Dear Jim,

Our friend with the Boston Red Sox who is interested in the JFK assassination and who may like to meet you is Steve August. He is the director of major league operations of the team.

They are, as you know, at Fenway Park.

That address is 4 Yawkey Way, Boston, MA 02215-5496.

The team may not be playing down there for some time.

Sorry I forgot to tell him how to get in touch with you.

Hope your work is coming along well and that what I last wrote you about that curbstone is helpful to you.

Our best,

*Harold*

Dear Steve,

Thanks for yo ur card.

I'm sure his grandfather was very glad to see your son. Were we in that position we would want to, very much.

I've read Bill Pepper's book. I have many questions about it. However, I ~~do~~ have no question about the rifle now in the news because I proved in court as ~~Ray's~~ investigator, during the evidentiary hearing to try to get him a trial, that it could not have been <sup>used in the crime</sup>. The judge just did, as judges can do, decided contrary to the evidence.

As I can get some of these manuscripts that are to be a record for history retyped, sometimes I have rough drafts I do not need. I think I'll have one on a very long manuscript in which I used Norman Mailer's terribly bad book to tell more of the story and more about the situation. Of you'd like it let me know and if as I think I do ~~not~~ need it I'll send it to you.

We are making out, thanks. Lately I've been much more tired. If it lingers I'll see if the doctors have any help for it.

Our best,

Hard
