SA EMORY E. HORTON

LEE HARVEY OSWALD, aka.
IS - R - CUBA

On 12/14/63 SA EMORY E. HORTON made a review of U.S. Secret Service document dated 11/28/63 consisting of 27 pages and a cover memorandum from Inspector KELLY of the Secret Service captioned "Preliminary Special Dallas Report #1. Assassination of the President (Assassination Scene)". The interviews as set out in that document have been reviewed bearing in mind the information obtained from the persons interviewed at the times those individuals were interviewed by SA's and in most instances the agents obtained the same information or more information than was obtained by the persons conducting the interviews as reported in that document. The following are instances where it was noted that the person interviewed furnished information that was to some extent at variance with the information furnished the SA and appropriate requests are being made to clarify those instances:

Page 2-reflects interview with AMOS LEE EUINS, 411 Avenue F, Dallas, Texas, who was a witness at the assassination. EUINS has previously been interviewed and furnished substantially the same information but during the interview by the agent he denied seeing the assassin's face whereas during interview at the Dallas County SO he alleged to have seen the individual's head. SA MITCHELL has been assigned a lead to reinterview EUINS and clarify this point. It should be noted that EUINS' stepfather questioned the statements made by EUINS on interview.

During interviews with RONALD B. FISCHER and ROBERT E. EDWARDS by the SO they identified the window where they had observed a man as being on the fifth floor and subsequently during interviews by SA's they identified

the pertinent window as being on the sixth floor of the Texas School Book Depository. This point does not appear to be of definite pertinence and no lead is being set out to have those men reinterviewed.

On interview HOWARD LESLIE BRENNAN, 6814 Woodard, advised the SO representative that he saw the assassin before the motorcade arrived but did not relate this during subsequent interview by SA's of the Dallas Office.

A lead should be assigned to have BRENNAN reinterviewed to clarify the above point. The agent to whom this lead is assigned will review pages 12, 13 and 14 of report of SA ROBERT P. GEMBERLING at Dallas dated 11/30/63 prior to conducting interview with BRENNAN.

It is noted that in the interviews by both the Police Department and SAs, WILLIAM WAYNE WHALEY, 619 Pine Street, Louisville 2, Texas, the cab driver who took OSWALD from the Greyhound Bus Station to the 500 block of Beckley Street immediately after the assassination on 11/22/63, described the shirt being worn by his fare as being a dark shirt with white spots or markings. As WHALEY apparently recalls the shirt being worn by his fare quite well, the brown shirt reportedly worn by OSWALD at the time of his arrest should be exhibited to WHALEY to see if he can identify same as being the shirt worn by his fare on November 22, 1963.

JACK E. DOUGHERTY, 1827 South Marsalis, an employee of TSEB, states "...there was six of us working on the sixth floor. The others were BILL LOVELADY, WILLIAM SHELLEY, DANNY ARCE, BONNIE WILLIAMS, and CHARLES GIBBONS. I worked until 12:00 noon and went down on the first floor and ate my lunch and went back to work at 12:45 PM. I had already gone back to work and I gone down on the fifth to get some stock when I heard a shot. It sounded like it was coming from inside

the building, but I couldn't tell from where. I went down on the first floor, and asked a man named EDDIE PIPER if he had heard anything and he said yes that he had heard three shots. I then went back to the sixth floor. I did not see anyone on the floor except the people I named. There was another employee that is named LEE OSWALD that I saw on the sixth floor. He works all over the building, but I saw him on the sixth floor shortly before noon. I did not see OSWALD in the building after lunch".

On interview by agents DOUGHERTY did not relate his activities as set out above after he heard the shots but it is noted that during the interview with DOUGHERTY his father, R. C. DOUGHERTY, was present and advised his son had received a medical discharge from the Army and indicated his son had considerable difficulty in coordinating his mental facilities with his speech.

A lead will be assigned to have DOUGHERTY reinterviewed to clarify the above in an effort to determine if he did in fact visit the sixth floor of the TSEB immediately after he heard the shots fired, if so, what did he observe. Prior to conducting this interview the agent should review page 366 of the report of SA GEMBERLING bearing in mind the information furnished by DOUGHERTY to the Dallas PD as quoted above.

Interview with DANNY GARCIA ARCE, 1502 Bennett (TA 1-3289), an employee of TSEB, as set out in the Secret Service report ARCE relates substantially the same information as furnished during interview by the agent of this office, but in addition, relates the names of the persons that he worked with during the morning of 11/22/63 and further states "the only person I saw was a real old man, and he had on an

old brown suit and a Western style hat. I saw this man leave the building and drive off in an old black Buick. This man was not carrying anything in his hands when I saw him. This man was in the building after lunch. This man left in the car before the President was shot. I did not see any other people in the building but this old man other than the people I named that worked there.

Lead #4 | DANNY GARCIA ARCE will be reinterviewed with additional other investigation conducted consistent with information developed to identify the "real old man" in the brown suit referred to by ARCE above. Will thereafter interview the old man referred to to determine the nature of his business in the TSED immediately before the President was shot.
