n an unworthy attempt to showcase his personal theories about the murder of John F. Kennedy, a self-promoter named Jim Garrison, the New Orleans district attorney in 1967, concocted conspiracy charges against a retired local businessman named Clay Shaw.

man named Clay Shaw.
Garrison alleged that the crime
in Dallas had been hatched in
New Orleans by Shaw. Lee Harvey Oswald and another man.
Two years later a jury, after a

monthlong trial and a closing ora-tion from Garrison, took only 50

tion from Carrison, took only 30 minutes to acquit.

The jurors concluded that, whatever doubts they might have had about the Warren Commission's finding that Lee Harvey Oswald acted alone, Garrison had utterly failed to link Shaw to any crime.

### Periury case

A day later the unchastened D.A. filed a perjury case, charging Shaw with lying when he denied meeting with or knowing his alleged co-conspirators. A federal judge took the rare step of finding "bad faith" on Garrison's part and enjoined the second prosecu-

Shaw died in 1974, thus ending his own suit charging a malicious Garrison prosecution and gross violation of his constitutional rights. He had a strong case of fabricated evidence, perjured testi-mony and abuse of power over the local legal machinery. In fact Garrison's sins were worse than that: he had appro-

priated another human being to make a self-serving political state-

Oliver Stone's new movie JFK not only fails to concede this evil

but perpetuates it.

About the only suggestion of a moral problem for the prosecutor, played by Kevin Costner, is expressed by his alienated wife, played by Sissy Spacek. She ac-cuses her husband of picking on Shaw because he's gay and sup-posedly vuinerable. But by the end of 3 hours and 20 minutes on the screen, she too accepts the "value" of his mission.

Stone is as careless with the truth as is his hero. He depicts the prosecutor's fabrications as actual events, and adds fabrications of his own. Like the D.A., Stone is indifferent to the rights of the accused and cynical in denying Shaw his humanity.

The movie is ostensibly dedi-cated to truth; instead it revives a

malicious prosecution and, like the prosecutor, uses Shaw to pro-mote a theory of grand conspira-

Allegations of conspiratorial meetings with Oswald and others, which would have convicted Shaw if the jury had believed them, are portrayed on the screen as actually happening.

as actually happening.
The movie also depicts as true a
policeman's contention that
Shaw, after his arrest, admitted
using the alias "Clay Bertrand."
Since the shadowy Bertrand
was a prime Garrison suspect,
Shaw would hardly have given

that incriminating answer. Indeed, the officer's testimony

was so preposterous that Judge Edward Haggerty ruled it inadmissible partly because it was un-believable. That was an astonish-ing act of incredulity almost unheard of on that particular local

bench.
Yet the film portrays the judge's action as finicky obstructionism.
These inventions exceed even
the questionable liberties enjoyed
by television "docudrama."
In docudrama, some scenes and

even some characters may be created for dramatic reasons or to tell a real-life story more clearly. But it is dismaying to see entire episodes presented as true, espe-

coils) episodes that have been vir-cially episodes that have been vir-tually laughed out of court. Stone glosses quickly over the jury's ringing "not guilty," strikes up triumphal music and ends the film with a written epilogue. It says that in 1979, Richard Helms, who was director of central intelligence at the time of the Shaw prosecution, admitted that contrary to the defendant's testi-mony, Shaw had "worked for" the CIA, one of Garrison's perceived

### What Helms said

But all Helms said was that Shaw was a CIA "contact," like many businessmen and academics who are sometimes debriefed

on returning from abroad.

Oswald is accurately quoted as contending before he was shot that he was a "patsy" in the Kennedy case, a victim of a frame-

Prosecutors and historians will long debate whether he was in-deed the fall guy arrested to divert attention from a monstrous global conspiracy. What they are not morally free to do is make a patsy out of someone like Shaw to adthose theories vance

THOMAS OLIPHANT

ASHINGTON Before you see the film JFK (which, if you've any sense, you will), you should know some-thing about the city that lurks and hovers menacingly throughout Oliver Stone's riveting tale of murder and deceit — Washing-

It's important because of an ironic twist to the politics of Stone's latest work, which, as art, is simply magnificent; as histori-cal drama, is honest on a level few here will understand, and, as nolemic, is devastatingly effective.

### Unsolved murder

This is the city whose best and brightest failed to solve the assas-sination of a president to the public's satisfaction, and to the minimum standards of thoroughness and logic, despite nearly a decade of all-out support for its official investigation from the journalis-

tic and political establishments.

And yet, after nearly two decades of continual pummeling of the still-official version in the world of print (suffered nearly in silence), much of the town is aghast at the appearance of this film and has taken after Stone

with a vengeance.

The irony is multiple and ludicrous. The town whose main in-dustry has been failing with monotonous regularity since the day John Kennedy was murdered dares to condemn a dramatization of one of its most despicable

The town whose paralyzed gov ernment is the deserved butt of national humor doesn't even understand that its media mobilization against Stone can only backfire spectacularly.

The town whose remaining de-fenders of the One-Lone-Nut-Murdered-By-One-Lone-Nut version of the crime (including, by the way, presidents and Con-gresses who routinely refuse to reopen the case) insist that the rest of us believe them and also refuse to help make public the reams of evidence in the case that will otherwise remain locked up until the year 2029.

As ever undeterred by its ridic-ulous position, Washington's attack upon Stone consists of two major points: He alleges a conspiracy so vast Stone does no such thing to my

eyes. In his spellbinding blend of drama, documentary, and even dramatized documentary, he sug-gests possibilities through his characters and then illustrates them. His point of view is clearly that Kennedy's murder originated in military-intelligence opposi-tion to post-Cuban-missile-crisis changes in policy away from the Cold War, against a second invasion of Castro's Cuba, and, above all, against Vietnam.

(military, intelligence, industrial, right-wing fruitcake, Cuban exiles, the FBI, Texas authorities, even Lyndon Johnson) as to be ediculor.

However, Stone leaves one free However, Sone leaves one free to accept all or none of his suggestions; only elitist Washington would assume a mass audience of zombies, incapable of viewing a political film carefully and crit-

ically.

He has built his story around a fabricated hero — Jim Garrison, the former New Orleans district attorney — who was an incompetent buffoon who slandered a lo-cal businessman in the pursuit 24 years ago of an imagined network of assassination conspirators in the city's low-life community.

Not so, JFK's Garrison has visi-ble and large warts, and is well ble and large warts, and is well within the boundaries of dramatic license as portrayed by Kevin Costner. The passage of time, moreover, has strengtened the real Garrison's basic case. The businessman (the late Clay Shaw) lied in denying ties to the ClA, and witnesses insist to this day they saw him with Lee Harvey Oswald and the bizarre character wald and the bizarre character Garrison believed drove to Texas in time for the assassination to be the real killers' getaway pilot (the late David Ferrie).

### Warping tools

History is not always what is left when falsehoods and rumors are professionally discarded; his-tory can also be the product of political power's warping tools. The Warren Commission's 28-year-old report is at least in part that; it failed in its declared pur-

pose long ago.

In conversations here and in California, Stone told me he sees JFK as myth in the classical sense of the term, meaning allegory that points to an inner truth.

As such, it is credible; it is honest. Stone asks us to consider the possibility that Kennedy's mur-der was, in effect or in fact, a coup d'etat. We don't have to, but it is interesting that Washington's attack on him does not include any hint of a willingness to let us 20 that long-suppressed evi-
