Dear Mr Weisberg

I am very pleased to receive your letter of May 11th. I am enclosing cheque for \$10.50 for a copy of "Frame Up". I will enter it in my supplement in Group one ~~for~~ by the reviews there ^{are} enough references to the paragraph "modus operandi"; similarity of "Patsys" - similarity to the drawn reconstruction of the facial identification of the suspect of King's ^{murder} and the photo in Jones Vol III of the gunmans arrest behind the grossy know to we went it as being partially related to the assassination of President John F. Kennedy. Please send me particulars as ^{per} page 3 of my Bib. of your "Post mortem" so I can enter it in Group 1. It does not matter if it is not available yet. Tell me the price of what you have ready of it and I will send you a cheque. There is another book indexed by the name of "Post Mortem" I will look it up for you. I will enter a note that Nos 66 and 69 are withdrawn if you wish - but I think it will look better if you fill out the ? marks and leave them in. There are plenty of my entries not available but the intentions were valid. Spolnick is not very prompt in filling orders (over)

I sent him \$5.00 for "Who's Who in the CIA" on
April 24 + have never heard from him. It took him
18 days to send me his \$2.00 briefs by letter, 1st class. He
was on Alan Dale's show about 2 months ago and said
"Farewell America" was not available from Canada. I
never had any trouble getting it about a year ago
I think if you read the fine print of the conditions
the Kennedy Family deposited the Photos of the Autopsy
in the Archives that if you howl loud enough they
will be available this autumn (Probably a bunch of
switched ones by Shanpfield) The fact is that they
were made of Govt materials by Govt employees
on Govt property and the Kennedy family had no
legal right to impose any conditions on keeping them.
In regard to Kennedy not having an undershirt on
I think it was in Red Roses that someone asked for it
as a souvenir and another book said the FBI got
it back. ^{Cooks} described it as a waist corset that
had an upright portion of 1/8 inch aluminum faced
with leather that supported his right shoulder blade.

I am glad to have your remarks on Sholnick. What is
your opinion of S. J. marks. The Establishment is giving
him a rough time.

I would be glad to have any description and the serial
no of your Z camera (a duplicate of the original) and any
markings that will enable me to locate one here. The
one with no model no. but serial no that I sent
Bell + Howell 3 different times the last 2 months and

they won't answer. I remain your friend
W.C. Thompson

I bought \$150.00 worth of microfilm
from them and that's they pay they
ignore business
