Dear Tony,

Jim tells me of your interest in the Douglas impeachment. Fine, you are welcome to anything. I have much more here, I think.

This gets you into Water gate and to things that escaped any public attention and in some instances are quite significant. Like would you like to use the content of those erased 18 1/2 minutes? Of Nixon's tapes.

Or link the Watergaters to the author of the book seeking to impeach Douglas?

Or tie that to the CIA? Including Hunt and Mullen.

And maybe to the Mexican laundry of the Watergate money?

Even bring a new perjury charge against Helms, who has no Ed Williams now to <sup>a</sup>praise his patriotic perjuries.

I'll not be home this coming Thursday. Back to Johns Hopkins for a check on the better eye operated on last week.

Other than that I'll be home, having no choice. Can't drive for a while and even reading is difficult.

Best,
