new eddress: Rt. 7, Frederick, Md. 21701 301/473-8186

11/25/67

Dear Ray,

U ay

A STATE

ANNAL CONTRACTOR

What you told me of "hompson and his work before I read the SEPost piece and heard him last night and this morning on WCAU, Philadelphia, is a very considerable understatement. To call him merely a crock is a kindness. He is the worst fink of all, having come up with the formula that might wreck what we have all been seeking, having provded an out within the basic conclusions of the Commission: no conspiracy, Oswald not innocent, fatal shot (assassination) from sixth floor window(read by Oswald).

This slone accounts for "eis' willingness to publish it end the attention it has gotten and is getting.

Enclosed is a poor copy of the long letter I wrote Jack Mc^hinney, on whose show he appeared. If he is not a friend of Jack's, Vince is and Jack treated him as an old friend. ack, incidently, is the most wonderful of the fine guys in the telk-show business, to my experience. He is decent, fair and incorruptible.

At the risk of being called paranoid, from no on \perp have no communication on the subject with Vince. I had trusted him. Now \perp understand a strange call after a long absence and silence in which he was prying quite a bit about my to-him then new work. I told Vince of the double head hit in the early Summer of 1966. I told him of the Harper documents I showed you all last December (head fragments to the south in Dealey Plaza). I gave Dick Billings copies in May of this year, having also told Sylvie of all of this last year!

Is it conceivable that in his own search of the Archivas he could come up with nothing I hadn't published or given others and with nothing I had that \perp hed not published and given others?

This troubled me so I couldn't fall asleep at 22,m. when the show ended. There were many dishonesties sside from those 1 mention to ack. They cannot be accidental and they are quite numerous. He is careful to disassociate himself from "the xritics". This is the one honesty I can attribute to him.

This is esuave bestard who knows exactly what he is doing, what its political consequences can be, and how rich the formula can make him. He told a friend of mine who is ultra-conservative that he couldn't care less about the Warren Report; he just wants to wreck the government. What he has done is the opposite. Eased on acceptance of his book and doctrine, all the finks can now come forth and hail the staggering government as essentially right, that Oawald was the essassin, but maybe not alone. After the passage of time, this would be a government victory. fear it deeply. And I will use what time I can get to expose it. That will begin this coming Monday, 11/27, when I do a show by phone. I'll be in New York soon, and will do what I can there. I expect to be ou there again Jan-Feb. Make plans for me to go after him and this doctrine, and I think we should do it with pictures and documents. If this doctrine gets acceptability iss it did from Liebeler, we have a very merious problem and a real jeopardy to truth.

My spologies for the poor carbons. I use the carbon paper Lil finishes with and the negative sheet from the 3M, for 1 must save pennies. Sometimes I forget to change the carbon paper. Best to you all, and the thanks you know I feel. Try and get Arbogest and Margolis to air me on this by phone. Best,
