

Lane on Bob Trebor's show on KGO 4/24/78

Grace Walden "key" king assassination witness. She gave the Commercial -Appeal artist the only description of the killer. Long account of FBI threatening her, etc., as local authorities also did.

"They tried her first and she refused, so they brought in Charlie," who signed the affidavit, Lane says

He then repeats the testimony of some of our evidentiary hearing witnesses as his own investigation (McCraw, Jowers) and picks up with the official account, "The killer had been locked in the bathroom" since "about 5 o'clock."

Claims that Charlie didn't know what happened and that Gracie told Charlie.

FBI leaned on her but Stephens signed the affidavit for MPD.

(The FBI did not prepare the affidavit and the MOD did not. Nor the prosecutor. It was DJ CRD.)

Said that Ray got up and said there had been a conspiracy and the judge told him "sit down."

When Ray escaped McPen "the FBI sent out an all-points bulleting for him." They never did and only a \$50 reward was offered by the State.

Says initial wrong prints FBI's mistake, the only such in their history. McPen error.

Here he expands on FBI as "prime suspect" after saying the "FBI was determined to get King," to include "all" agents who were part of Cointelpro vs King.

Claims "all FBI surveillance was withdrawn." At Fordham he said just an hour before the killing. Actually there is no evidence of any FBI surveillance of King in Memphis. There may have been but I've seen no records and he cites no proof. Nor even a reasonable basis for suspicion.

Holloman, he again says, "ran J. Edgar Hoover's personal office for him" and that Holloman sent the memo to the papers about King at a white Motel. Thus he implies, "King checked into the Lorraine . . ." Thus FBI is prime suspect.

Says FBI took 13 days to "name" Galt and that it delayed identifying Ray for 15 days "to give him time to get out of the country." Didn't want to catch him.

Changes his name from "Get King Squad" to "Destroy King Squad" in Atlanta. Here admits that Murtaugh told him that M had run two informants inside SCLCm what he omits in praising Murtaugh in book and prime appearances.

Sprague forced out of HSCA by "the intelligence agencies and their contacts in the major media."

Before Warren Commission "I insisted on testifying in public or not at all." In fact he did testify behind closed doors.

Condemns Mae Brussell ~~and~~ and others as "theorists" and says he states facts only.

Claims he had been meeting with some of LHO's former Marine "buddies."
