

Oliver Stone JFK film - first indirect indication of interest in fact 3/5/91

In yesterday's mail we got an order from Vroman's book store. As usual Hil does all ~~by~~ but the packaging on orders. She called to my attention in making the package that there was an address ^{label} and a return address ^{label} I was to use in making the package. This drew my attention to it and I was surprised that the package of two books was to go to Andrea Jaffe, Inc. I immediately recognised the name as that of the woman identified in a news account I'd received as ~~of~~ Oliver Stone's publicist. I therefor got from Hil and we made copies of what we got from Vroman's.

Of my six JFK assassination books the order is for two that hold verbatim Warren Commission executive session transcripts. I can see these being used in support of the Garrison and other conspiracy-theory fictions.

On the attached sheet of copies the upper-left is the return address and the upper-right is the address I affixed to the package that is in today's outgoing mail.

What is not legible in the order copy, inside the block in the middle, is "Rush."

The order is dated 2/15. But Vroman's did not mail it until 2/28. The two-week delay in mailing the order may or may not at some point be misrepresented into delay on this end.

In any event, with the script long-since finished and casting begun quite some time ago according to news accounts in this file, I do not think that this is the first indication of any interest in fact and that it is not by Stone but by his flack. All the books mentioned in the various reports in this file theorize conspiracies and not one is based on the available official records.

Stone had offered a contract to Greg Stone for use of Sylvia Meagher's book. This seems to be to be an effort to buy the name of the one author whose work is entirely factual who is not alive to complain. I told Greg this.

I do not recall the date on which I wrote Stone nor can I estimate the time it took for the letter to have reached him from the Camelot Productions office. But it might be of interest to compare that estimated date with this Jaffe book order.

And I wonder if she is the wife or other relative of Steve Jaffe, a Garrison sycophant who was later a publicist and who had Hugh Hefner among his clients.

Steve ~~xx~~ was involved in the Farewell America fiasco and was with "Lamarre" when I broke up the Garrison endorsement of the movie based on the fictional book. I think I have notes on that and I know if I have photos I took of the odd if not mysterious place Lamarre asked me to fake him, Villerie's Coal Scuttle.

If Jaffe had been in a rush, if she'd phoned me 2/15 and given me her Federal Express number she could have had the books the next day, second day if too late for FE pickup.
