Dear Tony,

I am not at all sure that Jim Lesar will have what you refer to in your 11/30 but I do and you can check it with me, I suggest that when you get around to that part you write me what you intend to use. I had in mind those things I mentioned and nothing else. If you would like to use more, tell me what it is and I'll respond promptly.

By the way, when you and Cathy were here did you go over my DeLoach subject file? It is minuscule compared to what the FBI has but there is some pretty good stuff in it on the FBI's record-keeping on the press and manipulation of it. It was a major operation. There is a beautiful story in it on Sid Epstein and the Washington Star and on the Post, some revelations about Hoover and friendship (like Morris Ernst and Walter Winchell) and, if I didn't mention, on the Ray case. Well, the Ray stuff is in my writing file but you are welcome to it and to the other such projects for controlling what would be known and believed involving other writers.

I've been meaning to ask you, and I recognize that my recollection comes at a time when you are busy, you referred to your interview with Sylvia Duran and other information on her in the WBAI radio show a couple of years ago, with that foolish Davison woman. I'd appreciate being able to read it.

There is so much to remember! Did you or Cathy get the stuff on Ford as the FBI's informer inside the Commission (through DeLoach- we could say that "DeLoach wran" him)? George Lardner told me about one Hoover notation I did not find on the copies I got. He called Ford a "worm." I asked Lardner for a copy of the Post's copy but he said those records then were in storage.

JL- I've marked a line in his letter because I did not agree that the could use "the King King stuff", only those things that I specified in my letter to which this is his response. I do not want anything else used without my agreement and that is why I ask him to take anything else up with me, not with you.

Good luck in your writing!

Dear Harold,

Thanks very much for your long letter of November 23. Forgive me, please, if my replies to you are short. I am simply deluged with work here - and what you write me is carefully read and logged.

Thank you for agreeing that we could just paste in the King stuff in my Hoover book.

I will liaise with Jim L. to the extent that he has the data, write a piece - sometime late next year - and then submit it to you.

Thanks, too, as ever, for your encouragement.

Sincerely,

A handwritten signature in cursive script, appearing to read "Tony", with a long horizontal flourish extending to the right.
