*I'm sending
you only a few
pgs because I am
sending this pgs. inside*

about this:

*show the believe Henry
(if this is the situation)
purposely cracked out -*

The landlady said the fireman
said it looked like the fire had been set, etc.
this was further mean to me! I could only imagine.
since the warrell woman age
nearly 70 had been talking about my sons
for so long and seemed to have so much
undercover "power" she and her daughter
wanda, I was afraid of them - and as they etc.!!
son is still over there. She simply called me a "nobody."
suicide and it looked like since he tried
she said he wouldn't again - but my landlady
is rather penile or something, but she continued
staying here for an old room \$25 per wk.
What I'm getting at is that evidence points
to police involvement and coverup in some cases
and they show no regard for humanity, human
rights, human debris (murders, etc), wanda the
etc, etc - where are the employment benefits
this - its so shattering and its just me and
my dear, tearful son, that those last hours
until he went his way - to where. I found
a .22 cal (long) blt bullet with teeth marks on it
at the near intersection. I still can see dark
treaded tennis shoe tracks along the sidewalk
at the place and no one to care, no one to
over the check. Please do them, and I will
try to check. Please do them, and I will
expect your soon reply, this area I promise you,
long ago (SFK case, etc) - re past data! has
no defense against brutal infiltration. Right now,
for me - they won't even get a single slight young
black rapist in the east side area, etc.
I hope against hope, but its blind. I read
the signs. Please reply when you can.

*More a Jr. Redcliffe who could be given by several
around and big enough to do
anything.*

Dear Mr. Weisberg:

I am enclosing this ~ in the sack that I gathered from much more material by the curb at 802 W. 2nd, next door to here: (908). I explain, herein, in the papers.

2 weeks ago, my son Henry ~ would be 19 Sept. 30 ~ sat here on the bed where I am writing this and cried, saying he was scared, and now I do am left pondering.

The people around Henry ~ to whom the courts had turned him over, including one who he was to marry and she was 5 yrs. older than he ~ and they had a baby now a yr. and a half old. ~~She is close to a John Worrell.~~ Henry apparently has been judged, tried, executed without any concern for his life which would have been no doubt a long one. I am wrong about this again the evidence is overwhelming, and from what I know. He could have been murdered.

On that a.m. after the fire, after 9, a woman came by, called in. The fire dept. came "dutifully" put it out in the back seat of the blue, old, not late model auto - which had wiring on the door handle by the drivers seat. So in the paper next day the fire list # 2 in enclosing a list (sample) here showed only that the 5:35 deal when I was awakened by a stuck horn and ran out to see flames inside the bright in the station with the horn incessant. I couldn't see any figure but noticed the horn let up briefly, they continued. I ran back in my landlady (77) called in - she said later, a rescue unit had arrived but I couldn't bear to watch, ran back inside. That was Sun. 9 a.m. this is 5 hrs. p.m. by the apt. I just gathered up this material by the curb. 9:10 est. house, owned by a Louis (or Louis) my shp said = when I mentioned to the S.T. they had made no correction. could be the remains of my son because that was the only pair of trousers he had. When I saw him above last, about 2:30 or 3 Sat. of the library where he had come after my landlady wouldn't let him stay. She also was the name to Chas. my boy miss see (age 23 this Aug.) who went to Okla. City I've not heard from in a month, I'm afraid he was in foul play too.

3 days later I saw a afro-haired young black in blue flower shirt in the library - I received strange impression watching her also a - leg Mexican with a white winter cycl helmet, on a tall, I thought possibly be her a brother to "Fred" Farnas (or Chare?) ?? note: # responsible could be a Mrs. Chastain, or Jean Wanda Baber, "Washella"??

There have been many of you to see with care. Please call - about an interview level.
