On account of the charge that he rewrote history he says there is no  
official, correct history. Which is no answer.  
Says I would get his charge "on their day notice" not to  
much non-fact represented as fact  
He is not really defending himself against the charge and  
attacks others & the Warren Report.

Then he goes into magic bullet gun saying the bullet "plunged"  
in "up seconds" like hitting immobly.  
He then attacks the press, some by name who have written &  
spoken against him.

Says someone was using Oswald's name when LHO was in USSR.  
If he is referring to FBI's fear of Billie Ford is not clear.  
Goes into "the tramps in Dealey Plaza as per real."  
15 minutes into speech he says his film "suggates" assassination was  
over but then "impugning Newman book and talks about FBI's plan to  
get out. If true that does not prove this is why he was killed.  
after 20 min he is inside attacking.

Paper a movie as giving Americans "impression" about  
their "history".  
He says withheld the fact "the full truth about the assassina-  
tion".

most of his answers are not answers but are speeches.  
Love both facts & non-facts - Show was 64.  
assassination may have been case of the book had been written  
would he would not believe a word in of assassin's book. He  
said they investigated every thing & then as usual  
rumbled without responding.

Says that history will be that he would support a  
reinvestigation 3 weeks before his assassination + Bobby  
said the JFK wife  
Says the cutting pictures he used were "inherited" from  
a secret service agent.

He seemed to be showing heart and not to really  
answer question but instead to make self show pictures
