CRITICIZES NEWSWEEK & TIME FOR ANNUAL "RIOT ISSUE"

(DON CANNON'S GUEST WAS DICK GREGORY)

GREGORY: "And I tell you what, if you go and get Newsweek Magazine, and go and get Time Magazine, for the last three years, they been coming out with a special riot issue. And on the front page they got a colored cat with a brick talkin' about 'I hate Whitey,' and also they list some towns that's on the hot list that the colored cats in the Civil Rights Movement don't know about. And I think somebody ought to go and tell Newsweek and Time Magazine -- Drew Pearson just predicted last Sunday -- did you hear Drew Pearson predict that Watts was gonna blow up? And we're just gettin' to the point now that when Negro and media white folks come out and tell you want's hapnin', we're always worried about what's gonna blow up. Baby, sittin' here tonight is not gonna do this. We blame Black Power and Stokely Carmichael, but when Watts blew up we never heard of Black Power nor Stokely Carmichael."
