

P.S. I would also like a copy of all records on or relating to James T. Tagus, including staff papers and particularly as they relate to statements he made or evidence he could provide and its meaning.

I have some such records.

I am not certain of their completeness.

This is relevant in C.A.75-226, which is currently before a court, so I would appreciate this request being filled as soon as possible.

Thanks,
