Dear Mr. Thomas,

Enclosed is a list of my printed works, in the form of an order blank. OSWALD IN NEW ORLEANS is out of print. I have a couple of copies only. As soon as I learn whether I can have xerox copies made and the cost, I'll be selling this or xeroxes for that cost, plus handling, etc.

So far as I am concerned, FAREWELL AMERICA is a fake, from beginning to end, the probably product of two intelligence agencies. I know and met Lamarre, I know the subject, and he is, as you should be able to see for yourself, nothing at all on the crime. Remarkable, considering the claim to have had access to one of the assassins.

Maggie Field is a fine person, a millionaire without the dedication to print her own book when, indeed, Random House broke their contract. I suspect it is now entirely or almost entirely dated, but that is irrelevant, especially in the light of its unique format, pencopies of the Report and appended 28. Lamarre was busily engaged in ulterior objectives, so he singled out Maggie's work. There was much other new material in which he had no interest.

That, by the way, was not the only time Random House broke such a contract. They began doing this with Leo Savage.

Nor is Random House alone in this. It happened to me several times.

It is unfortunate that so much crap is readily available whereas the solid work is unknown, for the result is the further distorting of the public mind, in either extreme.

I hope you get to the point where you can discriminate, of your will, inevitably, and more confused than the authors of the Warren Report could have hoped or, on their own, accomplished.

Sincerely,

Harold Weisberg

Dear Mr. Weisberg;

Recently I became aware of federal and local government suppression of evidence relating to the assassination of John F. Kennedy. My interest has led me to seek out further evidence. I understand from the NCTIA that you have written the following articles: Photographic Whitewash, Whitewash I: Report of the Warren Report, and Whitewash II: The FBI-Secret Service Cover-Up. Can I order these sources from you and what are the costs involved?

Currently I am reading Farewell America by James Hepburn. The author mentions a lady named Mrs. Majorie Field from Calif. who wrote a work entitled The Evidence. Hepburn claims that no publisher has yet accepted The Evidence for publication. I wondered whether you have seen her book (unpublished) or wished to comment on Hepburn's charge.

Thank-you for your co-operation.

Sincerely,

Chris Thomas
