

Dear Mr. Weisberg:

Since 1969, when he first made an appeal personally, I have been (over?) - contributing material to Mr. Bernard Fensterwald's good efforts in Washington.

Today, I have a letter from him in response to a letter of mine: asking whether I should continue to send pgs. (which I admit I have sent too much)!

However, as I wrote to him that perhaps I might send some ideas, etc., your way, and as you had been apparently investigating full time, I am happy that he replies that perhaps, probably, it may be a good idea for me to contact you.

As is, I have gathered chaff and wheat, but much of it hasn't seen light as yet, and too I do prefer low profile because there is a local totally dangerous element ("underworld" etc) and as I have determined from my years of receiving "vibrations" and close study of both written and unwritten, that which is to be read between the lines, only, that there are too many unnatural deaths too many victimizations in certain pinpointed areas of Ft. Worth - Dallas "metroplexes", etc. "Coverup" would be understatement entirely. (over pls.)

So, (as witness recent news of Lou Staples's "suicide", his body found in a field [^] ³⁸ ^{Beard} ^{him} in north Okla. City) as a terrible example! now, I am assuming that this was actually his death, and not another instance, as re told of in book: "Weyi wait Spies, Saboteurs etc" - where they aren't dead, but someone else(s) took their place etc. a classic example, based on this premise was the James Bond "spectacular" "You Only Live Twice".

So I am requesting total low-key. For all concerned until too ready, perhaps, to present the evidence to authorities who - we should hope - will be impeccable. The time has ~~past~~ passed, it would appear, when fair play (in openness) can be a part of the game. Instead, we must ~~remember~~ remember that in today's world, the enemy is too cruel of an adversary to be trusted with our openness until facts warrant. am I right?!

I presume Lou Staples was operating in Okla. (he was on a radio etc. according to the tiny-spaced newsaccts) as he had on KRLD, etc. I also was wondering (far-out) could he have been "Weird-Beard" (KLIFF) who ~~is~~ was pictured in book: "Destiny" ⁴⁵

what I have at present are several pkgs which were sent back from Washington D.C. I do not propose to turn around and mail them to you. I propose to cull out certain material, losing what, in the process, no doubt, trying to keep in balance with what you know and do not, remembering that as an individual you could not have been exposed to Fensterwald's material and I expect unfortunately "tone" had been discarded from time to time.

What we're dealing with is the abstract these days, because the ideas that have been recorded do not focus properly. Statis, there has been no cohesion, you might say, between individuals who have been wishing for justice in the assassinations.

where I intend to start then will be from here, I will sincerely try to cast aside the excess, what I have been aware of during the 17 years, nearly, is that there was intense feeling when Kennedy was here, and I do not mean political etc.

I have delved in the practical supernatural or psychic realms. I ask you to bear with some ideas in order to focus on the core of things. I advise you that in this area, the people who are "elite" are very likely post 50's - etc. refugees from the past, but their character forming from the terrible years when some were children.

(over pls.)

OK, I'll try then to begin where I left
off with Bud Fensterwald, but at the same time
streamlining to the bare fact - will be necessary.
I am not really a stranger to your
(year past) background, Mr. Weisberg. For in

In 1947 I entered the army, was placed
in ASA, (which today I feel was along with CIA)
I learned cryptographic methods, as a technician
I knew code, etc. Today, I can't believe that
the Germans from WWII and priorly and afterward
came to the U.S. in power and today have clamped
on the nation a steel mancover, etc. If you're
not agreeable to this theory, I'm sorry, but due
to my personal situation since the '50s I have
seen that to be so, I find inkblots in your and other books.

O.K., what I'm going to do here, is
list a few items, pertaining to JFK assassination,
etc. Out of the newspapers, I will try to flit
thru and include merely a few articles instead of
the massive amount of data which I have
poured poor ~~the~~ Lawyer Fensterwald's direction.
One elderly gentleman locally hasn't subscribed
at all to any of such investigations: Penn Jones.
However, to me, he missed several points, himself,
because he refused to go deeply enough (or be secret).

OK, Thanks for remaining - with me - this far! (Pg. 3)
My memory will not serve me as should, as to
the hundreds or thousands of ideas and/or impressions.
I've got down a few. If you will reply to me
shortly, I will spend time during my vacation -
commencing today trying to compile something with
which to communicate some important points.

Dear Charles Stone,

It is kind of you to offer me all your work.

But I'm sorry not to be in a position to do anything with it.

Medical limitations have made it impossible for me to keep up with the work of my own that I've started.

So I can't begin to think of looking into other areas.

Nice of you to offer, though.

Sincerely,

RETURN TO
