

From Formerly U.S. Marshal Don Moore 4/13/93  
JB Stonehill

M E M O

November 1, 1963

Wednesday, October 30, 1963. Talked to "G" in Georgia long distance and in our discussion he told me he had gone to Captain Little and, also, had talked to the Bar Association in Atlanta and was to meet with Captain Little again on Friday. That things looked very good, he was to get evidence together and prepare information for Bar Association against Stoner to disbar him. I promised to give him what information we could from Birmingham.

Rev. M. L. King made statement in New York to investigators for AEL he was worried and tired and looking to retire in near future that he was investigating several people to take his place. It is still plans for big leaders of the variety field, churches, and other organizations to meet in Birmingham November 7, 8 or 16 to introduce this group to the King brothers for a Nation wide appeal to be made by these people through their own organization for one last big push by King.

Warner was arrested at his home after complaint against F.B.I. being communist. Case set for 10:00 in Ensley. Informer "J" was in the house at the time, also, was out there again Wednesday night. Called Detective Jones, it was relayed to Lieutenant House that they would pass the case this morning as their attorney was not able to be here. It was pointed out to Lieutenant House that their attorney did not hold license to practice in the State of Alabama only reason he practiced here was by the courtsey of the Court. Also, that they would attempt to summons the F.B.I. men as witnesses. Information from "J" that if we could get Warner we would have possibly the weakest man in the organization as the organization would not let Warner stay in jail any length of time at all that they had orders to get him out of jail as soon as possible. It is belief of informer "J" that this order is given because Stoner feels that he might talk. He stated that Warner and Dutton left 1865 every afternoon at 6:00 and went to supper some place and stayed out till someone else came to stay there. Both of these parties, they say, are very nervous and scared. Our informer sometimes has gone with them. He drives a '57 blue and white ford. He has been stopped and given a ticket which he paid. "J" also informed us that Warner wouldn't go to sleep without locking his door. He locks his door as he comes downstairs. Det. Jones talked to Berry, Fire Inspector, about having a fire inspection there next week and "J" informed us that the floor furnace is bad and paper piled all over the place. And also that kerosene is stored in the place. "J" informed us that the bathroom floor should be fixed as it is about ready to fall in. Our information was that the complaint turned in on windows being broken that they had broke them themselves to make a complaint. They are still talking about police refused to come to Field's house when he had a bomb threat. Our information is that Fields can cash checks up to \$300 or \$400 and will because he has cashed them from the
