Mao mental anxiety. Even liberal L.B.J. didn't go so far as to give away Okinawa. It took "moderate" Nixon (the darling of "responsible conservatives") to sell out the strategic defense base of Okinawa.

The "treaty" with Japan has been recently signed giving that nation sovereignty over Okinawa. Okinawa will be stripped of its atomic, nuclear and poison gas weapons. Establishment liberals and other traitors needless to say have hailed this treaty as another example of Nixon's "statesmanship." If one didn't know better, one would think that we lost World War II TO Japan. After all what victorious nation gives up a strategic island fortress which cost 10,000 heroic American dead to Japan — a country in which 1/3 of all American prisoners of war died in Japanese concentration camps.
