Stahnsdorf, August 18, 1997

Dear Mister Weisberg,

for a couple of years I am interested in the circumstances of the death of the 35th President of the United States, John F. Kennedy, on November 22, 1963.

Of the great variety of books published about this case, I have bought more than thirty of which I have read about the half. Among the most interesting books were some of the publishings you have written. So far I have read Case Open, a response to Case Closed. Currently I read Selections from Whitewash, a summary of your four earlier published Whitewash books (A list of the books in my possession is enclosed).

When I read your books I always am under the impression that you strictly go by the facts to show in this way how wrong the Warren Report intentionally was. This is in difference to what most of the other authors do. Also impressing is how quick and exact you work - to read the 26 volumes of the Warren Report and keep the references in a couple of months is impressing alone.

My impression is that you are one of the few people who try to disprove the official facts instead of producing paranoia or to make money. I also find that there is a heritage of knowledge that you are able to transfer to a new generation.

I would like to visit you to hear what you know and have not written in your books. So far I have never met someone who has so many information about this case like you. In the beginning of September I will do a little trip throughout the northeastern part of the United States. Since we will visit Washington D.C. I wonder if I could come visit you in Frederick. In accordance to our schedule I could step by on September 4th or 5th. I would gladly appreciate it if you would find a couple of hours in your schedule for me.

Currently I can think of the following topics to speak about:

- information about the current standing of any government investigation
- latest state of the publishing of formally secret information promised by the Clinton administration
- information about a 'Mr. George Bush of the CIA' used as an addressee in a memo from J. Edgar Hoover regarding information about the development of the case shortly after the murder
- sources to receive out of print books about the killing
- people to speak to who have detailed knowledge about the incident

Furthermore, I would like to buy the book Oswald in New Orleans: Case for Conspiracy with the CIA which is out of print.

I would appreciate it very much if you would give me your view of the case. I would also like to discuss certain aspects of the murder with you. Moreover, I am interested to take a look at your files to see real documents and not copied versions of the papers (I don't know if you can understand this but so far I have just seen copies and read hearsay. True information seems to be very important since they are history - especially in this case).

If you would like to give me any response to this letter please do not hesitate to contact me via my business fax in Berlin.

Yours faithfully
