Bill ends state of emergency

WASHINGTON (AP) — The Senate passed a bill yesterday to end the state of national emergency under which Americans have lived for 43 years.

Upon agreement by the House to technical amendments, four presidential declarations of national emergency will be terminated two years after President Ford signs the bill into law.

The four emergencies still in effect that will end are:

■ The March 9, 1933, proclamation of President Franklin D. Roosevelt to order a bank holiday and deal with the economic crisis of the great depression.

■ The Korean War emergency proclaimed by President Harry Truman Dec. 16, 1950.

■ The postal strike emergency proclaimed by President Richard M. Nixon, March 23, 1970.

■ The international economic emergency proclaimed by Nixon Aug. 15, 1971, to implement currency restrictions and control foreign trade.

The bill provides that in the future presidential proclamations of a national emergency will end automatically in one year, unless renewed, and can be terminated at any time either by the president or by majority votes of both houses of Congress.

The clipping shown on the left is from the NEWS-JOURNAL of August 28th. This shows that enough people are becoming aware of the approaching Rockefeller dictatorship to make it necessary to give them this soothing syrup.

Contrary to popular belief, emergency orders promulgated by the President are not laws. According to the Constitution, Congress has a monopoly on the enactment of legislation, signed by the President or passed over his veto.

Since 85% of the U.S. Senators and a large number of the Representatives are controlled by Zionists and labor union bosses, there has been no effort made to stop Executive Orders issued by the President. Due to ignorance and complacency, state legislatures have failed to do their duty in rejecting unconstitutional Executive Orders.

But with the promulgation of Executive Order 11921, June 15th, large numbers of citizens awoke to the danger of having their liberties wiped out. So here is what the Zionists did: They got Congress to wipe out four Executive Orders. And these "will be terminated two years after President Ford signs the bill into law." There you are! Not even effective for TWO YEARS; —before that time, Nelson Rockefeller could become dictator, using Executive Order 11921.

The screws of the coming dictatorship are being steadily tightened. A recent example is from HUMAN EVENTS of Sept. 4th: "Sacramento, Calif.—A federal agency is seeking authority from the nation's highest court to jail Gov. Edmund G. Brown Jr. and put the state of California into receivership." We are losing our liberties even before Nelson Rockefeller formally becomes dictator!

EXTRA !! EXTRA !!

From the MORNING NEWS of September 23rd: "Prime Minister Ian Smith, weighing...the British-American plan for transferring power to Rhodesia's black majority (6,000,000)..." Don't blame the British and Americans for this project of wiping out 270,000 whites. The perpetrators are the Zionists in the C.F.R. (Rotschids, Rockefellers, Kissinger, etc., mostly Jews).

Don't waste sympathy on the Rhodesians who will lose everything, but shed tears for yourselves. In less than two years, we will be as down-trodden as the Rhodesians. Since neither Ford nor Carter is qualified to be President, we must pray for, and expect, a miracle. If Lester Maddox is elected, both Rhodesia and the United States will be saved from destruction by the Zionists.

IMPEACH NELSON ROCKEFELLER

EYE-OPENERS!
"O SAY CAN YOU SEE?"

Eighty years ago, the British Empire was the most powerful in the world and the greatest in all history. A quarter of all the inhabitants on the globe were under the Union Jack. The British pound was a world-wide currency and the English language was leading in all commercial transactions. "Britannia rules the waves" was a popular slogan. Today the Empire is gone, wrecked by the Jews.

Forty years ago, the whole world acknowledged the hegemony of the United States and no combination of foreign powers would have dared attack it. Today, it is a second-rate power, wrecked by the Jews.

The heads of the power group, which now covers almost the entire globe, are spoken of as "Bilderbergers," or "Illuminati." Part of them rule the United States through the Council on Foreign Relations (C.F.R.). The heads of the Bilderbergers are Rothschilds and Rockefellers. Control of the C.F.R. rests more with Rockefellers than with Rothschilds.

The treachery and treason of the Zionists can be better appreciated by remembering that Jacob Schiff of Kuhn Loeb & Co. and other Jewish international bankers in New York, sent Trotsky with \$20 million to join Lenin in Holland in 1917. From there, they were sent in a sealed railroad car across Germany to the Russian lines, behind which they built up enough strength to defeat Kerensky and change the Russian Empire, an ally of the United States, into the Soviet Union, our enemy.

In China, Chiang Kai-shek, an ally of ours, was double-crossed by General George C. Marshall, a tool of the C.F.R., and China was delivered to the Communists. Thus another ally of ours was turned into an enemy.

Both the Soviet Union and China were built up and subsidized by the Zionists running our government. Cuba was turned over to Castro by the Zionists. Accordingly, it is evident that to defend ourselves against our worst enemies, we must start shooting at their leaders in this country.

From "Mullins' New History of the Jews": "...Jewish subversion brought down the great civilizations of Babylon, Egypt, Persia, Greece and Rome." Spain and Portugal had tremendous empires 300 years ago; but the Jews ruined them.

The head of the C.F.R. is Nelson Rockefeller (only part Jew); Hans Kissinger and Ford are among his tools. By one method or another, Rockefeller can shove Jerry Ford aside, assume the Presidency, and through Executive Orders #11490 and #11647, establish 10 Regions of the United States and eventually abolish the States.

It is inadvisable to "hang Jerry Ford from the sour apple tree" before Rockefeller is convicted of treason. He is responsible for the treacheries of Kissinger and Ford. Urge your State Representative to ask Pete duPont to start proceedings before he tries any harder to become Governor of Delaware.

The only statement I care to make about the 'PROTOCOLS' is that they fit in with what is going on - S/Henry Ford

SAVE THE PANAMA CANAL

Termites eating into the framework of a conventional house can so weaken the timbers that it is no longer fit for human habitation. While the change is taking place, the paint is not bothered and, to outsiders, the home looks as solid and substantial as ever.

In the same way, the United States, formerly the most powerful nation on earth, appeared unchanged for 20 years after the end of World War II. But it, also, had been riddled by termites. If the majority of Americans knew how they are being betrayed, their wrath would be such that there would be traitors hanging from lampposts all over Washington, D.C.

For example: According to the April 26th issue of SPOT-LIGHT: "Ford Orders Canal Giveaway...President Ford personally had issued written instructions to the State Department to negotiate away the Canal Zone and the Panama Canal itself, Rep. Gene Snyder (R-Ky.) has asserted."

In a TV address on N.B.C., which the news media to a great extent smothered, Republican contender Ronald Reagan said: "The Canal Zone is not a colonial possession. It is not a long-term lease. It is sovereign U.S. Territory, every bit the same as Alaska and all the States that were carved from the Louisiana Purchase."

Reagan's N.B.C. address about Ford duplicity generally, and the Panama Canal particularly, was not given the same publicity as is given to candidates of the Rockefellers--Jimmy Carter, Jerry Ford, etc. If it had, the American public would have been aroused to fury.

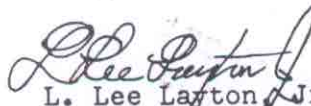

Since the news media is controlled by our enemies, let's get the message across by a different method. If the following song could sweep the country, it would save the Panama Canal, ruin Ford's chances for the presidency and demote Rockefeller's other tool, Kissinger.

Before showing this to someone else, try singing to yourself, a few times, the song below to the tune of "The Battle Hymn of the Republic":

"Hang Jerry Ford from the sour apple tree.
Drown Kissinger to the bottom of the sea.
Their deeds of treason are going so well
That they should be in HELL!

"Glory, glory, glory, glorious,
Damn the traitors so victorious.
They are working to destroy us;
God save the U.S.A."

The Badly ^{a worthy project}Licked Americans!

How much in taxes was taken out of their pay this week? 1/3 of their wages? More? Too bad! There is no reason for taxing Americans so much every week.

Since nobody has been able to arouse many Americans enough to listen to facts, this clipping of wages to collect high taxes will go on until citizens will take the time to read and to understand the information they receive from concerned citizens. In the meantime many Americans take a bad licking every week.

When the richest nation is deepest in debt - there must be something wrong - right? That is a fact. We are getting fleeced out of much of our earnings every week. Why then do citizens not respond when they are alerted with good information? They have no time to read? They are too lazy? They have no guts? Let somebody else do it? It will not work that way.

Every citizen should have enough interest in his America to help and make life better for all.

Those who clip our pay every week take the time to clip us. They are not too lazy and they have plenty of guts to figure out ways to clip all of us even more as time goes on. They know that many Americans are slackers and deadbeats who will not lift a finger to help. Those who clip us so much are on the ball. They spend plenty of our money to keep us misinformed.

You let them lick you?

They know that many Americans know all the scores of their beloved games - but nothing about the great difference in values between lawful United States Notes and Federal Reserve Notes. They have no intention to tell us anything about this great difference. It is that great difference in values which results in ever increasing taxes. Americans will get badly licked until they learn to demand that U.S. Notes - real lawful money - are issued again.

Federal Reserve Notes are not lawful money. They are an acknowledgment of indebtedness of the U.S. Government (all Americans) to the Federal Reserve Bankers. Federal Reserve Banks are private banks. They are not connected with the U.S. Government in any way. Nothing is ever published in newspapers explaining the difference between lawful money and Federal Reserve Notes. This important information is not taught in our schools. Successful crooks never tell their victims how they swindle them.

Fellow citizens - learn to understand that difference - demand lawful money as we had it before 1914 - or get licked week after week. You are the losers.

There are ways Americans have left to make our America prosperous as never before and almost tax free. Get interested in your America. Allow a little time each day to read and to understand why we have such high taxes. While there are many good books available which explain the great fraud practiced on us, one is especially recommended. After a few evenings of reading it will be quite clear to you why the richest country has the biggest national debt.

If the man of the house cannot be bothered to read, buy the book anyway. Perhaps a member of his family wants to find out why so much of the wages is confiscated every week.

The highly recommended book "Karl Marx, Capitalist" by June Grem will enlighten you very quickly. It is easy to read and costs only \$2.00 postpaid. No concerned American should be without this informative book. Order this book today.

Where is your pride?

You are a citizen of the greatest country in the world. We are overrun by thieves who steal a good part of your earnings right under your nose - and you do absolutely nothing about it. You let them gradually take your constitutional rights away. You constantly receive informative circulars from concerned citizens - and you just brush them aside.

Do you ever bother to read them? They are created to alert you and your friends, neighbors and co-workers. When about one third of your weekly wages are confiscated, does that not get your dander up? Do you go to work to support all kinds of leeches? Are you not a proud citizen of our great nation? If so - where is your pride?

Don't think for a moment that it will get better without you lifting a finger or spending a little. For the price of half a bottle of whiskey you can get an excellent book you should read so you know how all of us get swindled. How about it? Don't think other citizens are going to do it all. Either help - or get swindled more all the time.

Crime increases and nothing is done to stop it. We did not have such conditions a few years back. What goes on in our country? We pay heavy taxes for law enforcement, but many people do not dare to go out of their homes at evenings.

This great increase in crime throughout the nation can be attributed to the impotence and unwillingness of those who took an oath to enforce our laws and to administer justice.

Fellow citizens - you are getting licked all around. Your savings lose value all the time. Who steals this value from all of us? Why does that happen to us? It happens only because most citizens do absolutely nothing. They lick themselves. Are you one of them? Only concerned action by millions of citizens can bring relief. Be sure and study what follows below very carefully and alert your friends and neighbors.

"How - they - Vote"

Reports of how your elected men voted are now available. You will be able to read how your elected men voted on important bills in Congress. Obtain them - use them. Most of all, tell your friends, neighbors and co-workers about them. Write for "How-they-Vote" today.

Ever since late in 1913 our national debt went up and up. It was one billion in 1913 and now is over 630 billion and it is still going up. It costs about 40 billions a year in interests and all of it has to come out of the pay envelopes of American citizens. Do you think that we have been properly represented in Congress? Could it be that we have been misrepresented?

Do you ever write to men you voted for? Are they really representing you? Since your taxes go up and up each year - do you think they really work in your interest? Your vote helped to elect them at \$45,000 per year. Your taxes pay part of their salary.

Be sure and always contact your friends and neighbors and give them informative circulars you receive. Spread good information. How else can other citizens be alerted? For a dollar a lot of informative circulars will come your way. Write today. Become better informed. Most of all, help to get others informed. Your taxes will constantly increase unless we can stop it.

President Lincoln said on February 11, 1861: "Don't Trust Leaders - It is your business and not mine, to keep our nation free and preserved for our children". Heed his words!

SOME HARD-TO-LOCATE SOURCES OF
INFORMATION ON CURRENT AFFAIRS

Periodical - Book Trade - Organizational

This list remains just what the title says -- and it is unique.

It is a current guide to neglected news, forgotten background information and factual analysis on public policy.

Major topics are economics, education, government and foreign affairs. Individual listings touch many others, including philosophy, the press, propaganda analysis and the quality of life. The treatments range from popular to professorial. Important overseas sources are included.

The viewpoints are widely varied and conflicting. No one could agree with all of them. They range from religious conservative to Libertarian. Many are non-partisan and some are non-adversary in their presentations. The marginal publications naturally vary widely in quality and content from issue to issue. A few of those listed are offended by being here with others they heartily detest.

Some are scholarly organizations of international reputation. Many have been active for ten to twenty years and a few for over forty years. Several have 40,000 member-subscribers. A few have upwards of 100,000. They are, nevertheless, both hard-to-locate and informative.

New readers help to keep the list up-to-date and growing by sending corrections and suggestions. A new edition is compiled every 90 to 180 days, depending on demand. Each usually contains 30 to 60 revisions.

This unique directory is internationally known, thanks mostly to the regular recommendations of major U. S. library journals. Yet it remains unknown to most libraries, even in the United States.

Its sources of information are thus effectively denied to thousands of students, teachers, businessmen and other readers who seek information.

It is a vital tool for exploring beyond the limits of the mass media and the dominant, Left-"Liberal"-equalitarian intellectual establishment. But a tool is useless until it is picked up and put to work. Use it!

Use this page to tell others about it -- and how to get it. PLEASE make photo-copies -- or write for extra copies -- and mail them to libraries, editors and organizations.

All orders will be filled with the latest edition at the present prices: Prepaid \$2.00 each or 3 for \$5.00. For payment after delivery the price is \$3.00. Please send self-addressed, 9½-inch envelope with orders to:
